Mandatory

Requested

Optional

Items identified as "mandatory" are required for all services to collect and submit to the state data system. These items are required to facilitate a near 100% validity score on the run report.

Items identified as "requested" are those elements that should be sent if collected in your database. This information will assist in making the system more accurate. These are populated based on the type of call and will not always be present in your system. Though there is no penalty for not submitting these, they may become mandatory in the future.

The "optional" items are those that would be nice to have but are only found in a few data systems.
