TRIENNIAL HIGHWAY SAFETY PLAN UPDATES

On July 1, 2023, Tennessee's 2024-2026 Triennial Highway Safety Plan was formally submitted to the National Highway Traffic Safety Administration (NHTSA). As a result of this submission date, the State of Tennessee has not made any updates to the analysis contained within the plan.

The countermeasures outlined in the plan continue to be implemented for projects scheduled for funding in Federal Fiscal Year (FFY) 2026. This Triennial Highway Safety Plan represents a comprehensive long-term strategy aimed at reducing fatalities and serious injuries on Tennessee roadways, aligning with the mission of the Tennessee Highway Safety Office (THSO).

FFY 2026

PROJECT LIST

Sub-recipient Name	Project Title	Project Description	Federal Share	Funding Source	Project Agreement Number	Indirect Cost %	Local benefit	Equipment	Targeted Area	Sub-recipient Type	GTS Eligible Use of Funds	Program Section	Program Countermeasure
Adamsville Police Department	Enforcement of Tennessee Driving Under the Influence Laws	The project helps prevent driving under the influence. Law enforcement uses the funds for high visible enforcement and public education. Officers trained in standard field sobriety testing and drug recognition lead the enforcement. The grants also fund equipment and supplies for DUI enforcement.	\$ 30,000.00		154 154ENFDG-26-001	0%	Yes	No	City of Adamsville	Law Enforcement	Drug Enforcement	Impaired Driving	Impaired Driving Enforcement
Alcoa Police Department	Community Traffic Safety Enforcement and Education (PT)	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 35,000.00		402 PT-26-001	0%	Yes	No	City of Alcoa	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Alexandria Police Department	High Visibility Enforcement of Tennessee Traffic Safety Laws	The project will conduct quarterly high visibility enforcement to support traffic safety campaigns. Grant funds will provide active enforcement staffing for saturation patrols, checkpoints, and other enforcement activities. Some funds may be used to purchase safety supplies and small equipment.	\$ 10,000.00		154 154ENFDG-26-002	0%	Yes	No	City of Alexandria	Law Enforcement	Drug Enforcement	Impaired Driving	Impaired Driving Enforcement
Algood Police Department	Community Traffic Safety Enforcement and Education	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 17,428.44		402 PT-26-002	0%	Yes	No	City of Algood	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Alliance Highway Safety	2026 Tennessee Lifesavers and Law Enforcement Challenge	This project will assist the THSO by coordinating and managing all logistical elements of the 2026 Tennessee Lifesavers Conference by September 30, 2025, including hotel arrangements, food and beverage, AV, room layout, and on-site support, with regular progress updates provided to THSO.	\$ 248,000.00		402 CP-26-001	0%	Yes	No	Statewide	Other	Community Traffic Safety Programs	Community Traffic Safety Program	Planning and Administration
Alliance Highway Safety	Choices Matter	Choices Matter is a program for high school students that uses personal stories and interactive materials to inspire students to make the right choices while driving and in life. Alliance Highway Safety's young driver project targets the primary causes of road accidents among 15 to 19-year-olds in FFY 2025. The project will educate young drivers on safe driving practices and promote responsible driving habits to reduce the trend of teenage traffic fatalities in the United States.	\$ 100,000.00		402 TSP-26-001	0%	Yes	No	Statewide - The project will serve 20 high schools, with a goal of reaching the county areas with the highest number of crashes.	Other	Teen Safety Program	Young Driver	Awareness and Education
Alliance Highway Safety	Rule the Road Rivalry Tour and Hands On Training	The project aims to reduce impaired driving, speeding, occupant protection violations, and distracted driving among young drivers through interactive driving stations, venue signage, public address announcements, pledge banners, and social media at eight high school rivalry games. Additionally, it includes planning, coordination, promotion, activation, and reporting for hands-on training events targeting 15 to 19-year-olds at four locations.	\$ 85,000.00		402 TSP-26-002	0%	Yes	No	Statewide - The project will be held in four counties for the Rule the Road hands on trainings and eight high school sports Rule the Road Rivalry Tour educational engagements	Other	Teen Safety Program	Young Driver	Awareness and Education
Anderson County Sheriff's Office	Community Traffic Safety Enforcement and Education (PT)	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 27,200.00		402 PT-26-003	0%	Yes	No	Anderson County	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Appalachian Promise Alliance	Steer Clear: Safe Roads for Teen	The project aims to tackle the high rates of distracted and reckless driving in Northeast Tennessee by implementing targeted interventions. We will introduce the Impact Teen Drivers curriculum in two high schools, conduct CarFit assessments for senior drivers, and host Fatal Vision Goggles demonstrations to improve road safety.	\$ 40,226.60		402 TSP-26-003	10%	Yes	No	Sullivan County Hancock County Washington County Greene County Johnson County Hawkins County Unicoi County Carter County	Non-Profit	Teen Safety Program	Young Driver	Awareness and Education
ASAP of Anderson County	Navigating the Road with Impaired Driving Education in Anderson County	The project aims to reduce alcohol-impaired traffic crashes and fatalities in Anderson County. By leveraging partnerships in education and community agencies, the project focuses on strategic interventions and educational efforts, particularly targeting young drivers. ASAP's biennial student surveys and parent education on Tennessee's Social Host Liability Law are key components of the initiative to prevent impaired driving and promote road safety.	\$ 65,000.00	405d	M5OT-26-001	0%	Yes	No	Anderson County	Non-Profit	Drug Education	Young Driver	Awareness and Education
Ashtland City Police Department	Community Traffic Safety Enforcement and Education (PT)	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 18,000.00		402 PT-26-004	0%	Yes	No	City of Ashtland City	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement

Sub-recipient Name	Project Title	Project Description	Federal Share	Funding Source	Project Agreement Number	Indirect Cost %	Local benefit	Equipment	Targeted Area	Sub-recipient Type	GTS Eligible Use of Funds	Program Section	Program Countermeasure
Athens Police Department	Community Traffic Safety Enforcement and Education (PT)	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 49,401.47		402 PT-26-005	0%	Yes	No	City of Athens	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Atoka Police Department	Community Traffic Safety Enforcement and Education (PT)	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 20,000.00		402 PT-26-006	0%	Yes	No	City of Atoka	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Austin Peay State University Police Department	High Visibility Enforcement of Tennessee Traffic Safety Laws	The project will conduct quarterly high visibility enforcement to support traffic safety campaigns. Grant funds will provide active enforcement staffing for saturation patrols, checkpoints, and other enforcement activities. Some funds may be used to purchase safety supplies and small equipment.	\$ 9,978.75		154 154ENFDG-26-003	0%	Yes	No	Austin Peay State University Campus	College/University	Drug Enforcement	Impaired Driving	Impaired Driving Enforcement
Bartlett Police Department	Community Traffic Safety Enforcement and Education	The project supports law enforcement agencies in conducting sustained and highly visible traffic enforcement to tackle a range of safety issues such as impaired driving, distracted driving, and speeding. The funding covers overtime for officers trained in Standard Field Sobriety Testing, Drug Recognition Expert (suggested), and Radar/LIDAR, as well as supplies and equipment for addressing behavioral safety-related issues.	\$ 30,000.00		402 PT-26-008	0%	Yes	No	City of Bartlett	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Bartlett Police Department	Network Coordinator	The THSO focuses on reducing injuries, fatalities, and economic losses on Tennessee's roadways through its traffic safety programs, in which local law enforcement agencies play a crucial role. Regional networks across the state, comprising law enforcement officers from adjacent counties, hold regular meetings to discuss safety initiatives, strengthen partnerships, and work towards reducing injuries, fatalities, and economic losses. Area network coordinators support the LEL program and empower each network to carry out established initiatives. The continued leadership of network coordinators is crucial in achieving the common goal of improving safety on Tennessee's roadways.	\$ 25,055.00		402 PT-26-007	0%	Yes	No	City of Bartlett	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement

Cheatham County Sheriff's Office	Network Coordinator	The THSO focuses on reducing injuries, fatalities, and economic losses on Tennessee's roadways through its traffic safety programs, in which local law enforcement agencies play a crucial role. Regional networks across the state, comprising law enforcement officers from adjacent counties, hold regular meetings to discuss safety initiatives, strengthen partnerships, and work towards reducing injuries, fatalities, and economic losses. Area network coordinators support the LEL program and empower each network to carry out established initiatives. The continued leadership of network coordinators is crucial in achieving the common goal of improving safety on Tennessee's roadways.	\$ 25,000.00		402 PT-26-020	0%	Yes	No	Cheatham County	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement
Cheatham County Sheriff's Office	Teaching Teens Traffic Safety	This project will engage the public, especially those under the age of twenty-one (21) through education and providing educational materials, passing the message through social media platforms, public appearances and booths, and a mock crash for Cheatham County high school seniors at a Senior Class Safety Day. The program area grants aim to provide necessary training to first responders, enabling them to effectively meet the needs of crash victims. The primary focus is on enhancing patient survival rates during the first crucial hour following a traumatic injury. These grants are specifically designed for EMS agencies serving rural counties that rank in the top 65 Tennessee counties for overall crashes. These program area grants fund training to ensure that first responders have the skills necessary to meet the needs of crash victims, with an emphasis on enhancing patient survival rate during the first 60 minutes following a traumatic injury. Grants are provided to EMS agencies serving rural counties and that rank in the top 65 Tennessee counties for overall crashes.	\$ 19,400.00		402 TSP-26-005	0%	Yes	No	Cheatham County	Law Enforcement	Teen Safety Program	Young Driver	Awareness and Education

Monroe County Sheriff's Department	Cherochala Skyway Monroe County Motorcycle Crash and Fatality Reduction	The project aims to enhance motorcycle safety and reduce fatalities on the Cherochala Skyway and surrounding routes in Monroe County, Tennessee. Monroe County, home to scenic routes like the Cherochala Skyway and the Tail of the Dragon, sees a high influx of motorcyclists, particularly from the Atlanta area, creating areas with limited law enforcement presence due to resource constraints. Given the increasing motorcycle crashes and fatalities, this project seeks to increase law enforcement visibility and implement safety measures to address the unique challenges posed by the high volume of motorcycle traffic in these rural areas.	\$ 49,120.00		402 MC-26-001	0%	Yes	No	Monroe County	Law Enforcement	Motorcycle Safety	Motorcycle Safety	Motorcycle Safety Enforcement

Shelby County Sheriff's Office	Network Coordinator	The THSO focuses on reducing injuries, fatalities, and economic losses on Tennessee's roadways through its traffic safety programs, in which local law enforcement agencies play a crucial role. Regional networks across the state, comprising law enforcement officers from adjacent counties, hold regular meetings to discuss safety initiatives, strengthen partnerships, and work towards reducing injuries, fatalities, and economic losses. Area network coordinators support the LEL program and empower each network to carry out established initiatives. The continued leadership of network coordinators is crucial in achieving the common goal of improving safety on Tennessee's roadways.	\$ 25,000.00		402 PT-26-104	0%	Yes	No	Shelby County	Law Enforcement	Traffic Enforcement Services	Police Traffic Services	Police Traffic Services Enforcement

405 APPLICATION

Appendix B to Part 1300—Application Requirements for Section 405 and Section 1906 Grants

[Each fiscal year, to apply for a grant under [23 U.S.C. 405](#) or Section 1906, [Public Law 109-59](#), as amended by Section 25024, [Public Law 117-58](#), the State must complete and submit all required information in this appendix, and the Governor's Representative for Highway Safety must sign the Certifications and Assurances.]

State: _____

Fiscal Year: _____

Instructions: Check the box for each part for which the State is applying for a grant, fill in relevant blanks, and identify the attachment number or page numbers where the requested information appears in the Highway Safety Plan. Attachments may be submitted electronically.

PART 1: OCCUPANT PROTECTION GRANTS ([23 CFR 1300.21](#))

*[Check the box above **only** if applying for this grant.]*

ALL STATES

[Fill in all blanks below.]

- The State's occupant protection program area plan for the upcoming fiscal year is provided in the annual grant application at _____ (location).
- The State will participate in the Click it or Ticket national mobilization in the fiscal year of the grant. The description of the State's planned participation is provided in the annual grant application at _____ (location).
- Projects demonstrating the State's active network of child restraint inspection stations are provided in the annual grant application at _____ (location). Such description includes estimates for: (1) the total number of planned inspection stations and events during the upcoming fiscal year; and (2) within that total, the number of planned inspection stations and events serving each of the following population categories: urban, rural, and at-risk. The planned inspection stations/events provided in the annual grant application are staffed with at least one current nationally Certified Child Passenger Safety Technician.
- Projects, as provided in the annual grant application at _____ (location), that include estimates of the total number of classes and total number of technicians to be trained in the upcoming fiscal year to ensure coverage of child passenger safety inspection stations and inspection events by nationally Certified Child Passenger Safety Technicians.

LOWER SEAT BELT USE STATES ONLY

[Check at least 3 boxes below and fill in all blanks under those checked boxes.]

- The State's primary seat belt use law, requiring all occupants riding in a passenger motor vehicle to be restrained in a seat belt or a child restraint, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
 - *Legal citation(s):*

- The State's occupant protection law, requiring occupants to be secured in a seat belt or age-appropriate child restraint while in a passenger motor vehicle and a minimum fine of \$25, was enacted on _____ (date) and last amended on _____ (date) and is in effect and will be enforced during the fiscal year of the grant.
 - *Legal citation(s):*
 - Requirement for all occupants to be secured in seat belt or age-appropriate child restraint;

 - Coverage of all passenger motor vehicles;

 - Minimum fine of at least \$25;

 - Exemptions from restraint requirements.

- Projects demonstrating the State's seat belt enforcement plan are provided in the annual grant application at _____ (location).

- The projects demonstrating the State's high risk population countermeasure program are provided in the annual grant application at _____ (location).

- The State's comprehensive occupant protection program is provided as follows:
 - Date of NHTSA-facilitated program assessment conducted within 5 years prior to the application date: _____ (date);
 - Multi-year strategic plan: annual grant application or triennial HSP at _____ (location);
 - The name and title of the State's designated occupant protection coordinator is _____.
 - The list that contains the names, titles, and organizations of the statewide occupant protection task force membership: annual grant application at _____ (location).

- The State's NHTSA-facilitated occupant protection program assessment of all elements of its occupant protection program was conducted on _____ (date) (within 5 years of the application due date);

PART 2: STATE TRAFFIC SAFETY INFORMATION SYSTEM IMPROVEMENTS GRANTS (23 CFR 1300.22)

[Check the box above only if applying for this grant.]

ALL STATES

- The State has a functioning traffic records coordinating committee that meets at least 3 times each year.
- The State has designated a TRCC coordinator.
- The State has established a State traffic records strategic plan, updated annually, that has been approved by the TRCC and describes specific quantifiable and measurable improvements anticipated in the State's core safety databases, including crash, citation or adjudication, driver, emergency medical services or injury surveillance system, roadway, and vehicle databases.
- [*Fill in the blank below.*] Written description of the performance measure(s), and all supporting data, that the State is relying on to demonstrate achievement of the quantitative improvement in the preceding 12 months of the application due date in relation to one or more of the significant data program attributes is provided in the annual grant application at _____ (location).

PART 3: IMPAIRED DRIVING COUNTERMEASURES (23 CFR 1300.23(D)-(F))

[Check the box above only if applying for this grant.]

ALL STATES

- The State will use the funds awarded under [23 U.S.C. 405\(d\)](#) only for the implementation of programs as provided in [23 CFR 1300.23\(j\)](#).

MID-RANGE STATES ONLY

[Check one box below and fill in all blanks under that checked box.]

- The State submits its statewide impaired driving plan approved by a statewide impaired driving task force on _____ (date). Specifically:

- Annual grant application at _____ (location) describes the authority and basis for operation of the statewide impaired driving task force;
- Annual grant application at _____ (location) contains the list of names, titles, and organizations of all task force members;
- Annual grant application at _____ (location) contains the strategic plan based on Highway Safety Guideline No. 8—Impaired Driving.

The State has previously submitted a statewide impaired driving plan approved by a statewide impaired driving task force on _____ (date) and continues to use this plan.

HIGH-RANGE STATE ONLY

[Check one box below and fill in all blanks under that checked box.]

- The State submits its statewide impaired driving plan approved by a statewide impaired driving task force on _____ (date) that includes a review of a NHTSA-facilitated assessment of the State's impaired driving program conducted on _____ (date). Specifically:
 - Annual grant application at _____ (location) describes the authority and basis for operation of the statewide impaired driving task force;
 - Annual grant application at _____ (location) contains the list of names, titles, and organizations of all task force members;
 - Annual grant application at _____ (location) contains the strategic plan based on Highway Safety Guideline No. 8—Impaired Driving;
 - Annual grant application at _____ (location) addresses any related recommendations from the assessment of the State's impaired driving program;
 - Annual grant application at _____ (location) contains the projects, in detail, for spending grant funds;

- Annual grant application at _____ (location) describes how the spending supports the State's impaired driving program and achievement of its performance targets.
- The State submits an updated statewide impaired driving plan approved by a statewide impaired driving task force on _____ (date) and updates its assessment review and spending plan provided in the annual grant application at _____ (location).

PART 4: ALCOHOL-IGNITION INTERLOCK LAWS (23 CFR

1300.23(G) *[Check the box above only if applying for this grant.]*

[Check one box below and fill in all blanks under that checked box.]

- The State's alcohol-ignition interlock law, requiring all individuals convicted of driving under the influence or of driving while intoxicated to drive only motor vehicles with alcohol-ignition interlocks for a period of not less than 180 days, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
 - *Legal citations:*
 - Requirement for alcohol-ignition interlocks for all DUI offenders for not less than 180 days;
 - _____
 - Identify all alcohol-ignition interlock use exceptions.
 - _____
- The State's alcohol-ignition interlock law, requiring an individual convicted of driving under the influence of alcohol or of driving while intoxicated, and who has been ordered to use an alcohol-ignition interlock, and does not permit the individual to receive any driving privilege or driver's license unless the individual installs on each motor vehicle registered, owned, or leased by the individual an alcohol-ignition interlock for a period of not less than 180 days, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- *Legal citations:*
 - Requirement for installation of alcohol ignition-interlocks for DUI offenders for not less than 180 days;

-
- Identify all alcohol-ignition interlock use exceptions.
-

- The State's alcohol-ignition interlock law, requiring an individual convicted of, or the driving privilege of whom is revoked or denied, for refusing to submit to a chemical or other appropriate test for the purpose of determining the presence or concentration of any intoxicating substance, and who has been ordered to use an alcohol-ignition interlock, requires the individual to install on each motor vehicle to be operated by the individual an alcohol-ignition interlock for a period of not less than 180 days, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant; and

The State's compliance-based removal program, requiring an individual convicted of driving under the influence of alcohol or of driving while intoxicated, and who has been ordered to use an alcohol-ignition interlock, requires the individual to install on each motor vehicle to be operated by the individual an alcohol-ignition interlock for a period of not less than 180 days, was enacted (if a law) or implemented (if a program) on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant; and

State's compliance-based removal program, requiring completion of a minimum consecutive period of not less than 40 percent of the required period of alcohol-ignition interlock installation immediately prior to the end of the individual's installation requirement, without a confirmed violation of the State's alcohol-ignition interlock program use requirements, was enacted (if a law) or implemented (if a program) on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- *Legal citations:*
 - Requirement for installation of alcohol-ignition interlocks for refusal to submit to a test for 180 days;

-
- Requirement for installation of alcohol ignition-interlocks for DUI offenders for not less than 180 days;

-
- Requirement for completion of minimum consecutive period of not less than 40 percent of the required period of alcohol-interlock use;
-

- Identify list of alcohol-ignition interlock program use violations;
-
- Identify all alcohol-ignition interlock use exceptions.
-

PART 5: 24-7 SOBRIETY PROGRAMS (23 CFR 1300.23(H))

[Check the box above only if applying for this grant.]

[Fill in all blanks.]

- The State provides citations to a law that requires all individuals convicted of driving under the influence or of driving while intoxicated to receive a restriction on driving privileges that was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
 - *Legal citation(s):*
-

[Check at least one of the boxes below and fill in all blanks under that checked box.]

- Law citation.* The State provides citations to a law that authorizes a statewide 24-7 sobriety program that was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
 - *Legal citation(s):*
-

- Program information.* The State provides program information that authorizes a statewide 24-7 sobriety program. The program information is provided in the annual grant application at _____ (location).
-

PART 6: DISTRACTED DRIVING GRANTS (23 CFR 1300.24)

[Check the box above only if applying for this grant and check the box(es) below for each grant for which you wish to apply.]

- The State has conformed its distracted driving data to the most recent Model Minimum Uniform Crash Criteria (MMUCC) and will provide supporting data (*i.e.*, the State's most

recent crash report with distracted driving data element(s)) within 30 days after notification of award.

DISTRACTED DRIVING AWARENESS GRANT

- The State provides sample distracted driving questions from the State's driver's license examination in the annual grant application at _____ (location).

DISTRACTED DRIVING LAW GRANTS

- Prohibition on Texting While Driving**
State's texting ban statute, prohibiting texting while driving and requiring a fine, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- o *Legal citations:*

- Prohibition on texting while driving;

 - Definition of covered wireless communication devices;

 - Fine for an offense;

 - Exemptions from texting ban.

- Prohibition on Handheld Phone Use While Driving**
The State's handheld phone use ban statute, prohibiting a driver from holding a personal wireless communications device while driving and requiring a fine for violation of the law, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- o *Legal citations:*

- Prohibition on handheld phone use;

 - Definition of covered wireless communication devices;

 - Fine for an offense;

 - Exemptions from handheld phone use ban.

- Prohibition on Youth Cell Phone Use While Driving**
The State's youth cell phone use ban statute, prohibiting youth cell phone use while driving, and requiring a fine, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- *Legal citations:*
 - Prohibition on youth cell phone use while driving;

 - Definition of covered wireless communication devices;

 - Fine for an offense;

 - Exemptions from youth cell phone use ban

- Prohibition on Viewing Devices While Driving**
The State's viewing devices ban statute, prohibiting drivers from viewing a device while driving, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant
 - *Legal citations:*
 - Prohibition on viewing devices while driving;

 - Definition of covered wireless communication devices;

PART 7: MOTORCYCLIST SAFETY GRANTS (23 CFR 1300.25)

[Check the box above only if applying for this grant.]

[Check at least 2 boxes below and fill in all blanks under those checked boxes only.]

- Motorcycle Rider Training Course**
 - The name and organization of the head of the designated State authority over motorcyclist safety issues is _____
 - The head of the designated State authority over motorcyclist safety issues has approved and the State has adopted one of the following introductory rider curricula:
[Check at least one of the following boxes below and fill in any blanks.]
 - Motorcycle Safety Foundation Basic Rider Course;
 - TEAM OREGON Basic Rider Training;
 - Idaho STAR Basic I;
 - California Motorcyclist Safety Program Motorcyclist Training Course;
 - Other curriculum that meets NHTSA's Model National Standards for Entry-Level Motorcycle Rider Training and that has been approved by NHTSA.
 - In the annual grant application at _____
(location), a list of counties or political subdivisions in the State where motorcycle rider training courses will be conducted during the fiscal year of the

grant AND number of registered motorcycles in each such county or political subdivision according to official State motor vehicle records.

Motorcyclist Awareness Program

- The name and organization of the head of the designated State authority over motorcyclist safety issues is _____.
- The State's motorcyclist awareness program was developed by or in coordination with the designated State authority having jurisdiction over motorcyclist safety issues.
- In the annual grant application at _____ (location), performance measures and corresponding performance targets developed for motorcycle awareness that identify, using State crash data, the counties, or political subdivisions within the State with the highest number of motorcycle crashes involving a motorcycle and another motor vehicle.
- In the annual grant application at _____ (location), the projects demonstrating that the State will implement data-driven programs in a majority of counties or political subdivisions where the incidence of crashes involving a motorcycle and another motor vehicle is highest, and a list that identifies, using State crash data, the counties or political subdivisions within the State ranked in order of the highest to lowest number of crashes involving a motorcycle and another motor vehicle per county or political subdivision.

Helmet Law

- The State's motorcycle helmet law, requiring the use of a helmet for each motorcycle rider under the age of 18, was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
 - *Legal citation(s):*

Reduction of Fatalities and Crashes Involving Motorcycles

- Data showing the total number of motor vehicle crashes involving motorcycles is provided in the annual grant application at _____ (location).
- Description of the State's methods for collecting and analyzing data is provided in the annual grant application at _____ (location).

Impaired Motorcycle Driving Program

- In the annual grant application or triennial HSP at _____ (location), performance measures and corresponding performance targets developed to reduce impaired motorcycle operation.
- In the annual grant application at _____ (location), countermeasure strategies and projects demonstrating that the State will implement data-driven programs designed to reach motorcyclists and motorists in those jurisdictions where the incidence of motorcycle crashes involving an impaired operator is highest (*i.e.*, the majority of counties or political

subdivisions in the State with the highest numbers of motorcycle crashes involving an impaired operator) based upon State data.

Reduction of Fatalities and Crashes Involving Impaired Motorcyclists

- Data showing the total number of reported crashes involving alcohol-impaired and drug-impaired motorcycle operators are provided in the annual grant application at _____ (location).
- Description of the State's methods for collecting and analyzing data is provided in the annual grant application at _____ (location).

Use of Fees Collected From Motorcyclists for Motorcycle Programs

[Check one box only below and fill in all blanks under the checked box only.]

- Applying as a Law State—
 - The State law or regulation requires all fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs are to be used for motorcycle training and safety programs.
Legal citation(s):
_____.

AND

The State's law appropriating funds for FY __ demonstrates that all fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs are spent on motorcycle training and safety programs.

Legal citation(s):
_____.

- Applying as a Data State—
 - Data and/or documentation from official State records from the previous fiscal year showing that *all* fees collected by the State from motorcyclists for the purpose of funding motorcycle training and safety programs were used for motorcycle training and safety programs is provided in the annual grant application at _____ (location).

PART 8: NONMOTORIZED SAFETY GRANTS (23 CFR 1300.26)

[Check the box above only if applying for this grant and only if NHTSA has identified the State as eligible because the State annual combined nonmotorized road user fatalities exceed 15 percent of the State's total annual crash fatalities based on the most recent calendar year final FARS data, then fill in the blank below.]

The list of project(s) and subrecipient(s) information that the State plans to conduct under this program is provided in the annual grant application at _____ (location(s)).

PART 9: PREVENTING ROADSIDE DEATHS GRANTS (23 CFR 1300.27)

[Check the box above only if applying for this grant, then fill in the blank below.]

The State's plan describing the method by which the State will use grant funds is provided in the annual grant application at _____ (location(s)).

PART 10: DRIVER AND OFFICER SAFETY EDUCATION GRANTS (23 CFR 1300.28)

[Check the box above only if applying for this grant.]

[Check one box only below and fill in required blanks under the checked box only.]

Driver Education and Driving Safety Courses

[Check one box only below and fill in all blanks under the checked box only.]

Applying as a law State—

- The State law requiring that driver education and driver safety courses include instruction and testing related to law enforcement practices during traffic stops was enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.
- *Legal citation(s):*
_____.

Applying as a documentation State—

- The State has developed and is implementing a driver education and driving safety course throughout the State that require driver education and driver safety courses to include instruction and testing related to law enforcement practices during traffic stops.
- Curriculum or course materials, and citations to grant required topics within, are provided in the annual grant application at _____ (location).

Peace Officer Training Programs

[Check one box only below and fill in all blanks under the checked box only.]

Applying as a law State—

- The State law requiring that the State has developed and implemented a training program for peace officers and reserve law enforcement officers with respect to proper interaction with civilians during traffic stops was

enacted on _____ (date) and last amended on _____ (date), is in effect, and will be enforced during the fiscal year of the grant.

- *Legal citation(s):*

○ Applying as a documentation State—

- The State has developed and is implementing a training program for peace officers and reserve law enforcement officers with respect to proper interaction with civilians during traffic stops.
- Curriculum or course materials, and citations to grant required topics within, are provided in the annual grant application at _____

(location).

○ Applying as a qualifying State—

- A proposed bill or planning or strategy documents that identify meaningful actions that the State has taken and plans to take to develop and implement a qualifying law or program is provided in the annual grant application at _____

(location).

- A timetable for implementation of a qualifying law or program within 5 years of initial application for a grant under this section is provided in the annual grant application at _____

(location).

PART 11: RACIAL PROFILING DATA COLLECTION GRANTS (23 CFR 1300.29)

[Check the box above only if applying for this grant.]

[Check one box only below and fill in all blanks under the checked box only.]

- The official document(s) (*i.e.*, a law, regulation, binding policy directive, letter from the Governor or court order) demonstrates that the State maintains and allows public inspection of statistical information on the race and ethnicity of the driver for each motor vehicle stop made by a law enforcement officer on all public roads except those classified as local or minor rural roads are provided in the annual grant application at _____

(location).

- The projects that the State will undertake during the fiscal year of the grant to maintain and allow public inspection of statistical information on the race and ethnicity of the driver for each motor vehicle stop made by a law enforcement officer on all public roads except those classified as local or minor rural roads are provided in the annual grant application at _____

(location).

In my capacity as the Governor's Representative for Highway Safety, I hereby provide the following certifications and assurances —

- I have reviewed the above information in support of the State's application for [23 U.S.C. 405](#) and Section 1906 grants, and, based on my review, the information is accurate and complete to the best of my personal knowledge.
- As condition of each grant awarded, the State will use these grant funds in accordance with the specific statutory and regulatory requirements of that grant, and will comply with all applicable laws, regulations, and financial and programmatic requirements for Federal grants.
- I understand and accept that incorrect, incomplete, or untimely information submitted in support of the State's application may result in the denial of a grant award.

Signature Governor's Representative for Highway Safety

405 SUPPLEMENTAL INFORMATION

405b: Occupant Protection Supplemental

PROBLEM ID

Occupant protection begins with securing all vehicle occupants, at all times, while a vehicle is in motion. The Occupant Protection program in Tennessee is focused on educating the public, law enforcement, family medical providers, childcare providers, public health educators, and families on the traffic safety laws and best practices for using occupant protection systems. Occupant protection refers to vehicle safety features designed to protect occupants in a crash. Features may be active systems, meaning the occupant must physically engage the system, or passive systems, meaning the safety feature will engage automatically without any action on the part of the occupant. For child occupant protection, the caregiver must use a child safety seat that will provide appropriate safety features for a child-sized form. Vehicle seat belt systems pose an increased risk of injury for child occupants who are not meeting the criteria for which occupant protection systems were designed. According to the NHTSA 2020 Fatality Analysis Reporting System (FARS) report, unrestrained passengers accounted for 46 percent of passenger vehicle occupants killed in motor vehicle crashes; Tennessee results show that 47 percent of passengers killed were unrestrained. Research has found that lap and shoulder combination safety belts, when used, reduce the risk of fatal injury to front-seat passenger car occupants by 45 percent and the risk of moderate to critical injury by 50 percent (National Highway Traffic Safety Administration [NHTSA], 2011). NHTSA estimates that safety belts saved nearly 14,955 lives of passenger vehicle occupants aged five and older in the United States in 2017. Child safety seats have been shown to reduce fatal injury by 71 percent for infants (under one year old) and by 54 percent for toddlers (one to four years old) in passenger cars. In light trucks, the corresponding reductions are 58 percent and 59 percent respectively (NHTSA). When riding in the rear seat, 59 percent of passenger fatalities were unrestrained, according to the 2020 FARS report.

Caregivers who visit designated child passenger safety fitting stations, staffed by nationally certified child passenger safety technicians (CPSTs), receive guided hands-on assistance to appropriately follow car seat and vehicle manufacturer instructions on the installation and use of child safety seats. Data collected from visits of concerned caregivers indicate that misuse rates remain consistently high. Data collected by CPSTs during seat checks is reported to the Tennessee Occupant Protection Center through the TN Traffic Safety website reporting system and through the National Digital Car Seat Check Form (NDCF). The Tennessee misuse rate for 2022 remained at 68 percent when data from both systems were compared. The most common misuses include harness fit, loose installation, utilizing two methods of installation simultaneously, and not using any child safety restraint at all. The greatest misuse rate was associated with the lack of use by

children aged four through eight. The Rhea County Sheriff’s Office Safe Journey Program provided education and resources to the Cumberland Region, a rural and primarily underserved community. Data provided by Safe Journey also supports the identified common misuses as listed above. It is imperative to increase seat check activity and streamline data collection for a more accurate representation of misuses to determine critical areas of education. In 2021, AAA and the National Safety Council reported that more than half of all car seats brought in nationwide for inspection to child passenger safety technicians are improperly installed and being used. The general consumer survey revealed that one in five parents and caregivers seek expert help to install a car seat or secure a child in one (AAA Washington, 2022). The NDCF data reveals that there are three common mistakes which include

1. Loose installation
2. Not using the tether on forward-facing car seat installations
3. Loose harness straps on a child.

This data is in line with Tennessee information and reinforces the need to promote the availability of Tennessee Fitting Stations or Inspection Stations staffed by trained CPSTs for all travelers in Tennessee and those traveling through Tennessee.

In 2022, of the 119 fitting station partners, only 29 agency partners submitted seat check and checkpoint data from 25 counties.

TNTrafficSafety Resource Service CPS Checkpoint Report

	2020 -2021	2021-2022
Number of check-up events	169	148
Number of new seat installations	308	254
Number of unsafe seats	44	91
Number of seats distributed	291	202
Number of unrestrained children	91	51
Number of seats checked	645	833
Number of seats misused	544	683
Number of seats used correctly	76	126

NOTE: Only children under four years old are required per T.C.A. 55-9-603 to use a child safety seat. When you restrict the data to this subset of occupants, the variable exhibits highly random characteristics. The number of fatalities under age four is extremely low, and the number using child restraint devices is even lower. The 3- and 5-year moving averages have remained near 50 percent since 2004, and the variance in the data is very high (Std. Error +/- 20 percent).

NOTE: Tennessee’s Child Restraint law T.C.A. 55-9-602 ss55- 9-603 requires children through age eight and measuring less than four feet, nine inches in height require the use of a belt-positioning booster seat system meeting fmvss213 standards.

PERFORMANCE TARGET

Performance Measure Name Target	Target Metric Type	Target Start Year	Target End Year	Target
C.4 Unrestrained Passenger Vehicle Occupants	Numeric	2024	2026	448
		2024	2024	450
		2025	2025	449
		2026	2026	448
B.1 Observational Seat Belt Usage	Percentage	2024	2026	90.52
		2024	2024	90.50
		2025	2025	90.51
		2026	2026	90.52

COUNTERMEASURE: CHILD PASSENGER SAFETY

There are 1,109 Child Passenger Safety Technicians in Tennessee, and less than 1 percent currently identify with the designation of Spanish speaking. With the population growth of Spanish-speaking residents in Tennessee, we must respond by identifying, increasing, and maintaining the availability of bilingual CPSTs in outreach to the second largest demographic, Hispanic or Latino, in the state. Once identified, this resource would be made publicly available in both English and Spanish through the TNTrafficSafety website on the Fitting Station listing. The recertification rate for Tennessee CPSTs is currently 50 percent; maintaining and increasing recertification rates is critical in providing access to experienced and knowledgeable resources. It is also important to identify additional populations, based on census information, and the related language barriers and work to develop outreach and educational materials for those identified populations. The development of diverse educational and marketing materials should support improved public information and awareness to increase proper occupant protection adoption by all passengers, including children.

Border state laws influence the behavior of travelers in non-compliance with Tennessee laws. Tennessee law reflects nationally promoted best practices for child passenger safety; however there are some variances in Tennessee laws in comparison to our eight neighboring states which include, Kentucky, Virginia, North Carolina, Georgia, Alabama, Mississippi, Arkansas, and Missouri. Child restraints are required until age 9 or 4'9" in Tennessee. All eight neighbors require seven years or younger. Only North Carolina requires rear facing to age two.

Tennessee is a primary offense state but there is no requirement for adult rear seat passengers. According to the GHSA state law comparison of Tennessee border states, only Georgia and Missouri require rear passenger seat belt use over age 16. Rear passengers make up half of our unrestrained fatalities. Currently, Tennessee's observational seat belt use is reported at over 90 percent, however the number of unrestrained fatalities does not correlate.

State	Rear Facing Age	Age Child Restraint Required Through	Age Booster	Seatbelt Permissible	Age Front Seat Allowed	Seat belt Rear Required (over 16)	Primary Seat Belt (Rear)
Tennessee	1 yr and 20 lbs	Birth through 4 yrs	4 yrs - 9yrs or 57" tall	9 years	13	No	Yes
Kentucky	N/A	40" or shorter	7 yrs or 57" tall	8 years	N/A	No	Yes
Virginia	2yrs	7 yrs	7 yrs	8-17 (4-7 with physician exemption)	2	No	Secondary, primary for under 18
North Carolina	N/A	7 yrs and 80 lbs	7 yrs	8-15 or 40 – 80 lbs with shoulder belt	2 yrs	Yes	Primary Secondary for rear seat
Georgia	N/A	8 yrs		57" tall over 40 lbs	8 yrs	Yes	Yes
Alabama	1 yr and 20 lbs	1-4 yrs, 20-40 lbs FF harness	5yrs	6 – 14 years	NA	No	Yes
Arkansas	NA	5yrs under 60 lbs		6-14 yrs/over 60#'s		No	Yes
Missouri	N/A	Under 4 and 40 lbs	4-7 years and 40-80 lbs / 57"	80#'s or over 57"	8 yrs	No	Secondary, primary for 8-15
Mississippi	N/A	Under 4 years	4-6 yrs and under 57" tall or under 65 lbs	7 yrs or over or 57" or taller or 65 lbs or over	N/A	Yes	Primary

Source: <https://www.ghsa.org/state-laws/issues/Child%20Passenger%20Safety>,

Training and education are directed to areas of the state with little representation of trained CPSTs. These areas also correspond with a higher rate of persons in poverty as identified by the U.S. Census Bureau. Child Passenger Safety certification training courses have been implemented in communities that have fewer than ten CPSTs identified.

At the end of FFY 2022, 20 of the 95 counties in Tennessee had no identified Child Passenger Safety contact. The primary method of education for those areas of the state was through school or classroom-based programs. Training courses provided in 2023 resulted in coverage of an additional 10 counties leaving only 10 counties without an active fitting station or CPST resource for that community.

During FFY 2026, it is the intent of the THSO to host fourteen CPS classes: three in west TN, three in middle TN, three in the Cumberland region, three in east TN, and two hybrid classes. This will allow for a maximum of 256 new CPSTs in the state, pending that all classes are filled and all individuals pass. In addition, we plan to offer two renewal courses, five technical update workshops, one school bus car seat safety training, and one adaptive transportation needs training (STAC). We also intend to hold two CarFit technician training classes in Cookeville and Johnson City. Finally, a six-hour CEU pre-conference CPS session will be held prior to the Tennessee Lifesavers Conference.

Linkage Between Program Area

CPS technicians and instructors use knowledge and expertise provided through continued training to provide services at a variety of community-based activities, such as child safety seat checks, where parents and caregivers receive education and hands-on assistance. With motor vehicle crashes being a leading cause of death for children under 14, there is a continued need for CPSTs to provide information on child safety seats to families (What Is a Child Passenger Safety Technician? | Pediatric Trauma Injury Prevention Program, n.d.).

Rationale

NHTSA's *Countermeasures That Work, 10th Edition*, shows that outreach to caregivers and children is an effective countermeasure to reduce improperly restrained children. Within the seat belts and child restraints section, under communications and outreach, strategies for older children (3-star countermeasure) and strategies for child restraint and booster seat use (3-star countermeasure) are both listed and the basis for child passenger safety in Tennessee.

Funding Consideration

It is the intent of the THSO to fund agencies to help increase the understanding of caregivers so that children can be properly restrained on Tennessee roadways.

COUNTERMEASURE: OCCUPANT PROTECTION ENFORCEMENT

Project Safety Impacts

Tennessee continues to support the enforcement of seat belt and child passenger safety laws. Highly publicized and visible waves of enforcement of seat belt laws are necessary for increasing the public's perception of the risk of a citation, which is a critical component toward increased seat belt compliance by those risk-takers who are least likely to buckle up.

Occupant protection is a priority for law enforcement across the state. State and local agencies actively engage in enforcement and education as part of their mission to ensure their communities stay safe. Several of the THSO's police traffic services grants include a seat belt enforcement component. Nighttime enforcement is an emphasis area for many states, and Tennessee is no exception. Across the country, it's not uncommon for nighttime seat belt usage to be lower than during the daytime. The THSO recognizes that increasing seat belt usage among those traveling at night could decrease crashes along with injury and fatality rates.

Tennessee implements a strong media and enforcement campaign to target an increased occupant protection use. Three groups are targeted: male drivers, drivers in rural counties, and drivers on local roads. The media campaign includes radio and TV advertising as well as local input during the NHTSA-sponsored Click It or Ticket campaign. National and locally produced media are used during the specified time frame. In addition, the THSO provides signage at local events to display the Click It or Ticket message. The signage is strategically placed to reach the targeted demographic.

Mobilizations are high-profile law enforcement programs combined with paid and earned media. They are evaluated in terms of observations of belt use and surveys of public awareness and public changes in behavior. These mobilizations are a 5-step process:

1. Two weeks of high-intensity traffic law enforcement to also include year-round seat belt education.
2. Intense publicity, both paid and earned, utilizing messages that increase the perception of dangers that are associated with not using the seat belt in a daily positive manner.
3. Pre/post observational surveys to include current data.
4. Pre/post knowledge/attitude/behavior surveys; and
5. Immediate reporting of enforcement and media activity within specific mobilization areas of local jurisdictions

Law enforcement participation is critical in reducing fatalities and injury crashes on Tennessee roads. For the planned Memorial Day, Click It or Ticket mobilization, the agencies on the following pages are anticipated to participate.

Linkage Between Program Area

Occupant protection education, enforcement, and outreach work in developing partnerships to change driver behavior. The THSO and its partnering agencies will continue to highlight NHTSA's safety precautions to the driving public to minimize occupant protection issues in Tennessee. Implementing this countermeasure strategy will increase driver awareness, decreasing the number of crashes, injuries, and fatalities on our roadways.

Rationale

According to NHTSA's *Countermeasures That Work, Tenth Edition*, enforcement is a strong and effective method to be a part of an occupant protection program.

- 2.1 Short-Term, High-Visibility Seat Belt Law Enforcement (5-star countermeasure)
- 2.2 Integrated Nighttime Seat Belt Enforcement (4-star countermeasure)
- 2.3 Sustained Enforcement (3-star countermeasure)

Funding Consideration

It is the intent of the THSO to fund local and state law enforcement agencies to utilize enforcement grants to enforce daytime and nighttime seatbelt enforcement laws throughout the state.

405c: Traffic Records Supplemental

Documentation – TRSP PM C-TCU-01

4.1 Traffic Records Performance Measures

4.1.1 Crash Completeness – Toxicology Results Reported

Label: C-TCU-01

Status of Improvement: Demonstrates Improvement

Active Status: Active

Last Updated: July 30, 2025

Related Project: TN P22 - TITAN

Narrative

The TRSP performance metric for the crash system is the percentage of toxicology results reported on the crash reports when the test is given. As originally reported, the baseline for the metric during 4/1/2021 – 3/31/2022 was 46.6% and the target was set at 50%. During the most recent reporting period, 51.8% of toxicology results were reported, an increase of 4.2 percentage points over the prior twelve-month period compared at the same time last year.

Measurements

Performance Measure: Percentage of Toxicology Results Reported on Crash Reports

Performance Period	Actual	Target	Target Start Date	Target End Date
April 2021 – March 2022	46.6%	Baseline	4/1/2021	3/31/2022
April 2022 – March 2023	49.9%	50%	4/1/2022	3/31/2023
April 2023 – March 2024	47.6%	50%	4/1/2023	3/31/2024
April 2024 – March 2025	51.8%	50%	4/1/2024	3/31/2025

405e: Distracted Driving

The State of TN will include the following two questions in their question inventory for the knowledge test to obtain a regular (Class D) driver license on or before October 1, 2025. This includes tests offered in multiple languages as well as a voiceover option.

Questions:

1. Which of the following can keep you from being distracted while you drive?
2. How can you identify a distracted driver?

HANDS FREE
★ T E N N E S S E E ★

405f: Motorcycle Safety Supplemental

PERFORMANCE TARGETS

Performance Measure Name Target	Target Metric Type	Target Start Year	Target End Year	Target
C.7 Number of Motorcyclist Fatalities	Numeric	2024	2026	147
		2024	2024	151
		2025	2025	149
		2026	2026	147
C.8 Number of Unhelmeted Motorcyclist Fatalities	Numeric	2024	2026	6
		2024	2024	8
		2025	2025	7
		2026	2026	6

COUNTERMEASURE: COMMUNICATION (MEDIA) - MOTORCYCLE SAFETY

Project Safety Impacts

The THSO will utilize both media branches (earned and paid) as part of its integrated communications plan that works in tandem with the NHTSA Communications Calendar. This plan requires cohesive collaboration to reinforce Tennessee laws and change driver behavior. The THSO has engaged in a state interagency contractual agreement with Tennessee Technological University (TTU) to provide media buying, marketing, and advertising services in an effort to facilitate behavioral change. Services include feature design, production, purchasing, and administrative reconciliation to assist the state in informing and educating the public on traffic safety issues. Media buys will be targeted to the top counties involving a crash with a motorcycle rider and another motor vehicle.

Rationale

According to NHTSA’s Countermeasures That Work, 10th Edition, 4.2 Communications and Outreach: Motorist Awareness of Motorcyclists is not an effective strategy (1-star) in educating motorists and the public about motorcyclists. However, according to the IIJA §1300.25(m)(iv), the allowable uses of motorcycle safety funds are minimal. One of the allowable uses of the funds is to provide “Public awareness, public service announcements, and other outreach programs to enhance driver awareness of motorcyclists, including “Share-the-Road” safety messages developed using Share-the-Road model language” (ecfr, 2023). Despite the lack of effective evaluations, the THSO continues to promote the NHTSA campaign Motorcycle Safety Awareness Month. This is primarily due to legislative law preventing the THSO from directly communicating with motorcycle riders on paid media campaigns and budgetary restrictions only allowing motorcycle safety funds to be used in media campaigns. Despite the restrictions and lack of an effective evaluation, the “Look Twice” campaign during Motorcycle Safety Awareness Month is consistently a top-performing media campaign for the THSO, garnering high public engagement in promotional efforts. The THSO continues to search for innovative and creative ways to change public behavior and protect motorcyclists in Tennessee.

Funding Consideration

The THSO intends to provide educational public service announcements with the message of reducing motorcyclist fatalities in an effort to change social norms of high-risk demographics through a paid media contract and a grant agreement through Tennessee Technological University as well as to provide earned media opportunities with messaging to increase education and awareness about motorcycle safety in local communities across Tennessee.

405h: Preventing Roadside Deaths Supplemental

PROBLEM ID

In the state of Tennessee, first responders face a daunting challenge in safeguarding their lives while attending to emergencies on busy roadways. The increasing number of roadside safety deaths for first responders has become a critical issue that demands urgent attention and proactive measures. These dedicated professionals, who selflessly serve the community during crisis situations, are increasingly exposed to life-threatening hazards, including collisions, struck-by incidents, and other roadway-related crashes while executing their duties.

The problem lies in the lack of comprehensive strategies and dedicated resources to address the heightened risks faced by first responders on Tennessee's roadways. Despite existing safety protocols and training for first responders, the current approach falls short in fully educating the general Tennessee motoring public. The combination of driver distractions, speeding, impaired driving, and inadequate public awareness about the importance of moving over for emergency vehicles exacerbates the perilous conditions for those responding to emergencies. Furthermore, even with the current training specifically tailored to enhance roadside safety awareness and skills for first responders, dangerous driving behaviors still occur. The sudden addition of this behavior undermines first responders' ability to anticipate and respond effectively to hazardous situations. The alarming rise in roadside safety deaths for first responders not only inflicts emotional trauma on their families and the wider community but also strains emergency response capabilities. The loss of these invaluable personnel hampers the state's ability to provide timely and efficient emergency services, thereby compromising public safety as a whole.

To address this pressing issue, a comprehensive and data-driven approach is required to develop and implement targeted interventions aimed at preventing roadside safety deaths for Tennessee's first responders. This approach must include raising public awareness about the importance of adhering to traffic laws and providing clear guidelines on how motorists can safely navigate emergency response areas.

Through a concerted and multi-faceted approach, Tennessee can build a safer environment for its first responders while ensuring seamless and effective emergency response operations. By prioritizing the well-being and safety of these invaluable frontline personnel, the state can forge a path towards preventing roadside safety deaths and fostering a resilient and protected community.

PERFORMANCE MEASURE(S)

Performance Measure Name Target	Target Metric Type	Target Start Year	Target End Year	Target
P.3 Crashes Involving “Move Over Law” violation	Numeric	2024	2026	145
		2024	2024	147
		2025	2025	146
		2026	2026	145

The THSO established its performance targets through a careful analysis of 2022 state data, opting for a three-year target period to align with the multi-year planning framework of the Triennial Highway Safety Plan (3HSP). This strategic approach ensures both consistency and a sustained focus on long-term safety outcomes.

A key factor impacting the THSO’s ability to meet its targets was the revision of the “Move Over” Law, which came into effect on July 1, 2023. The updated law introduced stricter penalties for non-compliance and expanded the definition of protected individuals to include anyone with flashing hazard lights. Following the implementation of this law, there has been a noticeable increase in crashes related to Move Over Violations, with the 2023 baseline rising to 222—exceeding the step stone threshold of 147 set in the 3HSP for 2024.

Despite this challenge, the THSO remains optimistic about achieving the ultimate target of 145 by 2026. The office has prioritized this area of focus and is committed to reinforcing the revised law through dedicated public awareness campaigns and enhanced support for law enforcement. With the allocation of state law enforcement funding in 2024 and a targeted media campaign, the THSO

COUNTERMEASURE: EMERGENCY RESPONDER ROADSIDE SAFETY ENFORCEMENT

Project Safety Impacts

AAA conducted a survey, Roadside Workers Field Evaluation of Perceptions and Countermeasures, that states, “Fifteen percent of survey participants (248 responders) reported being struck while managing traffic incidents. Responders were also asked if they ever experienced a near-miss incident (i.e., almost getting hit by a passing vehicle) while managing traffic incidents. Slightly less than 60% of survey participants (N = 971) reported experiencing near-misses.” As first responders work to save lives and protect communities, they often face dangerous situations on the side of the road.

Linkage to Problem Area

According to NHTSA, there were 143 roadside fatalities involving first responders in the United States in 2019. In Tennessee, there were 5 fatalities involving first responders in 2019. These numbers demonstrate the need for increased safety measures for first responders working on the side of the road. Within the AAA study, careless, inattentive, or impaired drivers were considered to be the highest likely cause of injuries or fatalities to incident response personnel. The second most significant factor was lack of situation awareness.

Rationale

By identifying the causes of roadside crashes involving first responders and developing strategies to prevent these crashes from occurring, the THSO can improve safety for first responders and drivers on the side of the road. In 2023, Tennessee saw 222 crashes involving a Move Over violation. Through enforcement, Tennessee can increase compliance with the Move Over Law and reduce the number of roadside fatalities involving first responders.

According to the Federal Highway Administration’s report on the Traffic Incident Management Quick Clearance Laws: A National Review of Best Practices, “Move Over laws may reduce both the frequency of responder struck-by incidents, as well as the severity of such incidents when they do occur by requiring drivers to provide a buffer area between responders and moving traffic and travel at reduced speeds.” Due to this report in combination with NHTSA’s Evaluation of Click It or Ticket Model Programs, the THSO plans to use the countermeasure listed below ((Communication) Media Emergency Responder Training) in conjunction with the enforcement listed here to utilize the Click It or Ticket Model to help Tennesseans better understand the penalties of not moving over.

Funding Consideration

The THSO intends to fund state law enforcement in order to enforce Tennessee’s Move Over Law.

ESTIMATED BUDGET: EMERGENCY RESPONDER ROADSIDE SAFETY ENFORCEMENT

Source	Funding Source ID	Eligible Use of Funds	Estimated Funding Amount
2023	IIJA NHTSA 405h	405h Law Enforcement (IIJA)	\$75,000
2024	IIJA NHTSA 405h	405h Law Enforcement (IIJA)	\$75,000
2025	IIJA NHTSA 405h	405h Law Enforcement (IIJA)	\$75,000
Total Over Three-Years			\$225,000

COUNTERMEASURE: COMMUNICATION (MEDIA) EMERGENCY RESPONDER ROADSIDE SAFETY

Project Safety Impacts

The THSO will utilize both media branches (earned and paid) as part of its integrated communications plan that works in tandem with the NHTSA Communications Calendar. This plan requires cohesive collaboration to reinforce Tennessee laws and change driver behavior. The THSO has engaged in a state interagency contractual agreement with Tennessee Technological University (TTU) to provide media buying, marketing, and advertising services in an effort to facilitate behavioral change. Services include feature design, production, purchasing, and administrative reconciliation to assist the state in informing and educating the public on traffic safety issues. The primary services encompass the purchasing and creation of audio spots (radio and streaming), television (network and cable) time, social media, digital advertising (display, pre-roll, native, and Over-the-Top Television [OTT]), cinema ads, and Out-of-Home (OOH) to dispense various THSO traffic safety-related messages.

TTU will employ a data-driven approach for media buys utilizing statewide crash and fatality statistics to most effectively engage the target audience, all Tennesseans of driving age, thereby reducing fatalities, injuries, and associated economic losses resulting from traffic crashes.

The THSO's earned media efforts are comprised of the following: traditional news media, digital news media, and social media. The THSO will continue to pitch traditional news outlets like local radio, television, and print newspapers; however, the THSO will substantially increase digital communications and social media efforts as internet technology continues to advance.

The THSO often collaborates with traffic safety partners and community advocates to host press events during media campaigns. A press event is a tactic used to increase community support, personalize the enforcement message, localize the issue, and spread awareness for crash victims and families of crash victims. All THSO press events are video recorded, uploaded to YouTube, and posted to social media.

The THSO website, TNTrafficSafety, serves as the primary resource for THSO's digital assets. The site provides Tennessee traffic crash data, THSO news and information, event calendars, educational resources, and more.

In advance of every month, the THSO builds a digital social media calendar using a Google spreadsheet. This spreadsheet is populated with content based on the NHTSA communications calendar. The THSO also develops creative content to capitalize on social media trends, upcoming events, and popular topics. In addition, the THSO often uses social events to apply a relevant traffic safety message. Once approved by THSO management, all content within the social media calendar is scheduled to be posted via Hootsuite, a social media dashboard.

The THSO closely monitors its social media presence using the analytical tools provided by each platform. The THSO's most successful platforms are YouTube, Facebook, and Twitter. Social media reports are generated monthly and shared with the management team for review. This allows staff and management to know which content generated the most interest and engagement.

Linkage Between Program Area

The roadside safety campaign will utilize the Move Over Law message during months of increased speeding-related crashes. The age category targeted is Tennesseans of driving age. The campaigns will include audio spots (streaming), social media, digital advertising (display, pre-roll, YouTube, Waze, etc.). The measure for advertising outreach will be within the goals and guidelines of frequency and reach set by NHTSA for national paid media campaigns. The THSO's overall earned media communications goal for roadside safety is to align education, awareness, and enforcement efforts during specific time periods and support paid media strategies as scheduled. The THSO works with Tennessee Tech University iCube to update THSO's "Move Over" educational materials with current data and information, update the THSO's website as needed, and prepare "Move Over" messaging for THSO's monthly social media calendars. Every year, the THSO will prepare "Move Over Law" press release templates for agencies conducting speed enforcement during our "Move Over" campaign. The THSO may host a press event or create a public service announcement to launch the "Move Over" campaign statewide. The THSO will also share photos and public service announcements created by grantees. Furthermore, the THSO will support local Hispanic communities by inviting Hispanic media outlets to local press events and sharing Spanish marketing materials we have available. The THSO hopes to offer more resources to Spanish-speaking communities as NHTSA is able to provide more Spanish resources for the THSO to share.

Rationale

While *Countermeasures That Work, 10th Edition*, does not offer specific guidance on promoting education about "Move Over Laws" or work zone safety, the Uniform Guidelines for State Highway Safety Programs does promote the education of drivers, including the importance of State and local motor vehicle laws and ordinances, as well as safe driving practices.

Funding Consideration

The THSO intends to provide educational public service announcements with the message of reducing first responder roadside injuries through a paid media contract and a grant agreement through Tennessee Technological University as well as to provide earned media opportunities with messaging to increase education and awareness about first responders and roadside workers in local communities across Tennessee.

FFY 2026

CERTIFICATIONS AND ASSURANCES

Appendix A to Part 1300—Certifications and Assurances for Highway Safety Grants

[Each fiscal year, the Governor's Representative for Highway Safety must sign these Certifications and Assurances affirming that the State complies with all requirements, including applicable Federal statutes and regulations, that are in effect during the grant period. Requirements that also apply to subrecipients are noted under the applicable caption.]

State: Tennessee

Fiscal Year: 2026

By submitting an application for Federal grant funds under 23 U.S.C. Chapter 4 or Section 1906, Public Law 109-59, as amended by Section 25024, Public Law 117-58, the State Highway Safety Office acknowledges and agrees to the following conditions and requirements. In my capacity as the Governor's Representative for Highway Safety, I hereby provide the following Certifications and Assurances:

GENERAL REQUIREMENTS

The State will comply with applicable statutes and regulations, including but not limited to:

- 23 U.S.C. Chapter 4—Highway Safety Act of 1966, as amended;
- Sec. 1906, [Public Law 109-59](#), as amended by Sec. 25024, [Public Law 117-58](#);
- [23 CFR part 1300](#)—Uniform Procedures for State Highway Safety Grant Programs;
- [2 CFR part 200](#)—Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards;
- [2 CFR part 1201](#)—Department of Transportation, Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards.

INTERGOVERNMENTAL REVIEW OF FEDERAL PROGRAMS

The State has submitted appropriate documentation for review to the single point of contact designated by the Governor to review Federal programs, as required by Executive Order 12372 (Intergovernmental Review of Federal Programs).

FEDERAL FUNDING ACCOUNTABILITY AND TRANSPARENCY ACT (FFATA)

The State will comply with FFATA guidance, *OMB Guidance on FFATA Subaward and Executive Compensation Reporting*, August 27, 2010, (https://www.fsrs.gov/documents/OMB_Guidance_on_FFATA_Subaward_and_Executive_Compensation_Reporting_08272010.pdf) by reporting to FSRS.gov for each sub-grant awarded:

- Name of the entity receiving the award;
- Amount of the award;

- Information on the award including transaction type, funding agency, the North American Industry Classification System code or Catalog of Federal Domestic Assistance number (where applicable), program source;
- Location of the entity receiving the award and the primary location of performance under the award, including the city, State, congressional district, and country; and an award title descriptive of the purpose of each funding action;
 - Unique entity identifier (generated by **SAM.gov**);
- The names and total compensation of the five most highly compensated officers of the entity if:
 - (i) the entity in the preceding fiscal year received—
 - (I) 80 percent or more of its annual gross revenues in Federal awards;
 - (II) \$25,000,000 or more in annual gross revenues from Federal awards; and
 - (ii) the public does not have access to information about the compensation of the senior executives of the entity through periodic reports filed under section 13(a) or 15(d) of the Securities Exchange Act of 1934 ([15 U.S.C. 78m\(a\)](#), [78o\(d\)](#)) or section 6104 of the Internal Revenue Code of 1986;
- Other relevant information specified by OMB guidance.

NONDISCRIMINATION

(applies to subrecipients as well as States)

The State highway safety agency [and its subrecipients] will comply with all Federal statutes and implementing regulations relating to nondiscrimination (“Federal Nondiscrimination Authorities”). These include but are not limited to:

- *Title VI of the Civil Rights Act of 1964* ([42 U.S.C. 2000d](#) *et seq.*, 78 stat. 252), (prohibits discrimination on the basis of race, color, national origin);
- [49 CFR part 21](#) (entitled *Non-discrimination in Federally-Assisted Programs of the Department of Transportation—Effectuation of Title VI of the Civil Rights Act of 1964*);
- [28 CFR 50.3](#) (U.S. Department of Justice Guidelines for Enforcement of Title VI of the Civil Rights Act of 1964);
- *The Uniform Relocation Assistance and Real Property Acquisition Policies Act of 1970*, ([42 U.S.C. 4601](#)), (prohibits unfair treatment of persons displaced or whose property has been acquired because of Federal or Federal-aid programs and projects);
- *Federal-Aid Highway Act of 1973*, (*23 U.S.C. 324 et seq.*), and *Title IX of the Education Amendments of 1972*, as amended ([20 U.S.C. 1681-1683](#) and [1685-1686](#)) (prohibit discrimination on the basis of sex);
- *Section 504 of the Rehabilitation Act of 1973*, ([29 U.S.C. 794 et seq.](#)), as amended, (prohibits discrimination on the basis of disability) and [49 CFR part 27](#);
- *The Age Discrimination Act of 1975*, as amended, ([42 U.S.C. 6101 et seq.](#)), (prohibits discrimination on the basis of age);
- *The Civil Rights Restoration Act of 1987*, (Pub. L. 100-209), (broadens scope, coverage, and applicability of Title VI of the Civil Rights Act of 1964, The Age Discrimination Act of 1975 and Section 504 of the Rehabilitation Act of 1973, by expanding the definition of the terms “programs or activities” to include all of the programs or activities of the

Federal aid recipients, subrecipients and contractors, whether such programs or activities are Federally-funded or not);

- *Titles II and III of the Americans with Disabilities Act* ([42 U.S.C. 12131-12189](#)) (prohibits discrimination on the basis of disability in the operation of public entities, public and private transportation systems, places of public accommodation, and certain testing) and [49 CFR parts 37](#) and [38](#).

The preceding statutory and regulatory cites hereinafter are referred to as the “Acts” and “Regulations,” respectively.

GENERAL ASSURANCES

In accordance with the Acts, the Regulations, and other pertinent directives, circulars, policy, memoranda, and/or guidance, the Recipient hereby gives assurance that it will promptly take any measures necessary to ensure that:

“No person in the United States shall, on the grounds of race, color, or national origin, be excluded from participation in, be denied the benefits of, or be otherwise subjected to discrimination under any program or activity, for which the Recipient receives Federal financial assistance from DOT, including NHTSA.”

The Civil Rights Restoration Act of 1987 clarified the original intent of Congress, with respect to Title VI of the Civil Rights Act of 1964 and other non-discrimination requirements (the Age Discrimination Act of 1975, and Section 504 of the Rehabilitation Act of 1973), by restoring the broad, institutional-wide scope and coverage of these nondiscrimination statutes and requirements to include all programs and activities of the Recipient, so long as any portion of the program is Federally assisted.

SPECIFIC ASSURANCES

More specifically, and without limiting the above general Assurance, the Recipient agrees with and gives the following Assurances with respect to its Federally assisted Highway Safety Grant Program:

1. The Recipient agrees that each “activity,” “facility,” or “program,” as defined in § 21.23(b) and (e) of [49 CFR part 21](#) will be (with regard to an “activity”) facilitated, or will be (with regard to a “facility”) operated, or will be (with regard to a “program”) conducted in compliance with all requirements imposed by, or pursuant to the Acts and the Regulations.
2. The Recipient will insert the following notification in all solicitations for bids, Requests For Proposals for work, or material subject to the Acts and the Regulations made in connection with all Highway Safety Grant Programs and, in adapted form, in all proposals for negotiated agreements regardless of funding source:
“The [name of Recipient], in accordance with the provisions of Title VI of the Civil Rights Act of 1964 (78 Stat. 252, 42 U.S.C 2000d to 2000d-4) and the Regulations, hereby notifies all bidders that it will affirmatively ensure that in any contract entered into pursuant to this advertisement, disadvantaged business enterprises will be afforded full and fair opportunity to submit bids in response to this invitation and will not be discriminated against on the grounds of race, color, or national origin in consideration for an award.”
3. The Recipient will insert the clauses of appendix A and E of this Assurance (also referred to as DOT Order 1050.2A) ^[U] in every contract or agreement subject to the Acts and the Regulations.
4. The Recipient will insert the clauses of appendix B of DOT Order 1050.2A, as a covenant running with the land, in any deed from the United States effecting or recording a transfer of real property, structures, use, or improvements thereon or interest therein to a Recipient.
5. That where the Recipient receives Federal financial assistance to construct a facility, or part of a facility, the Assurance will extend to the entire facility and facilities operated in connection therewith.
6. That where the Recipient receives Federal financial assistance in the form of, or for the acquisition of, real property or an interest in real property, the Assurance will extend to rights to space on, over, or under such property.
7. That the Recipient will include the clauses set forth in appendix C and appendix D of this DOT Order 1050.2A, as a covenant running with the land, in any future deeds, leases, licenses, permits, or similar instruments entered into by the Recipient with other parties:
 - a. for the subsequent transfer of real property acquired or improved under the applicable activity, project, or program; and
 - b. for the construction or use of, or access to, space on, over, or under real property acquired or improved under the applicable activity, project, or program.
8. That this Assurance obligates the Recipient for the period during which Federal financial assistance is extended to the program, except where the Federal financial assistance is to provide, or is in the form of, personal property, or real property, or interest therein, or

structures or improvements thereon, in which case the Assurance obligates the Recipient, or any transferee for the longer of the following periods:

- a. the period during which the property is used for a purpose for which the Federal financial assistance is extended, or for another purpose involving the provision of similar services or benefits; or
 - b. the period during which the Recipient retains ownership or possession of the property.
9. The Recipient will provide for such methods of administration for the program as are found by the Secretary of Transportation or the official to whom he/she delegates specific authority to give reasonable guarantee that it, other recipients, sub-recipients, sub-grantees, contractors, subcontractors, consultants, transferees, successors in interest, and other participants of Federal financial assistance under such program will comply with all requirements imposed or pursuant to the Acts, the Regulations, and this Assurance.
10. The Recipient agrees that the United States has a right to seek judicial enforcement with regard to any matter arising under the Acts, the Regulations, and this Assurance.

By signing this ASSURANCE, the State highway safety agency also agrees to comply (and require any sub-recipients, sub-grantees, contractors, successors, transferees, and/or assignees to comply) with all applicable provisions governing NHTSA's access to records, accounts, documents, information, facilities, and staff. You also recognize that you must comply with any program or compliance reviews, and/or complaint investigations conducted by NHTSA. You must keep records, reports, and submit the material for review upon request to NHTSA, or its designee in a timely, complete, and accurate way. Additionally, you must comply with all other reporting, data collection, and evaluation requirements, as prescribed by law or detailed in program guidance.

The State highway safety agency gives this ASSURANCE in consideration of and for obtaining any Federal grants, loans, contracts, agreements, property, and/or discounts, or other Federal-aid and Federal financial assistance extended after the date hereof to the recipients by the U.S. Department of Transportation under the Highway Safety Grant Program. This ASSURANCE is binding on the State highway safety agency, other recipients, sub-recipients, sub-grantees, contractors, subcontractors and their subcontractors', transferees, successors in interest, and any other participants in the Highway Safety Grant Program. The person(s) signing below is/are authorized to sign this ASSURANCE on behalf of the Recipient.

THE DRUG-FREE WORKPLACE ACT OF 1988 ([41 U.S.C. 8103](#))

The State will provide a drug-free workplace by:

- a. Publishing a statement notifying employees that the unlawful manufacture, distribution, dispensing, possession or use of a controlled substance is prohibited in the grantee's workplace, and specifying the actions that will be taken against employees for violation of such prohibition;
- b. Establishing a drug-free awareness program to inform employees about:
 1. The dangers of drug abuse in the workplace;
 2. The grantee's policy of maintaining a drug-free workplace;

3. Any available drug counseling, rehabilitation, and employee assistance programs;
4. The penalties that may be imposed upon employees for drug violations occurring in the workplace;
5. Making it a requirement that each employee engaged in the performance of the grant be given a copy of the statement required by paragraph (a);
- c. Notifying the employee in the statement required by paragraph (a) that, as a condition of employment under the grant, the employee will—
 1. Abide by the terms of the statement;
 2. Notify the employer of any criminal drug statute conviction for a violation occurring in the workplace no later than five days after such conviction;
- d. Notifying the agency within ten days after receiving notice under subparagraph (c)(2) from an employee or otherwise receiving actual notice of such conviction;
- e. Taking one of the following actions, within 30 days of receiving notice under subparagraph (c)(2), with respect to any employee who is so convicted—
 1. Taking appropriate personnel action against such an employee, up to and including termination;
 2. Requiring such employee to participate satisfactorily in a drug abuse assistance or rehabilitation program approved for such purposes by a Federal, State, or local health, law enforcement, or other appropriate agency;
- f. Making a good faith effort to continue to maintain a drug-free workplace through implementation of all of the paragraphs above.

POLITICAL ACTIVITY (HATCH ACT)
(applies to subrecipients as well as States)

The State will comply with provisions of the Hatch Act ([5 U.S.C. 1501-1508](#)), which limits the political activities of employees whose principal employment activities are funded in whole or in part with Federal funds.

CERTIFICATION REGARDING FEDERAL LOBBYING
(applies to subrecipients as well as States)

CERTIFICATION FOR CONTRACTS, GRANTS, LOANS, AND COOPERATIVE AGREEMENTS

The undersigned certifies, to the best of his or her knowledge and belief, that:

1. No Federal appropriated funds have been paid or will be paid, by or on behalf of the undersigned, to any person for influencing or attempting to influence an officer or employee of any agency, a Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with the awarding of any Federal contract, the making of any Federal grant, the making of any Federal loan, the entering into of any cooperative agreement, and the extension, continuation, renewal, amendment, or modification of any Federal contract, grant, loan, or cooperative agreement;
2. If any funds other than Federal appropriated funds have been paid or will be paid to any person for influencing or attempting to influence an officer or employee of any agency, a

Member of Congress, an officer or employee of Congress, or an employee of a Member of Congress in connection with this Federal contract, grant, loan, or cooperative agreement, the undersigned shall complete and submit Standard Form-LLL, "Disclosure Form to Report Lobbying," in accordance with its instructions;

3. The undersigned shall require that the language of this certification be included in the award documents for all sub-awards at all tiers (including subcontracts, subgrants, and contracts under grant, loans, and cooperative agreements) and that all subrecipients shall certify and disclose accordingly.

This certification is a material representation of fact upon which reliance was placed when this transaction was made or entered into. Submission of this certification is a prerequisite for making or entering into this transaction imposed by section 1352, title 31, U.S. Code. Any person who fails to file the required certification shall be subject to a civil penalty of not less than \$10,000 and not more than \$100,000 for each such failure.

RESTRICTION ON STATE LOBBYING

(applies to subrecipients as well as States)

None of the funds under this program will be used for any activity specifically designed to urge or influence a State or local legislator to favor or oppose the adoption of any specific legislative proposal pending before any State or local legislative body. Such activities include both direct and indirect (*e.g.*, "grassroots") lobbying activities, with one exception. This does not preclude a State official whose salary is supported with NHTSA funds from engaging in direct communications with State or local legislative officials, in accordance with customary State practice, even if such communications urge legislative officials to favor or oppose the adoption of a specific pending legislative proposal.

CERTIFICATION REGARDING DEBARMENT AND SUSPENSION

(applies to subrecipients as well as States)

INSTRUCTIONS FOR PRIMARY TIER PARTICIPANT CERTIFICATION (STATES)

1. By signing and submitting this proposal, the prospective primary tier participant is providing the certification set out below and agrees to comply with the requirements of [2 CFR parts 180 and 1200](#).
2. The inability of a person to provide the certification required below will not necessarily result in denial of participation in this covered transaction. The prospective primary tier participant shall submit an explanation of why it cannot provide the certification set out below. The certification or explanation will be considered in connection with the department or agency's determination whether to enter into this transaction. However, failure of the prospective primary tier participant to furnish a certification or an explanation shall disqualify such person from participation in this transaction.
3. The certification in this clause is a material representation of fact upon which reliance was placed when the department or agency determined to enter into this transaction. If it is later determined that the prospective primary tier participant knowingly rendered an

erroneous certification, in addition to other remedies available to the Federal Government, the department or agency may terminate this transaction for cause or default or may pursue suspension or debarment.

4. The prospective primary tier participant shall provide immediate written notice to the department or agency to which this proposal is submitted if at any time the prospective primary tier participant learns its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
5. The terms **covered transaction, civil judgment, debarment, suspension, ineligible, participant, person, principal, and voluntarily excluded**, as used in this clause, are defined in [2 CFR parts 180](#) and [1200](#). You may contact the department or agency to which this proposal is being submitted for assistance in obtaining a copy of those regulations.
6. The prospective primary tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under [48 CFR part 9, subpart 9.4](#), debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency entering into this transaction.
7. The prospective primary tier participant further agrees by submitting this proposal that it will include the clause titled “Instructions for Lower Tier Participant Certification” including the “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction,” provided by the department or agency entering into this covered transaction, without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with [2 CFR parts 180](#) and [1200](#).
8. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under [48 CFR part 9, subpart 9.4](#), debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (<https://www.sam.gov/>).
9. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
10. Except for transactions authorized under paragraph 6 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under [48 CFR part 9, subpart 9.4](#), suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency may terminate the transaction for cause or default.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, AND OTHER RESPONSIBILITY MATTERS—PRIMARY TIER COVERED TRANSACTIONS

1. The prospective primary tier participant certifies to the best of its knowledge and belief, that it and its principals:
 - a. Are not presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency;
 - b. Have not within a three-year period preceding this proposal been convicted of or had a civil judgment rendered against them for commission of fraud or a criminal offense in connection with obtaining, attempting to obtain, or performing a public (Federal, State, or local) transaction or contract under a public transaction; violation of Federal or State antitrust statutes or commission of embezzlement, theft, forgery, bribery, falsification or destruction of records, making false statements, or receiving stolen property;
 - c. Are not presently indicted for or otherwise criminally or civilly charged by a governmental entity (Federal, State, or local) with commission of any of the offenses enumerated in paragraph (1)(b) of this certification; and
 - d. Have not within a three-year period preceding this application/proposal had one or more public transactions (Federal, State, or local) terminated for cause or default.
2. Where the prospective primary tier participant is unable to certify to any of the Statements in this certification, such prospective participant shall attach an explanation to this proposal.

INSTRUCTIONS FOR LOWER TIER PARTICIPANT CERTIFICATION

1. By signing and submitting this proposal, the prospective lower tier participant is providing the certification set out below and agrees to comply with the requirements of [2 CFR parts 180 and 1200](#).
2. The certification in this clause is a material representation of fact upon which reliance was placed when this transaction was entered into. If it is later determined that the prospective lower tier participant knowingly rendered an erroneous certification, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.
3. The prospective lower tier participant shall provide immediate written notice to the person to which this proposal is submitted if at any time the prospective lower tier participant learns that its certification was erroneous when submitted or has become erroneous by reason of changed circumstances.
4. The terms **covered transaction, civil judgment, debarment, suspension, ineligible, participant, person, principal, and voluntarily excluded**, as used in this clause, are defined in [2 CFR parts 180 and 1200](#). You may contact the person to whom this proposal is submitted for assistance in obtaining a copy of those regulations.

5. The prospective lower tier participant agrees by submitting this proposal that, should the proposed covered transaction be entered into, it shall not knowingly enter into any lower tier covered transaction with a person who is proposed for debarment under [48 CFR part 9, subpart 9.4](#), debarred, suspended, declared ineligible, or voluntarily excluded from participation in this covered transaction, unless authorized by the department or agency with which this transaction originated.
6. The prospective lower tier participant further agrees by submitting this proposal that it will include the clause titled “Instructions for Lower Tier Participant Certification” including the “Certification Regarding Debarment, Suspension, Ineligibility and Voluntary Exclusion—Lower Tier Covered Transaction,” without modification, in all lower tier covered transactions and in all solicitations for lower tier covered transactions and will require lower tier participants to comply with [2 CFR parts 180](#) and [1200](#).
7. A participant in a covered transaction may rely upon a certification of a prospective participant in a lower tier covered transaction that it is not proposed for debarment under [48 CFR part 9, subpart 9.4](#), debarred, suspended, ineligible, or voluntarily excluded from the covered transaction, unless it knows that the certification is erroneous. A participant is responsible for ensuring that its principals are not suspended, debarred, or otherwise ineligible to participate in covered transactions. To verify the eligibility of its principals, as well as the eligibility of any prospective lower tier participants, each participant may, but is not required to, check the System for Award Management Exclusions website (<https://www.sam.gov/>).
8. Nothing contained in the foregoing shall be construed to require establishment of a system of records in order to render in good faith the certification required by this clause. The knowledge and information of a participant is not required to exceed that which is normally possessed by a prudent person in the ordinary course of business dealings.
9. Except for transactions authorized under paragraph 5 of these instructions, if a participant in a covered transaction knowingly enters into a lower tier covered transaction with a person who is proposed for debarment under [48 CFR part 9, subpart 9.4](#), suspended, debarred, ineligible, or voluntarily excluded from participation in this transaction, in addition to other remedies available to the Federal Government, the department or agency with which this transaction originated may pursue available remedies, including suspension or debarment.

CERTIFICATION REGARDING DEBARMENT, SUSPENSION, INELIGIBILITY AND VOLUNTARY EXCLUSION—LOWER TIER COVERED TRANSACTIONS

1. The prospective lower tier participant certifies, by submission of this proposal, that neither it nor its principals is presently debarred, suspended, proposed for debarment, declared ineligible, or voluntarily excluded from participating in covered transactions by any Federal department or agency.
2. Where the prospective lower tier participant is unable to certify to any of the statements in this certification, such prospective participant shall attach an explanation to this proposal.

BUY AMERICA

(applies to subrecipients as well as States)

The State and each subrecipient will comply with the Buy America requirement ([23 U.S.C. 313](#)) when purchasing items using Federal funds. Buy America requires a State, or subrecipient, to purchase with Federal funds only steel, iron and manufactured products produced in the United States, unless the Secretary of Transportation determines that such domestically produced items would be inconsistent with the public interest, that such materials are not reasonably available and of a satisfactory quality, or that inclusion of domestic materials will increase the cost of the overall project contract by more than 25 percent. In order to use Federal funds to purchase foreign produced items, the State must submit a waiver request that provides an adequate basis and justification for approval by the Secretary of Transportation.

CERTIFICATION ON CONFLICT OF INTEREST

(applies to subrecipients as well as States)

GENERAL REQUIREMENTS

No employee, officer, or agent of a State or its subrecipient who is authorized in an official capacity to negotiate, make, accept, or approve, or to take part in negotiating, making, accepting, or approving any subaward, including contracts or subcontracts, in connection with this grant shall have, directly or indirectly, any financial or personal interest in any such subaward. Such a financial or personal interest would arise when the employee, officer, or agent, any member of his or her immediate family, his or her partner, or an organization which employs or is about to employ any of the parties indicated herein, has a financial or personal interest in or a tangible personal benefit from an entity considered for a subaward. Based on this policy:

1. The recipient shall maintain a written code or standards of conduct that provide for disciplinary actions to be applied for violations of such standards by officers, employees, or agents.
 - a. The code or standards shall provide that the recipient's officers, employees, or agents may neither solicit nor accept gratuities, favors, or anything of monetary value from present or potential subawardees, including contractors or parties to subcontracts.
 - b. The code or standards shall establish penalties, sanctions, or other disciplinary actions for violations, as permitted by State or local law or regulations.
2. The recipient shall maintain responsibility to enforce the requirements of the written code or standards of conduct.

DISCLOSURE REQUIREMENTS

No State or its subrecipient, including its officers, employees, or agents, shall perform or continue to perform under a grant or cooperative agreement, whose objectivity may be impaired because of any related past, present, or currently planned interest, financial or otherwise, in

organizations regulated by NHTSA or in organizations whose interests may be substantially affected by NHTSA activities. Based on this policy:

1. The recipient shall disclose any conflict of interest identified as soon as reasonably possible, making an immediate and full disclosure in writing to NHTSA. The disclosure shall include a description of the action which the recipient has taken or proposes to take to avoid or mitigate such conflict.
2. NHTSA will review the disclosure and may require additional relevant information from the recipient. If a conflict of interest is found to exist, NHTSA may (a) terminate the award, or (b) determine that it is otherwise in the best interest of NHTSA to continue the award and include appropriate provisions to mitigate or avoid such conflict.
3. Conflicts of interest that require disclosure include all past, present, or currently planned organizational, financial, contractual, or other interest(s) with an organization regulated by NHTSA or with an organization whose interests may be substantially affected by NHTSA activities, and which are related to this award. The interest(s) that require disclosure include those of any recipient, affiliate, proposed consultant, proposed subcontractor, and key personnel of any of the above. Past interest shall be limited to within one year of the date of award. Key personnel shall include any person owning more than a 20 percent interest in a recipient, and the officers, employees or agents of a recipient who are responsible for making a decision or taking an action under an award where the decision or action can have an economic or other impact on the interests of a regulated or affected organization.

PROHIBITION ON USING GRANT FUNDS TO CHECK FOR HELMET USAGE **(applies to subrecipients as well as States)**

The State and each subrecipient will not use 23 U.S.C. Chapter 4 grant funds for programs to check helmet usage or to create checkpoints that specifically target motorcyclists.

POLICY ON SEAT BELT USE

In accordance with [Executive Order 13043](#), Increasing Seat Belt Use in the United States, dated April 16, 1997, the Grantee is encouraged to adopt and enforce on-the-job seat belt use policies and programs for its employees when operating company-owned, rented, or personally-owned vehicles. The National Highway Traffic Safety Administration (NHTSA) is responsible for providing leadership and guidance in support of this Presidential initiative. For information and resources on traffic safety programs and policies for employers, please contact the Network of Employers for Traffic Safety (NETS), a public-private partnership dedicated to improving the traffic safety practices of employers and employees. You can download information on seat belt programs, costs of motor vehicle crashes to employers, and other traffic safety initiatives at www.trafficsafety.org. The NHTSA website (www.nhtsa.gov) also provides information on statistics, campaigns, and program evaluations and references.

POLICY ON BANNING TEXT MESSAGING WHILE DRIVING

In accordance with [Executive Order 13513](#), Federal Leadership On Reducing Text Messaging While Driving, and DOT Order 3902.10, Text Messaging While Driving, States are encouraged to adopt and enforce workplace safety policies to decrease crashes caused by distracted driving, including policies to ban text messaging while driving company-owned or rented vehicles, Government-owned, leased or rented vehicles, or privately-owned vehicles when on official Government business or when performing any work on or behalf of the Government. States are also encouraged to conduct workplace safety initiatives in a manner commensurate with the size of the business, such as establishment of new rules and programs or re-evaluation of existing programs to prohibit text messaging while driving, and education, awareness, and other outreach to employees about the safety risks associated with texting while driving.

SECTION 402 REQUIREMENTS

1. To the best of my personal knowledge, the information submitted in the annual grant application in support of the State's application for a grant under [23 U.S.C. 402](#) is accurate and complete.
2. The Governor is the responsible official for the administration of the State highway safety program, by appointing a Governor's Representative for Highway Safety who shall be responsible for a State highway safety agency that has adequate powers and is suitably equipped and organized (as evidenced by appropriate oversight procedures governing such areas as procurement, financial administration, and the use, management, and disposition of equipment) to carry out the program. ([23 U.S.C. 402\(b\)\(1\)\(A\)](#))
3. At least 40 percent of all Federal funds apportioned to this State under [23 U.S.C. 402](#) for this fiscal year will be expended by or on behalf of political subdivisions of the State in carrying out local highway safety programs ([23 U.S.C. 402\(b\)\(1\)\(C\)](#)) or 95 percent by and on behalf of Indian tribes ([23 U.S.C. 402\(h\)\(2\)](#)), unless this requirement is waived in writing. (This provision is not applicable to the District of Columbia, Puerto Rico, the U.S. Virgin Islands, Guam, American Samoa, and the Commonwealth of the Northern Mariana Islands.)
4. The State's highway safety program provides adequate and reasonable access for the safe and convenient movement of physically handicapped persons, including those in wheelchairs, across curbs constructed or replaced on or after July 1, 1976, at all pedestrian crosswalks. ([23 U.S.C. 402\(b\)\(1\)\(D\)](#))
5. As part of a comprehensive program, the State will support a data-based traffic safety enforcement program that fosters effective community collaboration to increase public safety, and data collection and analysis to ensure transparency, identify disparities in traffic enforcement, and inform traffic enforcement policies, procedures, and activities. ([23 U.S.C. 402\(b\)\(1\)\(E\)](#))
6. The State will implement activities in support of national highway safety goals to reduce motor vehicle related fatalities that also reflect the primary data-related crash factors within the State, as identified by the State highway safety planning process, including:

- Participation in the National high-visibility law enforcement mobilizations as identified annually in the NHTSA Communications Calendar, including not less than 3 mobilization campaigns in each fiscal year to—
 - Reduce alcohol-impaired or drug-impaired operation of motor vehicles; and
 - Increase use of seat belts by occupants of motor vehicles;
 - Sustained enforcement of statutes addressing impaired driving, occupant protection, and driving in excess of posted speed limits;
 - An annual statewide seat belt use survey in accordance with 23 CFR part 1340 for the measurement of State seat belt use rates, except for the Secretary of Interior on behalf of Indian tribes;
 - Development of statewide data systems to provide timely and effective data analysis to support allocation of highway safety resources;
 - Coordination of triennial Highway Safety Plan, data collection, and information systems with the State strategic highway safety plan, as defined in 23 U.S.C. 148(a); and
 - Participation in the Fatality Analysis Reporting System (FARS), except for American Samoa, Guam, the Commonwealth of the Northern Mariana Islands, or the United States Virgin Islands
7. The State will actively encourage all relevant law enforcement agencies in the State to follow the guidelines established for vehicular pursuits issued by the International Association of Chiefs of Police that are currently in effect. (23 U.S.C. 402(j))
8. The State will not expend Section 402 funds to carry out a program to purchase, operate, or maintain an automated traffic enforcement system, except in a work zone or school zone. (23 U.S.C. 402(c)(4))

I understand that my statements in support of the State's application for Federal grant funds are statements upon which the Federal Government will rely in determining qualification for grant funds, and that knowing misstatements may be subject to civil or criminal penalties under [18 U.S.C. 1001](#). I sign these Certifications and Assurances based on personal knowledge, and after appropriate inquiry.

Documentation – TRSP PM C-TCU-01

4.1 Traffic Records Performance Measures

4.1.1 Crash Completeness – Toxicology Results Reported

Label: C-TCU-01

Status of Improvement: Demonstrates Improvement

Active Status: Active

Last Updated: July 30, 2025

Related Project: TN P22 - TITAN

Narrative

The TRSP performance metric for the crash system is the percentage of toxicology results reported on the crash reports when the test is given. As originally reported, the baseline for the metric during 4/1/2021 – 3/31/2022 was 46.6% and the target was set at 50%. During the most recent reporting period, 51.8% of toxicology results were reported, an increase of 4.2 percentage points over the prior twelve-month period compared at the same time last year.

Measurements

Performance Measure: Percentage of Toxicology Results Reported on Crash Reports

Performance Period	Actual	Target	Target Start Date	Target End Date
April 2021 – March 2022	46.6%	Baseline	4/1/2021	3/31/2022
April 2022 – March 2023	49.9%	50%	4/1/2022	3/31/2023
April 2023 – March 2024	47.6%	50%	4/1/2023	3/31/2024
April 2024 – March 2025	51.8%	50%	4/1/2024	3/31/2025
