

Research In Progress

Conduct National Surveys on Distracted Driving

Project Manager: Kristie Johnson, (Email: kristie.johnson@dot.gov, Phone: 202-366-2755)

This project will assess and monitor attitudes, beliefs, and behaviors related to distracted and unsafe driving practices by conducting a national telephone survey of a randomly selected sample of drivers ages 16 and older. A minimum of 6,000 U.S. drivers will be surveyed using a dual frame sampling method (landline and cell phone only). The survey will be administered in English and Spanish. The project also requires analyses of the survey data and a final report describing the background, methods, and results. The results will be compared to the baseline survey conducted in Fall 2010.

The project includes up to two additional survey administrations.

Start Date:	9/23/2011
End Date:	3/22/2017
Contractor:	Abt SRBI
Contract Number:	DTNH22-11-F-00355
Total Contract Cost:	\$2,248,556 including the Base Period and all option periods and items
