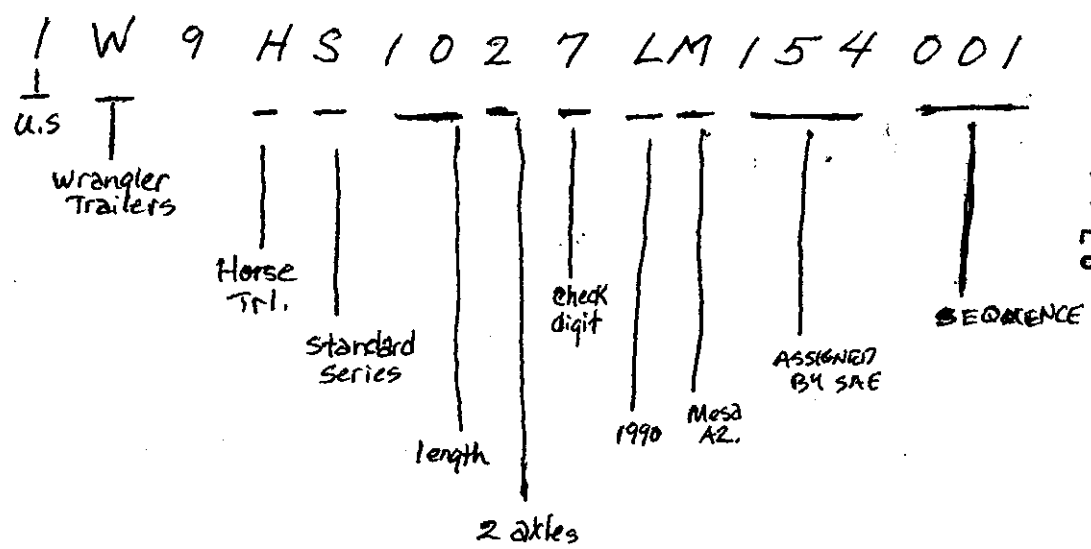
Patty,

Below is our first assigned 17 digit VIN which is still in production and won't be completed for probably 30 days.



RECEIVED
NHTSA DOCKET
91 MAR 6 A10:25

This VIN will be assigned to our first two horse standard tandem axle trailer using the 17 digit series.
the check digit of 7 was arrived at by using the computation given in instructions I received, I wont bother you by writing out the entire equation.

Thank you.

Robert K. Hathcock
