2025 Code of Virginia

Grant Funding by Subrecipient Projects (FY2026)

Target Reset (Fatalities, Fatalities/VMT and Serious Injuries)

Virginia's Data-Driven Methods for Safety Measures Target Setting Background

The Federal Highway Administration (FHWA) established Safety Performance Management (Safety PM) to support the Highway Safety Improvement Program (HSIP). Regulation establishes safety performance measure annual reporting and target setting requirements for all public roads. The FHWA Safety PM Regulation ([23 CFR 490](#)) established five performance measures, as follows:

1. Number of fatalities (F).
2. Rate of fatalities per 100 million vehicle miles traveled (VMT).
3. Number of serious injuries (SI).
4. Rate of serious injuries per 100 million VMT.
5. Number of non-motorized fatalities and non-motorized serious injuries (N-M F+SI).

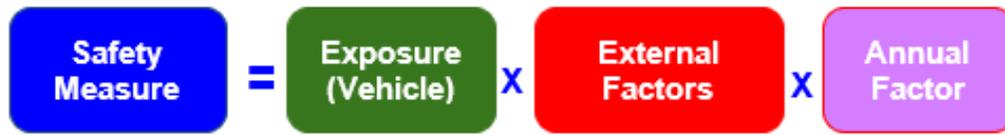

The first three measures historic annual values are reported to both the National Highway Traffic Safety Administration (NHTSA) (Highway Safety Grants Program [23 CFR 1300](#)) and FHWA and the latter two only to FHWA. Future year targets are submitted as five-year rolling average values for each measure.

A specific methodology is not identified for use when establishing safety targets. States have flexibility to use a data-driven process, but targets for the next calendar year are established based on coordination and collaboration between the Virginia Department of Transportation's (VDOT) HSIP which reports to FHWA, and the Highway Safety Office (HSO), which reports to NHTSA in the Triennial Highway Safety Plan (3HSP). Determination of "significant progress" is made by FHWA two years after the target year. Information is provided on the [FHWA safety website](#) on the methods and findings of the assessments for each state.

Target Setting Approaches (for 3 identical targets)

Since the 2019 target setting process, VDOT has developed a statistical model to project fatalities, serious injuries, and non-motorized fatalities and serious injuries based on influencing factors. This process is similar to one developed for a national study (NCHRP 17-67). VDOT developed target year baseline statistical prediction models at the VDOT District level by month of observed data (external factors) available back to the year 2009. Data that could be summarized at the district and monthly levels were used to increase the sample size and identify characteristics that differ across Virginia and by season. The model shown in Figure 1 below, identifies the effect of exposure in daily vehicle miles traveled (DVMT) multiplied by external factors that adjust the DVMT changes for each measure. An annual factor is used to calibrate the model to previous years data. An annual factor is used to calibrate the model to previous years data.

Figure 1. Target Year Baseline Prediction Model Form

Several factors are re-tested each year in the prediction model calibration, including socio-economic, population (age groups), weather, liquor licenses and consumption, VDOT spending on infrastructure expansion, maintenance, operations and DMV’s behavioral (NHTSA) grant programs. For target setting each year, additional factor data are considered to refine the model. The Annual Factor is a calibration factor to account for all the unknown annual factor effects. The model target year predictions, using the forecast target year DVMT and factor data, are tested to see if the prediction “fit” to the safety measure outcomes was reasonable for the most recent year data available (i.e., 2024 for 2026 targets).

2024 Baseline Count Measure Predictions

For each of the three count measures (F, SI, N-M F+SI), similar factors were found to be statistically significant influencers, as shown in Figure 2. Factors with positive values indicate that increasing the factor increases the measure; factors with negative values indicate that increasing the factor results in a decrease in the measure. Factors were found to have similar effects to the previous year’s models. However, highway construction spending was tested for the 2026 target year and found to be a statistically significant influencer for all three count measures.

Figure 2. External Factors for 2024 Baseline Predictions

Factor By District	Effect on Fatal Crashes	Effect on Serious Injury Crashes	Effect on Bike/ Ped Crashes
VMT growth	↑	↑	↑
Increasing local functional class percentage of VMT	↑	↑	↑
Increasing young population (15-24)	↑	↑	↑
Increasing aging population (75+)	↑	↑	
Liquor licenses		↑	↑
Increased highway resurfacing spending (603)	↓		

Increased emergency/incident management spending	↓		
Increased total behavioral programs spending	↓	↓	↓
Increased roadway maintenance spending (604)	↓	↓	
Increased highway construction spending (603)	↓	↓	↓
Increased average snowfall per month			↓
Increased rural functional class percent of VMT			↓
Increased monthly unemployment	↑	↑	

 = Increases Effect
 = Decreases Effect
 = Additional 2025

VDOT forecasted change in these factors out to 2026 to calculate raw projections for each of the three count measures. VDOT then subtracted assumed reductions in the three count measures that could be tied to planned infrastructure investments in 2025 and 2026 to develop the final projections. VDOT used the final projections and projected VMT to calculate the two rate measures.

For all three count measures, the annual projections for 2026 resulted in a 2022-2026 five-year average higher than the 2020-2024 baseline, which does not meet the requirement for the three common safety targets to demonstrate level or improved performance. As such, VDOT considered an alternative target setting approach that used the following approaches to define the 2025 and 2026 annual values to be used in the 2022-2026 five-year average calculation.

- 2025: annual value set equal to the adopted 2025 safety targets
- 2026: annual value set equal to the 2025 year-end projection based on available year-to-date data and the average proportion of year-end data from the last three years

The below data table provides the annual targets and the associated five-year average targets for the years 2024 to 2026 for NHTSA reporting.

2024 to 2026 Annual and Five-Year Average Safety Targets Values for NHTSA Reporting

Target Description	F People	F Rate	SI People
2026 Annual Targets	882	1.000	6,424.0
2026 Five-year Average Targets	908.0	1.040	7,021.6

CORE OUTCOME PERFORMANCE MEASURES

Fatalities

Crash fatalities increased 1% from 2023 to 2024 decreasing to 918 from 907. Eleven more lives were lost in 2024.

Fatalities decreased 20% in January, decreasing by 16 (81 to 65). Fatalities decreased 11% in August, decreasing by 11 (100 to 89). Other decreases occurred in April (-6), September (-5), November (-2), and March (-1). These months accounted for 49% of fatalities in 2024, as opposed to 54% in 2023.

Fatalities increased most in February and May. Fatalities increased by 15 in February and 14 in May. Fatalities also increased by 11 in June and 8 in October. Increases were smaller in July (3) and December (1). The highest number of fatalities in 2024 occurred in May and accounted for 11% of all fatalities. In 2023 the highest number of fatalities occurred in August, also accounting for 11% of all fatalities.

Fatalities decreased by 26 (-17%) on Fridays and 19 (-16%) on Wednesdays. Fatalities increased by 29 (+21%) on Saturdays. They increased by 8 on Sundays and Mondays, 7 on Tuesdays, and 4 on Thursdays. Forty-eight percent of fatalities occurred on Fridays, Saturdays and Sundays in 2024 (47% in 2023).

Fatalities decreased by 18 from midnight-6am (163 to 147). A small decrease took place between 6pm-9pm, (-4). The largest increase in fatalities, 18, occurred between 9am-3pm (203 to 222). Sixty-three percent of fatalities occurred between the hours of noon-midnight (62% in 2023).

Interstates I-95, I-64, and I-81 each had a much higher number of fatalities than other Virginia interstates (including ramps).

Fatalities on I-95 decreased by 10 from 38 to 28. Twenty percent of interstate fatalities occurred on I-95 in 2024 (27% in 2023). Nineteen percent of interstate fatalities occurred on I-64 in 2024 (18% in 2023).

Fatalities on I-64 increased by 2 from 25 to 27. Nineteen percent of interstate fatalities occurred on I-81 in 2024 and in 2023.

Fatalities on I-81 increased by 1 from 26 to 27. Fatalities on I-264 decreased by 7 from 7 to 0. The largest increase was 4 on I-295 (3 to 7).

In 2024, 54% of fatalities were the result of a single vehicle crash (54% in 2023). Fatalities in single vehicle crashes increased by 7 (496 to 503). Thirty-eight percent of fatalities occurred in two vehicle crashes in 2024. Fatalities increased by 7 (338 to 345).

Teen driver fatalities increased by 6 (32 to 36). Teen driver fatalities accounted for 4% of all fatalities in 2024 and 2023. Mature driver fatalities increased by 15 (139 to 154). Mature driver fatalities accounted for 17% of all fatalities in 2024 (15% in 2023).

Drinking driver fatalities and speeding driver fatalities both decreased in 2024. Drinking driver fatalities decreased by 2 from 61 to 59. In 2024 they accounted for 6% of all fatalities (7% in 2023). Speeding driver fatalities decreased by 16 from 275 to 259. In 2024 they accounted for 28% of all fatalities (30% in 2023).

For people aged under 50, fatalities decreased by 21 (532 to 511) in 2024. Fatalities for people aged over 50 increased by 32 (373 to 405). In 2024, the largest decrease in fatalities was for people aged 26 to 40 (249 to 199).

Fatalities for people aged 26 to 40 were 22% of all fatalities (27% in 2023). The largest increase in fatalities was for people aged 19 to 25 (116 to 141). Fatalities for people aged 19 to 25 were 15% of all fatalities (12% in 2023).

Fatalities for people aged 70 and over increased by 24 from 126 to 150. People aged over 70 accounted for 16% of all fatalities in 2024 (14% in 2023).

In 2024, fatalities in urban areas decreased by 42 and increased by 53 in rural areas. Urban crashes accounted for 43% of fatalities in 2024 (48% in 2023). Rural fatalities accounted for 57% of fatalities in 2024 (52% in 2023).

The Bristol and Portsmouth VAHSO Regions had significant decreases in fatalities and the Roanoke Region had a significant increase. Fatalities in the Bristol Region decreased by 26 from 90 to 64. They accounted for 7% of all fatalities in 2024 (10% in 2023).

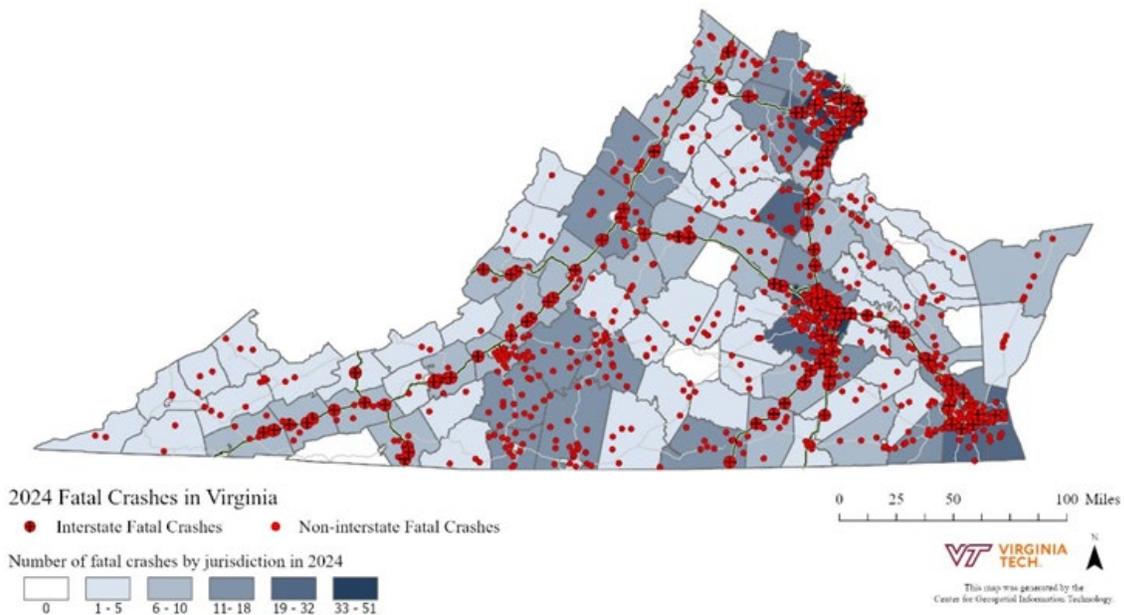

Fatalities in the Portsmouth Region decreased by 16 from 196 to 180. They accounted for 20% of all fatalities in 2024 (22% in 2023). Fatalities in the Roanoke Region increased 38 from 109 to 147. They accounted for 16% of all fatalities in 2024 (12% in 2023).

Fatalities increased in all the other regions, Fairfax 170 to 179, Staunton 132 to 136, and Richmond 210 to 212. Fairfax County had the highest number of fatalities in 2024 and 2023. Fatalities increased 13 from 42 to 55 and accounted for 6% of all fatalities (5% in 2023). In 2024, Henrico County had the second highest number of fatalities at 48, an increase of 20 (28 to 48). Chesterfield County had 33 fatalities in 2024, an increase of 6.

Fatalities in Prince William County increased by 1 from 29 to 30 in 2024. One of the largest decreases were in Virginia Beach. Fatalities decreased by 12 from 36 to 24. Halifax County had the largest decrease in fatalities in 2024 going from 20 to 7. Other large decreases in fatalities were seen in Hanover County (23 to 12) and Campbell County (22 to 12).

Henrico County had the largest increase in fatalities followed by Bedford County with an increase of 14 (3 to 17). Fairfax County had the next largest increase in fatalities with other jurisdictions with decreases of note were the City of Richmond (-9) and the City of Hampton (-8). Other jurisdictions

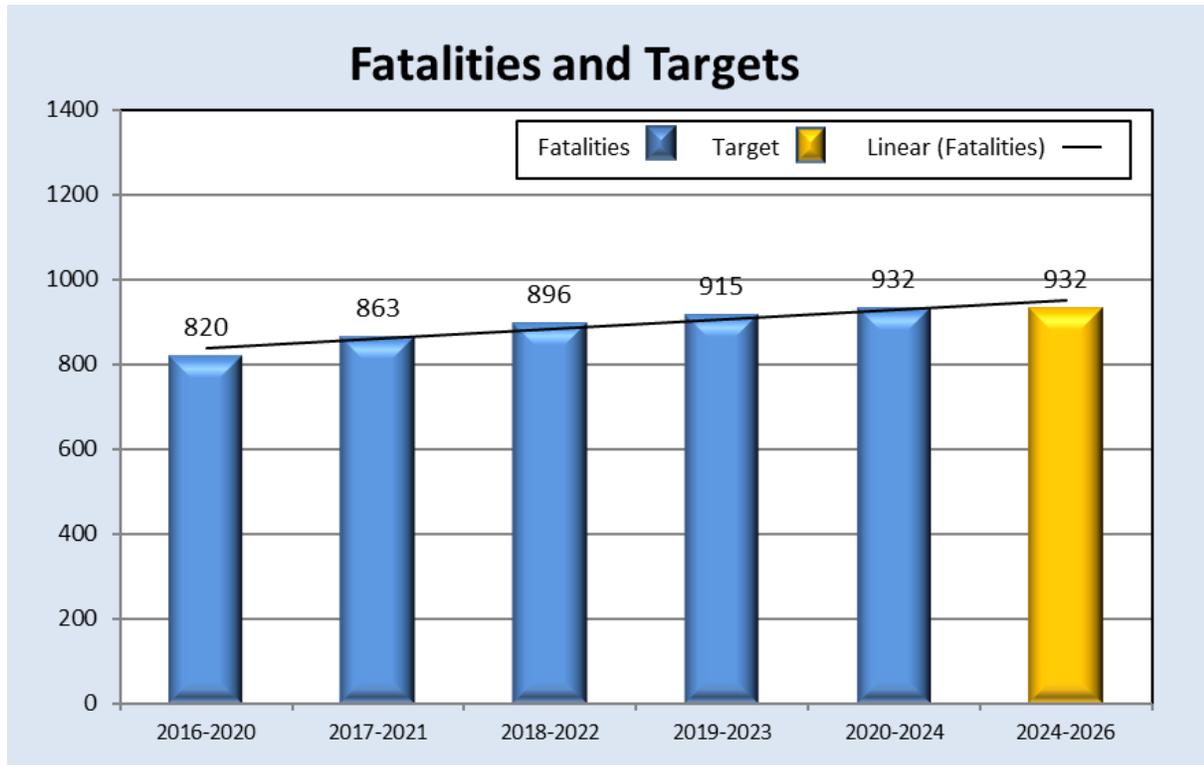

with increases of note were Franklin County (8), Frederick County (8), the City of Lynchburg (8), and Henry County (7). There were 5,966,755 licensed drivers, a 3 percent decrease (164,681) and 8,685,250 registered vehicles, a 1 percent increase (96,639) compared to 2023.

Measure C-1: Target for 5-year rolling average total fatalities as 932.4 by 2026.

	Baseline Data					Targets
	2016-2020	2017-2021	2018-2022	2019-2023	2020-2024	2026
Fatalities	820	863	896	915	932	932.4

Note: 2024 is TRENDS data

Serious Injuries

In 2024 serious injuries decreased by 258 over 2023. This equates to a 3% decrease.

The biggest change by month in 2024 was the decrease in serious injuries that occurred in January. Serious injuries decreased 19% in January from 529 to 431 (-98). There were also large decreases in serious injuries in October, May, August, and July. In October, serious injuries decreased by 72 (-9%) from 758 to 686. In May, they decreased by 55 (-8%) from 689 to 634. In August, they decreased by 44 (-6%) from 706 to 662. In July, they decreased by 38 (-5%) from 703 to 665. Serious injuries increased by 58 (+10%) from 562 to 620 in the month of November. The next largest increase was 23 (+4%) in September (625 to 648).

In 2024, serious injuries decreased every day of the week except Mondays and Tuesdays. The largest decrease in serious injuries was on Saturdays. Serious injuries decreased by 126 (-10%) going from 1,304 to 1,178. On Fridays they decreased by 99 (-8%) from 1,185 to 1,086. On Wednesdays they decreased by 72 (-7%) from 1,029 to 957. On Thursdays they decreased by 69 (-7%) from 1,026 to 957. Serious injuries also decreased by 24 on Sundays. Serious injuries increased by 67 (+7%) on Mondays and 65 (+7%) on Tuesday. Serious injuries increased from 945 to 1,012 on Mondays and from 926 to 991 on Tuesdays.

In 2024, serious injuries decreased during all three-hour time periods except between the hours of 3pm-6pm. Serious injuries increased by 21 (1,518 to 1,539) during those hours. The largest decrease in serious injuries was 100 (924 to 824) between the hours of 9pm-midnight. Serious injuries decreased 11% from 2023 to 2024. Serious injuries decreased by 76 (1,205 to 1,129) between the hours of noon-3pm, a 6% decrease from 2023. Serious injuries between noon-midnight decreased by 190, between midnight-noon they decreased by 68.

Interstates I-95, I-64, and I-81 had the highest number of serious injuries in 2024 and 2023. In 2024, serious injuries on these interstates (and ramps) accounted for 11% of all serious injuries (10% in 2023). Serious injuries increased by 47 (+6%) on these three interstates and their ramps in 2024. I-64 serious injuries increased by 23 (+8%) from 275 to 298. I-81 serious injuries increased by 20 (+12%) from 167 to 187. I-77 serious injuries decreased by 16 (-67%) from 24 to 8. I-85 serious injuries decreased by 13 (-20%) from 65 to 52.

From 2023 to 2024, serious injuries from urban crashes decreased 9% (-405) while those in rural areas increased 5% (+147). In 2024, urban serious injuries accounted for 56% of all serious injuries (60% in 2023). Rural serious injuries increased to 44% in 2024 (40% in 2023).

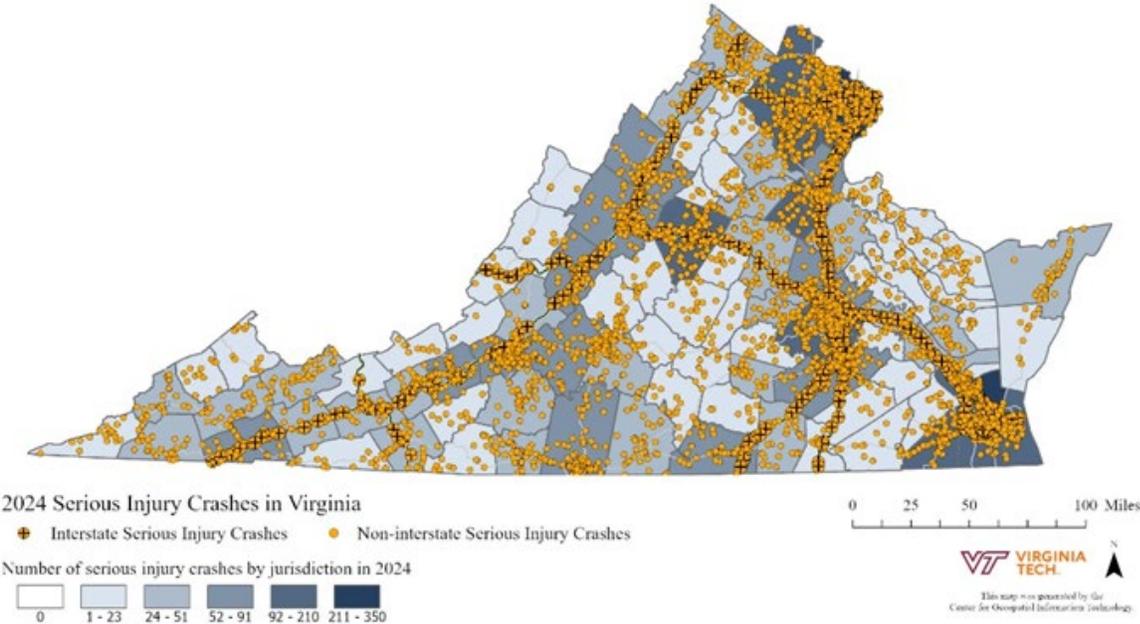

There was much variation in the number of serious injuries by jurisdiction from 2023 to 2024. Twenty-nine jurisdictions had a decrease in serious injuries of at least 10 in 2024. Spotsylvania County had the largest decrease of 58 (-29%) going from 201 to 143. The next largest decrease of 36 (-17%) was in Chesterfield County (215 to 179). The largest percent decrease (-65%) was in Martinsville City, serious injuries decreased from 17 to 6. Serious injuries in Page County decreased 55% (33 to 15). Serious injuries in Fairfax City decreased 52% (31 to 15). Fifteen jurisdictions had an increase of 10 or more serious injuries in 2024. Prince George County had the largest increase of

35 (+39%), going from 90 to 125. The next largest increase of 34 (+9%) was in Hampton City (368 to 402). The largest percentage increase (+138%) was in Middlesex County, serious injuries increased from 8 to 19. Serious injuries increased in Manassas City 111% (9 to 19). Serious injuries in Colonial Heights increased 94% (18 to 35).

Drinking drivers with serious injuries decreased in 2024. Serious injuries decreased by 79 from 635 to 556 (-12%). Eight percent of serious injuries were drunk drivers in 2024 (8% in 2023).

Speeding drivers with serious injuries decreased slightly in 2024. Serious injuries decreased by 52 from 1,465 to 1,413 (-4%). Twenty percent of serious injuries were speeding drivers in 2024 (20% in 2023).

Mature Driver serious injuries increased by 11% in 2024. Serious injuries increased by 73 (683 to 756). Ten percent of all serious injuries were mature drivers in 2024 (9% in 2023). Teen driver serious injuries decreased by 5% in 2024. Serious injuries decreased by 18 (395 to 377). Five percent of all serious injuries were teen drivers in 2024 (5% in 2023).

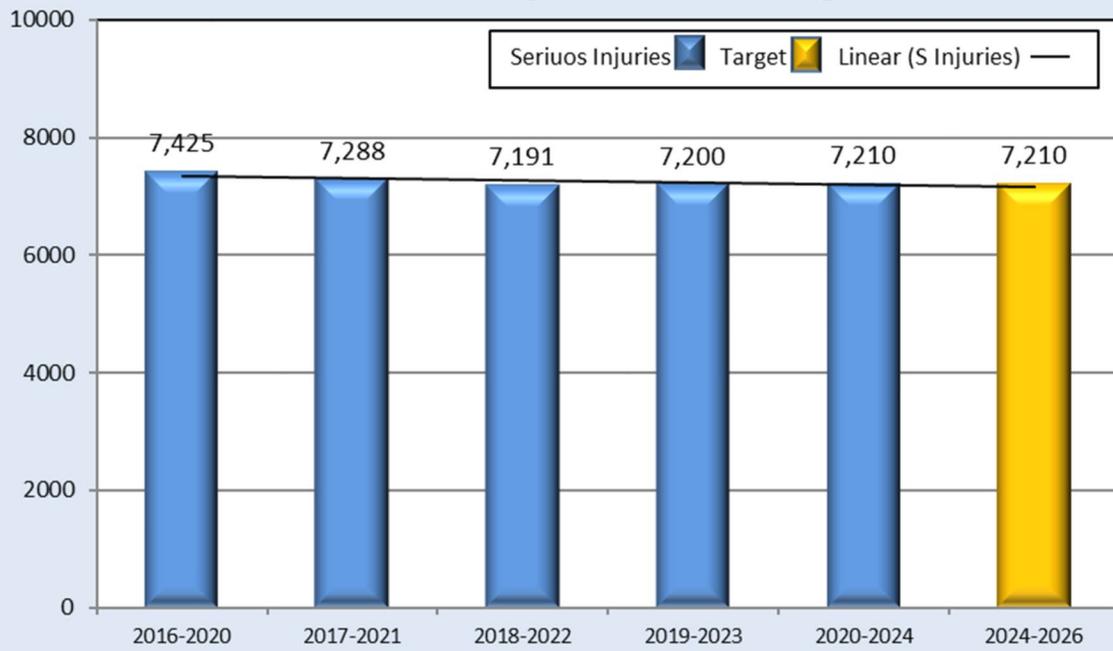

Measure C-2: Target for 5-year rolling average serious injuries as 7,210.0 by 2026.

Serious Injuries	Baseline Data					Targets 2026
	2016-2020	2017-2021	2018-2022	2019-2023	2020-2024	7,210.0
	7,425	7,288	7,191	7,200	7,210	

Serious injury data is from TRENDS.

Serious Injuries and Targets

Fatalities/VMT

The fatality rate per 100M VMT decreased from 1.09 in 2023 to 1.05 in 2024.

The fatality rates increased and decreased significantly for a number of jurisdictions. Rates are based on the number of VMT in millions specific to the jurisdiction.

Jurisdictions with large increases in the fatality rate per 100M	2021	2022	Jurisdictions with large decreases in the fatality rate per 100M	2021	2022
Franklin City	0	6.47	Hopewell City	7.23	0.76
Highland County	4	7.99	Lancaster County	5.21	0
Grayson County	2.44	5.33	Manassas Park City	4.76	0
Mathews County	2.9	5.63	Cumberland County	5.26	1.06
Craig County	0	2.62	King and Queen County	5.22	1.74
Patrick County	0.61	3.21	Richmond County	3.41	0
Page County	2.08	4.61	Greensville County	3.43	0.58
Williamsburg City	0	2.37	Essex County	3.7	1.28
Bath County	0	2.31	Smyth County	2.44	0.22
King William County	2.04	4.21	Russell County	3.32	1.12
Floyd County	0.68	2.54	Norton City	2.17	0
Nottoway County	1.62	3.46	Fluvanna County	2.14	0
Halifax County	1.62	3.14	Westmoreland County	3.68	1.7

The fatality rate per VMT is higher in rural areas than in urban areas. In 2022 the rate on rural roads was 1.69 and on urban roads .89.

- The rate on urban roads increased in 2022 from .81 in 2021. This was a 10% increase.
- The rate on rural roads decreased in 2022 from 1.82 in 2021. This was a decrease of 7%.

There were 73 jurisdictions with a rural fatality rate higher than 1. Thirty-four had a fatality rate higher than 2. Twelve had a fatality rate higher than 3. Six jurisdictions had a fatality rate higher than 4. Four had a fatality rate higher than 5.

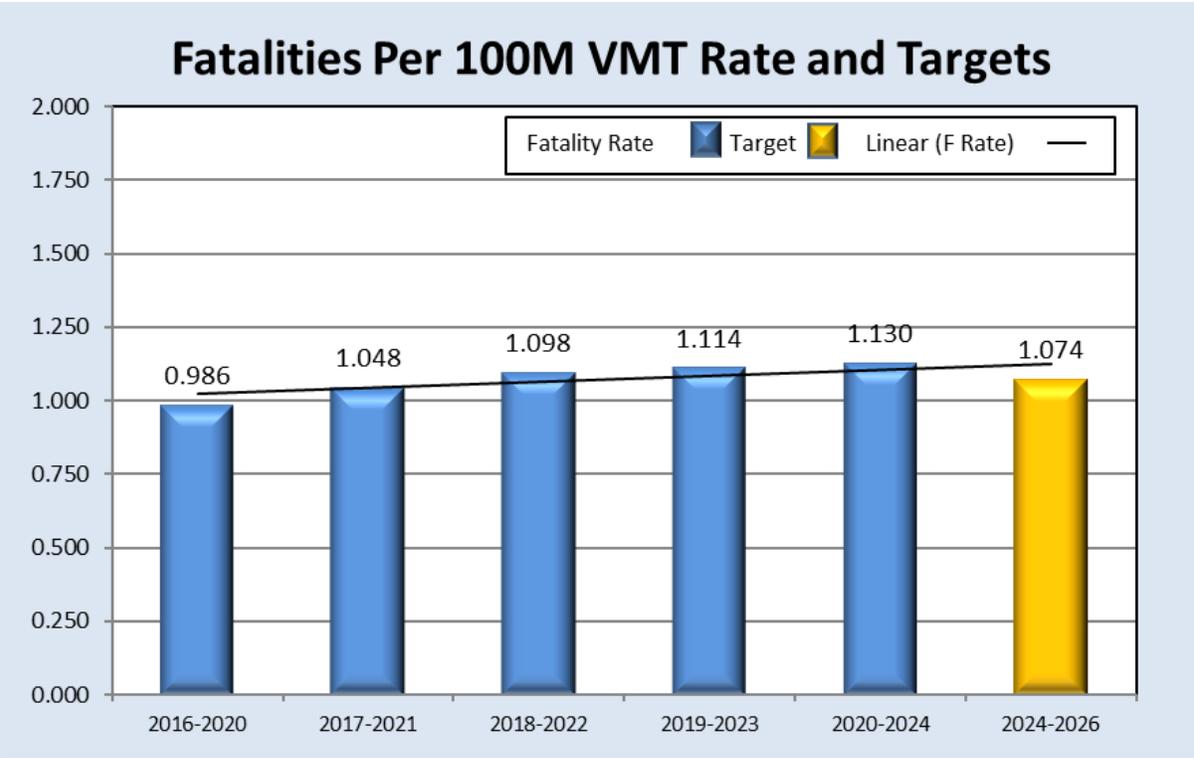

There were 36 jurisdictions with an urban fatality rate higher than 1. Ten had a fatality rate higher than 2. The highest was 13.27. Jurisdictions with the highest urban fatality rates were Southampton County (13.27), Franklin City (6.48), Henry County (3.05), and Pittsylvania County (2.81).

Jurisdictions with the highest rural fatality rates were Henrico County (26.13), Highland County (7.99), Matthews County (5.63), Grayson County (5.36), Charlotte County (4.09), and Page County (4.03).

Measure C-3a: Target for 5-year rolling average fatality rate as 1.074 by 2026.

Fatalities Per 100M VMT	Baseline Data					Targets 2026
	2016-2020	2017-2021	2018-2022	2019-2023	2020-2024	1.074
	0.986	1.048	1.098	1.114	1.130	

Note: 2024 VMT is estimated and 2024 is TREDIS data.

PART 1: OCCUPANT PROTECTION GRANTS (23 CFR 1300.21)

Department of Motor Vehicles (DMV) Virginia Highway Safety Office (VAHSO) Multi-Year Comprehensive Occupant Protection Program Plan

Program Overview

The Virginia Highway Safety Office (VAHSO) was a leading partner in the Strategic Highway Safety Plan (SHSP) update process that began in 2021 and culminated with the signing of the 2022-2026 Strategic Highway Safety Plan. The Occupant Protection Emphasis Area Group is a subcommittee of the overarching Committee that develops the SHSP. The important accomplishments of this group are critical to the integrated implementation of occupant protection initiatives and goals.

Utilizing a multi-disciplined approach, guidance from the Highway Safety Plan, the SHSP and the Occupant Protection statewide Taskforce Committee, the VAHSO develops this annual Occupant Protection Program Plan to formulate strategies to increase restraint use and decrease unrestrained fatalities, serious injuries and crashes in motor vehicles. This plan involves:

- Forming short-term strategies and goals
- Using an integrated approach
- Identifying and funding projects statewide and within local communities
- Working with law enforcement agencies, health agencies, non-profit groups and hospitals
- Using results and outcomes from prior and current year activities, projects will be evaluated and adjusted to address current issues with various countermeasures for FY24 and the future.

Seat Belt Surveys & Law Enforcement Campaigns

Observational surveys

FY2025 Plan

- We will conduct statewide observational surveys pre and post mobilization throughout the state and throughout the year.

FY2024 Summary:

- We conducted a statewide observational survey, following our statewide CIOT mobilization, held May 20 – June 2. The official statewide survey was conducted by Old Dominion Research Foundation.

- Results influenced an increased seat belt use rate among the highest unbelted population: 18–34-year-old males through continued education and encouraged enforcement in rural communities as well as high risk locations.

Virginia seat belt use rates:

2017	2018	2019	2020	2021	2022	2023	2024
85.3	84.1	85.4	85.4	81.7	75.6	73.2	81.1

Law Enforcement Campaigns

High Visibility Enforcement Activities

FY2025 Plan:

- We will implement a statewide, high visibility seat belt enforcement campaign with a supporting media campaign to educate the communities and the public on the importance of using safety belts and the consequences of not wearing safety belts. This campaign will support the NHTSA national mobilization.
- The enforcement mobilization will have particular emphasis on rural communities and high-risk locations for two weeks in *May 2025* and two weeks in *November 2024*. This will be supported by a media campaign.
- Results for the *November 2024* included:
 - 83 reporting agencies, 167 safety belt violations and 48 child restraint violations
- The enforcement mobilization will continue with a focus on the identified seat belt survey locations in *May/June 2025*.

FY2024 Summary:

All grant funded law enforcement agencies were required to participate in both high visibility campaigns with the following results:

- 16,269 overtime hours, 364 safety belt violations and 63 child restraint violations during *November 2023 campaign*
- 19,522 overtime hours, 1,422 safety belt violations and 324 child restraint violations during *May 2024 campaign*

Media coverage was included during these two-week high visibility enforcement campaigns.

Selective Enforcement Activities

FY2025 Plan:

- VAHSO aims to conduct a minimum of 100 selective enforcement activities focused on occupant protection by September 30, 2025. These activities will include community and public engagement.

FY2024 Summary:

- 94 OP-focused enforcement grants awarded
- Over 13,134 OP enforcement activities conducted
- 4,522 seat belt citations and 845 child passenger safety citations issued

Nighttime Enforcement Efforts

FY2025 Plan:

- VAHSO will continue combining seat belt enforcement with alcohol enforcement during nighttime hours. Grantees will be encouraged to allocate a percentage of their enforcement to these hours. There are 91 alcohol-related grants for FY2025.

FY2024 Summary:

- 87 alcohol-related grants
- 1,768 seat belt summonses issued during nighttime operations

Law Enforcement Training (TOPS)

FY2025 Plan:

- VAHSO continues to promote NHTSA's Traffic Occupant Protection Strategies (TOPS) training for law enforcement.
- NHTSA virtual TOPS training sessions are scheduled for May and July 2025
- Training was held at the *2025 Virginia Highway Safety Summit* held in Virginia Beach, June 18-21. Sessions included critical topics such as understanding the proper use of checkpoints, improving traffic safety for all users and a focused DUI/THC track.

FY2024 Summary:

- No in-person training was held due to scheduling delays; notifications were sent out regarding FY2025 sessions

Public Education & Outreach

Sustained Messaging Outside CIOT Campaigns

FY2025 Plan:

- VAHSO has completed both the November 2024 and May 2025 Click It or Ticket media campaigns.
- OP messaging will be included in the Local Heroes campaign for the July/August timeframe.
- A brand-new OP seat belt/social norming campaign will be released late FY2025 with a new concept developed by our media partner Two Tango. The campaign will raise awareness about the dangers of not wearing your seat belt and the increase in injury and fatalities it causes. It will also focus on our target audience in rural communities and rural roads.

FY2024 Summary:

- Continued educating the public of the importance of buckling up.
- Maintained media campaigns such as “Ding. Ding. Ding. Ding. – Buckle Your Seat Belt” and “Safe Driving is Something We Can All Live With – Buckle Up.”
- Delivered content through radio traffic sponsorships, streaming, location-based mobile video, Facebook, Instagram, and gas station TV with a total of 203.2 million impressions.
- Engaged partners like DRIVE SMART Virginia to amplify messaging across communities, workplaces, and schools.
 - DRIVE SMART Virginia had 285 orders for occupant protection materials and shipped 33,008 materials to 285 different locations across Virginia.
 - The toolkit webpage received 2,205 page users.
 - DSV added 74 new partners, listed under the Virginia Partners for Safe Driving
 - DRIVE SMART Virginia’s Facebook page had 44,943 likes, adding 5,078 followers since October 1 and has 15,455 Twitter followers.
- Used NHTSA PSAs such as “Headlines” during CIOT campaign periods

Community Stakeholder Engagement

FY2025 Plan:

- Communication sent to 140 community stakeholders including law enforcement, local jurisdictions, businesses, and highway safety partners, requesting assistance with outreach efforts in the counties and cities where the 2025 Seat Belt Survey will be conducted. We will request feedback to share the various initiatives that were conducted during the June-July 2025 timeframe.
- Continue hosting quarterly stakeholder meetings to present OP data, provide updates on child passenger safety and seat belt issues, and engage attendees through guest speakers and discussions.

FY2024 Summary:

- VAHSO held a community stakeholder meeting on April 16, 2024, to share information on seat belt surveys and collect feedback from law enforcement, nonprofits, and community groups. Ideas gathered were incorporated into outreach efforts and contributed to an increase in seat belt usage rates in the June 2024 survey.

Social Media & Partner Support

Key partners like DRIVE SMART Virginia, Drive Safe Hampton Roads, and Youth of Virginia Speak Out (YOVASO) amplify our outreach efforts.

FY2025 Plan

- DRIVE SMART Virginia will partner with VAHSO to identify the highest-risk locations and audiences for unrestrained fatalities. DSV will conduct paid social media campaigns, outreach

activities, and community and workplace messaging in identified locations and toward identified audiences (including males aged 18-35). DSV will also partner with enforcement agencies to deliver social norming, influencer outreach and messaging along with their Click It or Ticket efforts. To reduce unrestrained fatalities and increase low use rates, they will reach those drivers and occupants that are less likely to buckle up.

- Drive Safe Hampton Roads will update their Drive Safe website regularly with multiple-seat belt use messages and promote it in their community.
- YOVASO will reach the following on social media with safe driving messaging during the month of December with the Jingle Your Way to a Safe Holiday Jingle Contest. The contest period is anticipated to generate the following:
 - o Facebook: 50,000 reached
 - o Instagram: 2,500 reached
 - o Twitter: 15,000 impressions

FY2024 Summary

- Engaged over 350,000 people through social media and direct outreach
- Promoted youth-led initiatives and distributed targeted educational materials
- Focused efforts on workplaces and underserved communities

Child Passenger Safety Programs & Community Outreach

FY2025 Plan - CPS Outreach

In FY2025, Virginia will conduct at least 40 community/public engagement and outreach events and activities with Virginia's low-income population. Key areas most impacted as demonstrated by data analysis will be prioritized. These areas will be included in Virginia's Child Passenger Safety and Education Campaign, aiming to disseminate relevant information by September 30, 2024.

FY2024 Summary

Through partnerships with Carilion Health, the Virginia Department of Health (VDH), and Ballad Health, Virginia conducted 83 outreach events:

- Carilion Health contributed 13 car seat checks and two community education events in low-income neighborhoods.
- Ballad Health and VDH collectively participated in 70 outreach events, safety checkpoints, and other activities to support economically disadvantaged communities.
- Over 1,200 people reached through these events

CPS Technician Training & Certification

FY2025 Plan:

VAHSO will coordinate and/or assist with the following:

- Five NHTSA Standardized Child Passenger Safety Technician (CPST) Certification Courses
- Four CPST Refresher Courses
- One Renewal Course
- Two Special Needs CPST Courses

Training will be focused on high-need areas by September 30, 2025.

FY2024 Summary

- 12 CPST Certification Courses conducted
- 115 new technicians certified
- 6 CPST refresher courses with 20 participants
- 6 renewal courses with 20 renewals

Seat Check Stations and Low-Income Safety Seat Distribution and Education Program (LISSDEP)

Seat Check Station Coverage

FY2025 Plan

The Virginia Department of Health (VDH) has ongoing outreach to birthing hospitals, community non-profits and other entities, establishing partnerships with various seat check distribution sites. Existing distribution sites support the program’s expansion and reaching key areas most impacted as demonstrated by the data analysis.

- Continue to inspect 12,000 safety seats
- 7,000 seats will be inspected at permanent safety seat check stations
- Inspect 2,100 seats at 27 one-day check events
- 6 inspection stations planned with events held in high-risk population areas
- Completion date by September 30, 2025

FY2024 Summary

Continued work with VDH led to inspections at 65 safety seat check stations across the Commonwealth. To date, VDH inspected 3,934 safety seats and distributed 4,269 to low-income families through 129 distribution sites. Each distributed seat required a one-hour training session on correct use and installation. Approximately 5,800 parents/caregivers received CPS information in FY2024.

Child Passenger Safety Education efforts included:

- 43 organizations with Letters of Agreement to provide safety seat check services across 75 locations
- 3,934 seats checked through station operations
- 53 safety seat check events held with 233 seats inspected
- 33,927 educational materials distributed
- 1,506 CPS-related calls handled through VDH’s “1-800” line
- 12 technician certification classes producing 126 certified CPS technicians
- 6 refresher courses completed with 20 participants

Low Income Safety Seat Distribution and Education Program (LISSDEP)

LISSDEP is managed by the VDH. Income guidelines dictate eligibility for families to receive these seats. Parents/caregivers are required to attend a one-hour training session on basic installation and correct use of safety seats. The main funding source for the purchase of these seats comes from the fines paid through the tickets issued for child safety seat violations. VAHSO augments these funds to support training for the distribution sites and creation and maintenance of safety seat check stations statewide.

FY2025 Plan

In FY2025, we plan to continue to provide statewide access to child safety restraints through LISSDEP that will provide child safety restraints and community and public engagement to parents /guardians who are eligible, and key areas most impacted.

- Maintain 129 LISSDEP distribution sites through executed agreements
- Work to identify new partner sites if current coverage discontinues
- 4,441 seats distributed to income eligible families

FY2024 Summary

In FY2024, we continued to provide statewide access to child safety restraints through the Low-Income Safety Seat Distribution Program (LISSDEP) that provided child safety restraints and community and public engagement to parents /guardians who are eligible, and key areas most impacted.

- 129 LISSDEP distribution sites
- 4,269 safety seats distributed to indigent children

Workforce and Judicial Outreach Programs

FY2025 Plan

In FY2025, Virginia will provide education and community engagement to the workforce, 20% of its judicial organizations and 10 marginalized community organizations. This will be accomplished through presentations, event booths, email communications and social media outreach.

FY2024 Summary

In FY2024, judicial and workplace efforts included:

- DRIVE SMART Virginia (DSV) staff participated in 35 events, reaching over 60,000 people.
- DSV has a list of 279 partners that receive monthly newsletters. The newsletters focused on growing our grassroots efforts, asking partners to help spread campaign information, use our online toolkits and graphics and order free materials from our online store. Publications shared included 'Love Clicks' and 'If You Buckle Up.'
- Judicial engagement was supported by the Judicial Outreach Liaison (JOL), who published seat belt content in the *Roundabout Traffic* newsletter distributed to the entire judicial system.

Youth Engagement & Peer-to-Peer Programs

FY2025 Plan

In FY2025, VAHSO will continue implementing peer-to-peer youth engagement programs. These efforts aim to educate, change knowledge and beliefs of teen drivers and occupants, promote seat belt use, and increase awareness through Virginia's GDL program and traffic laws.

- YOVASO will provide free traffic safety education, training, campaigns, and outreach to middle and high school students and youth groups across Virginia to promote safe driving attitudes and behaviors among this high-risk age group. The reach is expected to be 50,000 students during the Spring/Summer campaign and 40,000 students during the Fall campaign.
- Drive Safe Hampton Roads (DSHR) will recruit high schools in the Hampton Roads area to participate in their Get It Together program. They plan to train liaisons to work with schools and perform baseline seat belt checks. Upon completion of the campaign, seat belt and campaign data are compiled to determine the winners. An awards breakfast will be held for students who conduct seat belt campaigns in their school.

FY2024 Summary

In FY2024, VAHSO supported various initiatives including the 'Local Heroes' campaign and youth-led outreach through key partners:

- The 'Local Heroes' media campaign, using Virginia scenery and local EMS responders, achieved 48.3 million impressions via cable, radio, social media, and streaming platforms.
- Cox Norfolk's Living 757 aired three interview segments featuring the campaign.
- YOVASO's 'Drive for Change, Buckle Up and Slow Down' campaign ran from September 11–November 30:
 - o 74 schools/youth groups participated
 - o Over 64,730 students reached
 - o Over 300 educational programs conducted
 - o 56,610 educational materials distributed
 - o 4.88% increase in seat belt use from pre- to post-campaign
- DSHR's Get It Together High School Challenge engaged 19 schools, with 162 activities reaching approximately 29,000 students. Pre-program belt use was 81.14%, and post-program increased to 88%.

In FY2024, we added new partners and projects to facilitate delivering our highway safety message through community and public engagement to reduce unrestrained fatalities, crashes and risky driving behaviors. They include the following:

- Arlington Soccer Association
- Christopher King Foundation
- Gweedo Memorial Foundation
- National Organizations for Youth Safety
- Norfolk State University Athletics

- Saving Prince William's Little Ones

In FY2024, VCU Health’s Project IMPACT strove to reduce and prevent unintentional injuries through a student-targeted injury and violence prevention program that provides education and awareness about the realities of trauma.

- A collaborative multidisciplinary team presented information about high- risk behaviors associated with trauma and describes their respective roles in trauma response. Students engaged in trauma simulations and mock scenarios. Local fire and EMS demonstrated vehicle extrication. Students participated in a panel discussion with a team of medical providers, law enforcement officers, and first responders.
- Throughout FY2024, Project IMPACT organized a total of 54 events, which reached 6,344 students.
- Project IMPACT reached 3,679 people through social media.
- During FY2024, Project IMPACT successfully reached out to underserved communities through a combination of fieldwork, school visits, presentations, and partnerships with DMV organizations including YOVASO and DSV. Additionally, they worked with community partners and high schools across the state, specifically targeting regions with significant needs.
- The Project IMPACT initiative involved conducting fieldwork to establish partnerships and provide programming information to middle school principals and school directors.

Local Heroes Participating Agencies

FY2025 Plan

- We will continue to utilize this statewide campaign going forward in FY2025.

FY2024 Summary:

VAHSO continued a statewide “Local Heroes” campaign to increase seat belt usage specifically in the counties and cities listed. The campaign used local scenery as the backdrop and highlighted local first responders to include EMS.

2019	2020	2021	2022	2023	2024

Partner Communications and Military Outreach

Partner Communications

FY2025 Plan

In FY2025, VAHSO will continue distributing 'Right Now' partner communications via email to over 300 grant recipients and other community partners. These updates include campaign data, educational resources, and tools to assist partners in spreading awareness and supporting occupant protection goals.

FY2024 Summary

FY2024 activities included regular updates on upcoming OP campaigns, messaging strategies, and promotional toolkits for law enforcement, non-profits, and community partners.

- Campaign Communications
 - o October 2023 – Operation Crash Reduction
 - o November 2023 – Click It or Ticket: 16,898,464 impressions
 - o May 2024 – Click It or Ticket/CIOT Press Conference: 37,868,224 impressions
 - o September 2024 – Child Passenger Safety Week
- Shared Resources and Toolkits:
 - o [DRIVE SMART Virginia Store](#)
 - o [NHTSA Traffic Safety Marketing: Child Safety](#)
 - o [Seat Belt Safety Materials | NHTSA](#)
 - o [Car Seat Finder Tool \(English & Spanish\) | NHTSA](#)

 - o Social JPEGs: [social | Powered by Box](#)

Military Outreach

FY2025 Plan

In FY2025, VAHSO plans to start outreach to military bases by developing relationships with the Safety Officers of the military bases in Virginia and by including Naval Air Station Oceana and Dam Neck Annex in email communications.

FY2024 Summary

- Presentations at NAS Oceana and Dam Neck were not held due to scheduling conflicts.

CIOT Participation and Local Agency Grants

Click It or Ticket Campaign Participation

FY2025 Plan

In FY2025, the Virginia Highway Safety Office (VAHSO) approved 267 selective enforcement grants to 177 law enforcement agencies. Of those, 156 grants had an occupant protection focus. All agencies receiving selective enforcement grants are required to participate in the Click It or Ticket (CIOT) campaign, regardless of focus area.

- Participation is monitored through:
 - o Reimbursement vouchers
 - o Progress monitoring reports
 - o Citation data reported in TREDIS
 - o Firsthand observation by Program Managers and Law Enforcement Liaisons

Agencies receiving other traffic safety funding (impaired driving, speed enforcement) are also encouraged to cite seat belt and child restraint violations during CIOT.

FY2024 Summary

In FY2024, the VAHSO approved 266 selective enforcement grants to 177 law enforcement agencies. Of those, 147 had an occupant protection focus.

Local Agency and VSP Project Grants

The 2025 Occupant Protection Focus includes local agency grants and Virginia State Police (VSP) projects. All projects combined aim to cover 100% of the state population.

- Population coverage is evaluated by:
 - o Total jurisdiction population per grant
 - o Cumulative coverage of grant-funded areas
 - o Cross-county VSP enforcement
- The goal is to maintain full state coverage for high-visibility enforcement and education through grant-funded efforts.

In FY2024, approximately 140 local law enforcement agencies and VSP participated in the CIOT mobilizations, covering over 90% of Virginia's population with law enforcement efforts. The percentage of coverage is based on the population of locations and the total population of the Commonwealth.

Selective Enforcement Projects with Population Coverage

VAHSO promotes a sustained seat belt enforcement effort through year-round funding of Occupant Protection Selective Enforcement grants to the agencies listed below. The localities receiving funds, combined with statewide efforts of the Virginia Department of State Police, cover 100 percent of the state’s population. As additional support, agencies receiving other types of selective enforcement, funding focused on impaired driving and speed are encouraged to write seat belt citations for any drivers they stop who are also in violation of the seat belt and/or child restraint laws.

** Population estimates come from the Centers for Disease Control and Prevention (CDC) National Center for Health Statistics (NCHS) 2022 single-race population estimates.

State's planned participation in the Click-it-or-Ticket national mobilization.

Click It or Ticket is a nationwide campaign designed to increase the use of seat belts through education, awareness, enforcement and the perception of increased likelihood of citation for non-use. One strategic goal is to reach 85 percent of Virginia's population through the Click It or Ticket mobilization either through saturation patrols or awareness.

On a local level, law enforcement agencies are encouraged to promote seat belt enforcement events such as regional mobilizations. Click It or Ticket campaign materials are available for educational and outreach efforts including news releases with statewide statistics, talking points and sample Public Service Announcements through partners like [DRIVE SMART Virginia](#). VAHSO distributes emails with links to several different sources for these materials to more than 400 law enforcement, non-profit, higher institutes of education, government agencies and other highway safety partners across the Commonwealth.

As a condition of the Statement of Work and Special Conditions in the grant agreement, agencies receiving selective enforcement grants for Occupant Protection, Alcohol Impaired Driving, Police Traffic Services and Speed Control must participate in the Click It or Ticket mobilizations in May and

November. Participation will be monitored through reimbursement vouchers and supporting documentation, quarterly progress monitoring reports, information reported through TREDIS and first-hand observation by regional Program Managers and Law Enforcement Liaison (LEL).

The VAHSO will maintain a practice of encouraging law enforcement agencies receiving funding in other areas, such as pedestrian and bicycle safety to conduct some of their overtime efforts to coincide with the Click It or Ticket mobilization, and to actively write those secondary citations for seat belt and child safety seat violations. Citations written for any violations during the mobilizations, including lack of seat belt use, will be entered into the Click It or Ticket database in TREDIS and are evidence of support for this campaign. To assist with educational highway safety messaging, the highway safety office requires agencies to post messages on agency social media platforms or agency websites per quarter.

Agreements

In Article 16, SUBRECIPIENT SEAT BELT USE of Virginia’s Grant Agreement, the Subrecipient agrees to adopt and enforce an on-the-job seat belt use policy requiring all employees to wear a seat belt when operating any vehicle owned, leased or rented by the Subrecipient, including police vehicles.

Crash Report Data Collection – Occupant Protection System Information Law Enforcement Training

VAHSO also provides training to law enforcement on how to collect crash report data (including occupant protection system information data fields) in an accurate, timely and complete manner. This electronic data collection through TREDIS is provided through one-on-one training to law enforcement statewide, as needed. VAHSO also produces and distributes through our TREDIS law enforcement webpage, various training manuals, knowledge articles and webpage updates. Also, law enforcement has access to online, interactive tools (dmv.virginia.gov) that allows them to visually map and perform their own data queries and analysis to demonstrate, down to the street level, where the unrestrained fatalities are occurring statewide, regionally, by jurisdictions and down to VSP area and local department.

Child restraint inspection stations

The VAHSO works with the Virginia Department of Health to ensure that there are an adequate number of inspection stations and clinics, which meet minimum quality criteria. The list of current inspection stations currently covers 56% of the population with in-person seat check options. 100% of the population has access to a seat check, via a remote seat check option. Families who drive more than an hour to a physical station are approved for a remote seat check.

The inspection stations/events are staffed with at least one current nationally Certified Child Passenger Safety Technician.

The Virginia Department of Health (VDH) has a signed annual agreement for each Safety Seat Check Station that participates in the program. The annual agreement requires agencies to have Nationally Certified Child Passenger Safety Technicians. The agencies are required to keep documentation of the agenda, course outlines and records of the technicians. Each agency is required to have at least one

nationally certified Child Passenger Safety Technician and supply a copy of all technicians with their identification information and certification numbers and expiration dates. VDH meets with staff at proposed site on an individual basis to determine if they will represent the program. VDH staff also completes site visits annually, reviews technician records, and promotes seat check events to ensure frequent use of skills.

As part of their grant project, the Virginia Department of Health (VDH) promotes child safety seat check events and assists program participants to develop partnerships to reach families. VDH also administers the Low-Income Safety Seat Distribution and Education Program, working with an array of government, nonprofit and healthcare partners in reducing barriers to access of a safety restraint. (CTW Chapter 3, 3-31)

The VAHSO partners with Children’s Hospital/Kings Daughters (CHKD) and Carilion Health System to provide child safety seat training for technicians to assist children with special needs. CHKD and Carilion also have a loaner/giveaway program to provide seats for children with special needs when families cannot afford them. The VAHSO will continue to partner with these and other groups to enhance programs and activities that increase the use of seats by children who outgrow infant or convertible child safety seats but are still too small to safely use seat belts.

**Virginia Department of Health
Safety Seat Check Station Program Sites (2025)
With Population by Covered Jurisdiction**

The Virginia Department of Health (VDH) has a signed annual agreement for each Safety Seat Check Station that participates in the program. The annual agreement requires agencies to have Nationally Certified Child Passenger Safety Technicians, or they must be certified internally using an approved agenda. The agencies are required to keep documentation of the agenda, course outlines and records of the technicians. Each agency requires at least one Nationally Certified Child Passenger Safety Technician and supply a copy of all technicians with their identification information and certification numbers and expiration dates. VDH meets with staff at proposed site on an individual basis to determine if they will represent the program. VDH staff also completes site visits, reviews technician records, and promote seat check events to ensure frequent use of skills.

Technical Assessment Recommendations

OP assessment

VAHSO continues to review recommendations from the NHTSA-facilitated assessment (Feb 27–Mar 3, 2023). A 2025 data-driven occupant protection strategy includes elements from assessment.

Key recommendations and actions taken:

1. Program Management:
 - Pursue a governor-issued Executive Order for a sanctioned Occupant Protection Task Force.
 - Develop a strategic OP plan aligned with SHSP and NHTSA guidelines.
 - Conduct in-depth crash data analysis for unrestrained fatalities and behavioral trends.
2. Legislation/Regulation & Policy:
 - Establish task force to support legislative strategy for strengthening seat belt laws.
 - Educate legislators using relevant data and testimony.
3. Law Enforcement:
 - Support law requires officers to always wear seat belts.
 - Provide annual recertification opportunities for CPS technicians at the Highway Safety Summit.

- Increase the number of Law Enforcement Liaisons.
4. Communication:
- Review discrepancies between behavioral surveys and marketing evaluations; findings confirm the two tools assess different aspects.
 - Message improvements underway based on audience targeting.

ACTION – *Comparative discussion completed between behavioral surveys and marketing evaluations to discover discrepancies. Findings were that the two surveys/evaluation measure two different things at a different scale or focus.*

ACTION – *Under Virginia law, effective July 1, 2025, drivers and all passengers—regardless of seating position—must wear safety belts. This includes the back seat.*

5. Occupant Protection for Children
- Evaluate whether the number of CPS technicians and inspection stations is sufficient to meet community needs. Identify the key areas most impacted and develop a plan to address these needs.
 - Explore strategies to increase communication between CPS technicians, instructors and proxies within Virginia:
 - Create sustainable mentoring among instructors and proxies. Mentors should be readily available to assist and guide as needed, until skills and effective communication have been established.
 - Recruit CPS technicians to become technician proxies who can review and approve seat checks for recertification, particularly in counties that do not have CPS instructors or proxies.
 - Share resources developed by partners and subrecipients to traffic safety advocates across the Commonwealth.

ACTION – *List of technicians/instructors provided to sub-recipient responsible for Fit Stations throughout the Commonwealth. Effort to be put forth to address the needs of localities that have technicians/instructors and no Fit Stations to provide services to those communities.*

ACTION – *Correspondence sent out to encourage any technician to make application to become a technician proxy. This will hopefully facilitate the recertification process. Child passenger safety resources have been included in OP highway safety messaging and correspondence. An instructor has initiated a “call group” for all technicians and instructors, prevention best practice.*

ACTION – *To address the decline in the number of statewide CPS instructors, VAHSO is working with the Virginia Department of Health to launch a CPS Instructor Network. The goal is to better engage and communicate with the current pool of statewide instructors and provide monetary rewards for instructors who participate in CPS related activities.*

ACTION – *Saving Prince William’s Littles, a partner of VAHSO, hosts regular CPS technician meetings to share experiences from seat checks, discuss certification maintenance, and provide ongoing opportunities for mentoring and networking.*

6. Outreach:

- Encouraged coalition-building with youth, media, researchers, and law enforcement.
- Promoted collaboration at events like the Highway Safety Summit.

ACTION – *Everyone is invited to attend and participate in quarterly stakeholder meetings.*

7. Data & Evaluation:

- Plans to develop child age groups in TRENDS for restraint analysis.
- Track child restraint use in fatal crashes and assesses emergency medical/hospital data when available.
- Use the Core Survey for project planning and public opinion insights.

Occupant Protection Technical Assistance - June 2021-April 2022

The OP Technical Assistance project assisted in the implementation of two assessment recommendations, both outreach/education to include:

1. Develop and implement a minority outreach program using relevant Virginia-based minority organizations.
2. Develop relationships with the Safety Officers of the military bases in Virginia.

Minority Outreach - Allow the Virginia Highway Safety Office to expand potential earned media opportunities through minority media outlets and assist the Virginia Highway Safety Office with messaging to minority communities. Our goal and desired outcomes are to reduce injury and fatalities amongst the minority community, increase seat belt use and to have messaging that reaches key populations most impacted as demonstrated by the data analysis. Our state and non-profit subrecipients have been working to include messaging that will reach all communities with the highway safety message in effort to change behavior. Our law enforcement agencies have played an important role over the last year in putting out more highway safety messages to reach their communities. The law enforcement agencies having been utilizing social media platforms, websites, and business partners to help educate the community on buckling up as well as other highway safety priority areas.

Military Bases - Encourage base participation in traffic safety programs for the safety of their personnel, particularly for those who are returning from overseas deployment, and those who are arriving in Virginia to begin their deployment on one of the 27 Commonwealth's bases. Our goal and desired outcome are to reduce injury and fatalities amongst the military community, increase seat belt use and to work directly with the military bases to provide resources in the area of highway safety. State nonprofit agencies would play a key role in supporting this recommendation. The support of the military installations would also be key in implementing this recommendation. Law enforcement would also play a role in supporting this effort. The number of military installations that agree to support and be engaged with the program will be a key measurement of success.

Countermeasure Strategies

1. Countermeasure Strategy - Seat Belt and Child Restraints (2023 CTW Chapter 3 Other Strategies for Behavior Change- Enforcement-based Communication Strategies for Low-Belt-Use Groups; Programs for Increasing Child Restraint and Booster Seat Use)

High Risk Population – Low Income

Occupant Protection for Children outreach education not only assures that children are safe but also educates and reinforces the seat belt message for adults.

- Conduct at least 50 outreach events and activities with Virginia’s low-income population with information through Virginia’s Child Passenger Safety and Education Campaign by the end of each federal fiscal year.
- Provide statewide access to child safety restraints through the Low-Income Safety Seat Distribution Program that will provide child safety restraints to parents /guardians who are eligible.
- In addition to programmatic focus in occupant protection for children, the VAHSO targets two groups that are at high risk for unrestrained injury or fatality: unrestrained rural drivers and teenage drivers.

Rural Population Areas

- Virginia’s annual seat belt observational survey’s methodology has recently been updated which included 13 counties and 2 urban aggregates selected for the seat belt survey. These locations were randomly selected from the counties that produced 85% of Virginia’s roadway fatalities. Seat belt surveys will be conducted in these new locations to indicate seat belt use rates.
- Unrestrained occupants in rural areas are often at higher risk for crashes due to roads that are more difficult to navigate (due to curves and hills, fewer edge lines) as well as less forgiving when vehicles depart the lanes and/or roadway (i.e., drop offs, lack of shoulders/recovery area, trees close to roadways, etc.) Crashes are likely to be more severe without proper restraint. As illustrated below, rural fatalities are more than half of total unrestrained fatalities.

Statewide Unrestrained Fatalities by Urban and Rural Locations			
	2022	2023	2024
Rural	225	201	216
Urban	150	134	106
Total	375	335	322

2. Countermeasure Strategy - Seat Belt and Child Restraints (2023 CTW Chapter 3 Other Strategies for Behavior Change- Enforcement-based Communication Strategies for Low-Belt-Use Groups; Programs for Increasing Child Restraint and Booster Seat Use)

Occupant Protection for Children Training Program

Coordinate and/or assist with five NHTSA Standardized Child Passenger Safety Certification Courses, four Child Passenger Technician Refresher Courses, one Renewal Course and one Child Passenger Safety Special Needs Certification Courses.

- Training and Certification
 - Virginia will continue to use the National Highway Traffic Safety Administration National Child Passenger Safety Certification Training Program for certifying Child Safety Seat Technicians and providing refresher training.
 - To assure that adequate and accurate training is provided to the professionals who deliver and enforce the occupant protection programs for parents and caregivers, and to ensure that the capability exists to train and retain nationally certified child passenger safety technicians to address attrition of trainers or changing public demographics, the VAHSO will continue to fund a state Occupant Protection for Children (OPC) coordinator who, with VAHSO staff, identifies where training is needed. This coordinator is assigned tasks related to developing new technicians and instructors, providing training for special needs children, and updating/refreshing training for those currently certified.
- The tasks for this project include:
 1. NHTSA Standardized Child Passenger Safety Certification Course: Coordinate/assist at least five training across the Commonwealth location to be determined based on the greatest need.
 2. Child Passenger Technician Refresher Courses: Coordinate at least four training across the Commonwealth location to be determined based on the greatest need.
 3. NHTSA Renewal Course: Coordinate at least one training across the Commonwealth locations to be determined based on the greatest need.
 4. Child Passenger Safety Special Needs Certification Course: Coordinate two training in the Commonwealth location to be determined based on the greatest need.
 5. VA/NHTSA Instructor Association: Will revisit the coordination of at least one meeting. Meetings help ensure there is coordination of effort for statewide coverage of child passenger safety training and expertise to develop strategies to increase the rate of technician recertification and to maintain a registry of all training offered. Feedback has indicated that travel is a barrier for the 40+ statewide instructors to attend, so we plan to change the delivery method of these meetings to a web format with video.
 6. Chair the Virginia Occupant Protection for Children Task Force in conjunction with the Occupant Protection Task Force: facilitate at least four meetings to ensure a coordination of effort among statewide child passenger safety activities.
 7. As part of this effort, VAHSO will coordinate and/or assist with conducting at least 5 trainings across the Commonwealth.

- To establish the infrastructure to systematically coordinate the array of child occupant protection program components, the OPC coordinator will conduct meetings of the OPC Committee, which includes individuals from the Virginia State Police, the Virginia Department of Health, Safe Kids, additional key partners and local law enforcement agencies. This committee assists in addressing concerns about training and retaining technicians, attrition of trainers and outreach to key populations impacted as demonstrated by the data analysis.
- The OPC Coordinator and members of this committee maintain strong ties to law enforcement to encourage vigorous enforcement of the child occupant protection laws.

Estimated total number of classes-At a minimum, the VAHSO will conduct/assist 5 Technician Certification classes, 4 Refresher classes, 2 Renewal classes and 2 Special Needs classes. Instructor availability will determine course instruction.

Estimated number of technicians- As of April 1, 2025, there are 790 technicians and 44 instructors in the commonwealth.

Maintenance of effort

ASSURANCE: The lead State agency responsible for occupant protection programs shall maintain its aggregate expenditures for occupant protection programs at or above the level of such expenditures in fiscal year 2025 and 2026.

3. Countermeasure Strategy – Enforcement (2023 CTW Chapter 3- Enforcement)

High Visibility Enforcement/Sustained Enforcement

(2023 CTW Chapter 3- Short-Term, High-Visibility Seat Belt Law Enforcement; Sustained Seat Belt Enforcement; Enforcement-based Communication Strategies for Low-Belt-Use Groups)

- Conduct statewide observational survey pre and post mobilization throughout the state and throughout the year.
- Conduct a minimum of 100 occupant protection selective enforcement activities.
- Click It or Ticket
- Implement a statewide, high visibility seat belt enforcement campaign with a supporting media campaign to educate the public on the importance of using safety belts. This campaign will support the NHTSA national mobilization. The enforcement mobilization will have particular emphasis on high-risk locations for two weeks in May of federal fiscal year and two weeks in November in the federal fiscal year.
- Short term, high visibility seat belt law enforcement. (2023 CTW Chapter 3- Short-Term, High-Visibility Seat Belt Law Enforcement)
- Combined seat belt and alcohol enforcement, nighttime (2023 CTW Chapter 3- Nighttime, High-Visibility Seat Belt Law Enforcement)
- All LE OT grants include a requirement to participate in LE activities (saturation patrols and/or checkpoints during the Click It or Ticket mobilizations).

- Sustained enforcement (2023 CTW Chapter 3 – Enforcement- Sustained Seat Belt Enforcement)
- Cover at least 85 percent of Virginia's population with law enforcement participating in the Click It or Ticket Campaign by July in each federal fiscal year.
- Conduct one, one-day law enforcement Traffic Occupant Protection Strategies (TOPS).

Planned Activity

Law enforcement agencies perform selective enforcement occupant protection campaigns in Virginia during Click It or Ticket and additional mini campaigns that are designated for Sustained Seat Belt Enforcement.

4. Countermeasure Strategy – High risk population (2023 CTW Chapter 3- Other Strategies for Behavior Change- Enforcement-based Communication Strategies for Low-Belt-Use Groups)

High-Risk Population and Teenage Drivers

DMV and non-profit OP public education and teen driver awareness efforts through social media, the workplace and other events. Programs that address OP include statewide traffic enforcement, enforcement training, two Click It or Ticket mobilizations, child passenger safety education and programs, and public information campaigns.

- Specific examples include:
 1. DRIVE SMART Virginia’s OP public education and awareness campaigns through social media, the workplace and sporting events.
 2. Drive Safe Hampton Roads’ Get It Together Challenge in approximately 25 area high schools.
 3. Old Dominion University - “Car Safety Now” – a program of the Community Health and Research (CHR) Division, Department of Pediatrics, Macon & Joan Brock Virginia Health Sciences.
 4. Virginia Department of Health’s Low Income Safety Seat Education and Distribution Program
 5. Youth of Virginia Speaking Out (YOVASO)- Buckle Up and Slow Down and Arrive Alive
- Communication strategies supporting enforcement (2023 CTW Chapter 3 – Other Strategies for Behavior Change- Enforcement-based Communication Strategies for Low-Belt-Use Groups)
 - o Paid media outreach is implemented during both CIOT campaigns, with a focus on media buys in the rural, lower belt use areas. In addition, social media and earned media stress the importance of seat belt use both during the CIOT campaigns as well as throughout the year. Paid media and social media is placed outside of the Click It or Ticket campaign to provide a sustained seat belt message.
- Communication strategies for low-belt-use groups (2023 CTW Chapter 3 – Other Strategies for Behavior Change- Enforcement-based Communication Strategies for Low-Belt-Use Groups; Programs for Older Children; Child Restraint Inspection Stations)

- o Media used (NHTSA ads) are aimed at the 18-35 male population, including pick up drivers common in rural areas.
- School programs
 - o Peer to peer middle and high school efforts focus on belt use and many chapters are in rural counties. (YOVASO grant)
 - o Provide statewide access to child safety restraints through the Low-Income Safety Seat Distribution Program that will provide child safety restraints to parents /guardians who are eligible.

5. Additional Countermeasure Strategies for Behavior Changes

DRIVE SMART Virginia Community & Workplace Outreach: Focuses on reaching community and workplaces in high risk and underserved communities and specifically identified audiences as needed, partnering with workplaces, expanding on our growing relationship with the military and dedicating more staff time to developing more significant relationships with community partners. Will speak or exhibit at a minimum of 32 trainings, conferences, workplaces, community, or sporting events throughout the year. Examples include health fairs, conferences, safety meetings, etc. (2023 CTW Chapter 3 – Other Strategies for Behavior Change- Employer-based Programs) Old Dominion University Research Foundation (ODURF) Car Safety Now maintains their website (carsafetynow.org), keeps an active social media presence and uses paid advertising to promote our educational messages directly to parents and teens via targeted advertising campaigns, such as online, social media, and over-the-top streaming. (2023 CTW Chapter 3 – Other Strategies for Behavior Change- Programs for Older Children) In response to the risks experienced by children and teens in motor vehicles, this project will focus on educational outreach and risk communication efforts to increase child and teen occupant protection. This year, one of our main goals is to develop, produce, and release a set of brief educational videos (in two lengths and two languages) promoting extended rear-facing car seat use.

Virginia Seat Belt Law - Code of Virginia

Effective July 1, 2025, Virginia law requires all occupants of motor vehicles to be restrained by a seat belt, regardless of where they are seated in the vehicle.

1. That § [46.2-1094](#) of the Code of Virginia is amended and reenacted as follows:

§ [46.2-1094](#). Occupants of front seats of motor vehicles required to use safety lap belts and shoulder harnesses; penalty.

A. Any driver, and any other person at least 18 years of age and occupying ~~the front~~ a seat, of a motor vehicle equipped or required by the provisions of this title to be equipped with a safety belt system, consisting of lap belts, shoulder harnesses, combinations thereof or similar devices, shall wear the appropriate safety belt system at all times while the motor vehicle is in motion on any public highway. A passenger under the age of 18 years, however, shall be protected as required by the provisions of Article 13 (§ [46.2-1095](#) et seq.) of this chapter.

B. This section shall not apply to:

1. Any person for whom a licensed physician determines that the use of such safety belt system would be impractical by reason of such person's physical condition or other medical reason, provided the person so exempted carries on his person or in the vehicle a signed written statement of the physician identifying the exempted person and stating the grounds for the exemption; or
2. Any law-enforcement officer transporting persons in custody or traveling in circumstances which render the wearing of such safety belt system impractical; or
3. Any person while driving a motor vehicle and performing the duties of a rural mail carrier for the United States Postal Service; or
4. Any person driving a motor vehicle and performing the duties of a rural newspaper route carrier, newspaper bundle hauler or newspaper rack carrier; or
5. Drivers of and passengers in taxicabs; or
6. Personnel of commercial or municipal vehicles while actually engaged in the collection or delivery of goods or services, including but not limited to solid waste, where such collection or delivery requires the personnel to exit and enter the cab of the vehicle with such frequency and regularity so as to render the use of safety belt systems impractical and the safety benefits derived therefrom insignificant. Such personnel shall resume the use of safety belt systems when actual collection or delivery has ceased or when the vehicle is in transit to or from a point of final disposition or disposal, including but not limited to solid waste facilities, terminals, or other location where the vehicle may be principally garaged; or
7. Any person driving a motor vehicle and performing the duties of a utility meter reader; or
8. Law-enforcement agency personnel driving motor vehicles to enforce laws governing motor vehicle parking.

C. Any person who violates this section shall be subject to a civil penalty of twenty-five dollars to be paid into the state treasury and credited to the Literary Fund. No assignment of demerit points shall be

made under Article 19 of Chapter 3 (§ [46.2-489](#) et seq.) of this title and no court costs shall be assessed for violations of this section.

D. A violation of this section shall not constitute negligence, be considered in mitigation of damages of whatever nature, be admissible in evidence or be the subject of comment by counsel in any action for the recovery of damages arising out of the operation, ownership, or maintenance of a motor vehicle, nor shall anything in this section change any existing law, rule, or procedure pertaining to any such civil action.

E. A violation of this section may be charged on the uniform traffic summons form.

F. No law-enforcement officer shall stop a motor vehicle for a violation of this section. No evidence discovered or obtained as the result of a stop in violation of this subsection, including evidence discovered or obtained with the operator's consent, shall be admissible in any trial, hearing, or other proceeding.

G. The governing body of the City of Lynchburg may adopt an ordinance not inconsistent with the provisions of this section, requiring the use of safety belt systems. The penalty for violating any such ordinance shall not exceed a fine or civil penalty of twenty-five dollars.

1987, c. 538, § 46.1-309.2; 1988, cc. 326, 344; 1989, c. 727; 1993, c. 591; 1997, c. 793; 2007, c. 813; 2010, c. 661; 2020, Sp. Sess. I, cc. 45, 51.

[§ 46.2-1095](#). Child restraint devices required when transporting certain children; safety belts for passengers less than 18 years old required.

A. Any person who drives on the highways of Virginia any motor vehicle manufactured after January 1, 1968, shall ensure that any child, up to age eight, whom he transports therein is provided with and properly secured in a child restraint device of a type which meets the standards adopted by the United States Department of Transportation. Such child restraint device shall not be forward-facing until at least (i) the child reaches two years of age or (ii) the child reaches the minimum weight limit for a forward-facing child restraint device as prescribed by the manufacturer of the device. Further, child restraint devices shall be placed in the back seat of a vehicle. In the event the vehicle does not have a back seat, the child restraint device may be placed in the front passenger seat only if the vehicle is either not equipped with a passenger side airbag or the passenger side airbag has been deactivated.

B. Any person transporting another person less than 18 years old, except for those required pursuant to subsection A to be secured in a child restraint device, shall ensure that such person is provided with and properly secured by an appropriate safety belt system when driving on the highways of Virginia in any motor vehicle manufactured after January 1, 1968, equipped or required by the provisions of this title to be equipped with a safety belt system, consisting of lap belts, shoulder harnesses, combinations thereof or similar devices.

C. A violation of this section shall not constitute negligence, be considered in mitigation of damages of whatever nature, be admissible in evidence or be the subject of comment by counsel in any action for the recovery of damages in a civil action.

D. A violation of this section may be charged on the uniform traffic summons form.

E. Nothing in this section shall apply to any person operating taxicabs, school buses, executive sedans, or limousines. The provisions of (i) subsection B shall not apply to any person operating an emergency medical services agency vehicle, fire company vehicle, fire department vehicle, or law-enforcement agency vehicle while in the performance of his official duties and (ii) subsection A shall not apply to any person operating any such vehicle in the performance of his official duties, under exigent circumstances, provided that no child restraint device is readily available.

Performance Report (2020-2024) Trend Data

To address this issue the following countermeasures and strategies have been implemented:

Outcome Measures	2020	2021	2022	2023	2024*	2025 Target
Fatalities	850	973	1,006	913	918	913.8
Serious Injuries	6,798	7,397	7,137	7,488	7,230	7,200
Fatalities/100M VMT	1.12	1.21	1.23	1.04	1.05	1.048
Rural Fatalities (per 100M VMT)	1.67	1.75	1.75	1.76	1.71	1.56
Urban Fatalities (per 100M VMT)	0.82	0.89	0.93	0.71	0.69	0.84
Unrestrained Passenger Vehicle Occupant Fatalities	340	336	372	337	322	325
Alcohol Impaired Driving Fatalities (BAC=0.08+)	282	284	289	261	318	245
Speed-Related Fatalities	257	337	299	321	410	272
Motorcycle Fatalities	101	114	118	130	117	102
Unhelmeted Motorcycle Fatalities	7	11	10	3	6	0
Drivers Aged 20 or Younger Involved in Fatal Crashes	86	110	110	104	107	96
Pedestrian Fatalities	111	123	171	129	126	160
Bicycle Fatalities	7	16	11	15	25	7
Behavior Measure						
Observed Seat Belt Use	85.4	81.7	75.6	73.2	81.1	82.6

Grant Activity Measures tracked but no goals set (project reports)						
Seat Belt Citations Issued	6,671	6,106	5,590	5,163	5,367	
Impaired Driving Arrests	1,571	1,230	1,111	1,114	1,011	
Speed Citations Issued	48,416	55,002	43,350	48,646	46,544	

FY2026 Planned Activities

VAHSO will implement the following planned activities in FY2026 to support its Occupant Protection (OP) plan. All efforts align with NHTSA’s Countermeasures That Work, the 2022–2026 Strategic Highway Safety Plan (SHSP), and recommendations from the 2023 NHTSA OP Program Assessment.

A. Enforcement

- Conduct at least 100 selective enforcement activities focused on occupant protection, including community engagement, by September 30, 2026.
- Implement two high-visibility enforcement mobilizations:
 - o November 2025 Click It or Ticket
 - o May 2026 Click It or Ticket
- Require participation from all funded law enforcement agencies, covering at least 95% of Virginia’s population.
- Encourage and track nighttime seat belt enforcement in conjunction with impaired driving and speed enforcement.

B. Surveys & Data

- Conduct annual ODURF Seat Belt Survey during June-July 2026
- Conduct pre- and post-mobilization observational surveys by June 2026, aiming for measurable increases in seat belt use rates.
- Continue to support self-reported surveys by law enforcement during CIOT.
- Expand use of TREDIS to identify high-risk local jurisdictions and counties.

C. Law Enforcement Training

- Continue to encourage LE agencies to participate in Traffic Occupant Protection Strategies (TOPS) training. Work with Virginia Department of Criminal Justice Services (DCJS) to incorporate TOPS as part of the LE Continuing Education courses.

D. Child Passenger Safety

- Host or support at least:
 - o 5 CPS Technician Certification Courses
 - o 4 Refresher Courses

- o 1 Renewal Course
- o 2 Special Needs Certification Courses
- Increase number of CPS technicians
 - o VAHSO will maintain or increase the number of certified child passenger safety technicians by 5%
 - o Ballard Health will continue to increase the number of Child Passenger Safety Technicians (CPSTs) serving rural Southwest Virginia by certifying 25 new CPSTs
- VDH will inspect at least 11,000 child safety seats, including:
 - o 7,000 through inspection stations
 - o 4,123 through one-day events
 - o Hold 6 events/stations in high-need, at-risk areas
- Ballard Health will improve community child passenger safety outreach by offering at least 12 car seat checkpoints across the 11-county service area
- Distribute 4,885 safety seats through LISSDEP, serving eligible families in underserved communities.
- Conduct at least 40 outreach and education events in low-income areas.
- Continue providing patients/families of Carilion Health car seat education and assistance
 - o Increase number by 33% from 1,500 to 2,000.

E. Media Outreach & Education

- Continue “Right Now” email distributions to partners, sharing data, educational materials and resources tied to national and local campaigns.
- Continue sustained media campaigns, including “Ding. Ding.” outside of enforcement periods.
- A brand-new OP seat belt/social norming campaign will be released late FY2025 and continue in FY2026. The creative will be developed by VAHSO’s media partner Two Tango. The campaign will raise awareness about the dangers of not wearing a seat belt and the increase in injury and fatalities it causes. It will also focus on our target audience (males 20-35) in rural communities and rural roads.
- Develop new OP outreach efforts from DRIVE SMART Virginia
 - o Educate Virginians through social media with a minimum of one million occupant protection impressions across all DSV accounts
 - o Use regional and local influencers to reach high risk drivers with seat belt messaging and education. Use up to 10 Micro Influencers to gain 40 - 60 social shares and a minimum of 400,000 impressions.
 - o Develop and administer normative surveys related to seat belt use among Virginia males aged 18-34 with a minimum of 500 respondents

F. Youth & Teen Initiatives

- Expand youth-focused and peer-to-peer education programs
 - o DHSR will increase seat belt use among area high school students by 5%

- o YOVASO will sponsor 3 educational, student-led youth traffic safety campaigns by June 15, 2026, reaching over 65,000 youth, including Fall Drive for Change Campaign, Winter Holiday Jingle Contest, and Spring Arrive Alive Campaign
- Support Project IMPACT and similar trauma-awareness programs targeting middle and high school students.
 - o Increase the number of high school partners participating by 9%
 - o Increase occupant restraint use by 5%

G. Military & Special Population Outreach

- Re-engage military bases through “Right Now” partner email communications
- Provide tailored CPS and OP resources to areas with high military and at-risk populations

PART 2: STATE TRAFFIC SAFETY INFORMATION SYSTEM IMPROVEMENTS GRANTS (23 CFR 11300.22)

Projects for FY2024-2025 with Quantifiable Evidence Prevent VA Tech from Duplicating Relocation of Crashes

System to be Impacted	X CRASH
Performance Area(s) to be Impacted	X ACCURACY
Performance Measure used to track Improvement(s)	Narrative Description of the Measure Improve accuracy of sending crash records to VT for location data.

Comprehensive Multi-Year Impaired Driving Strategic Plan

Program Management and Data Driven Strategic Planning

The Virginia Highway Safety Office (VAHSO) develops and implements effective data-driven traffic safety projects aimed to reduce alcohol-impaired/drugged impaired driving traffic fatalities and serious injuries. The evidence-based data is utilized to identify geographical locations where impaired/drugged driving is most prevalent, recidivism with DUI offenders, and youth alcohol/drugged crash incidents to assist in the allocation facilitating the use of funds statewide.

The Virginia Impaired Driving Program Manager's role is to develop and implement strategies and procedures and oversee VAHSO's traffic safety projects for impaired driving.

Data from the Traffic Records Electronic Data Collection System (TREDS - crash), the Fatality Analysis Reporting System (FARS), Citizen Services System (CSS – driver, vehicle and conviction data) as well as external datasets such as demographic data and Census data is analyzed, monitored and evaluated for program development and evaluation. Data reports are monitored on a weekly, monthly and annual basis to not only address the current environment, but to also plan for future opportunities for program implementation.

Partnerships: The Impaired Driving Program Manager collaborates with non-profits, higher education, state agencies, local law enforcement entities, and the judicial system focusing on impaired driving statewide. VAHSO collaborates with the Virginia Department of Transportation (VDOT) on the development and monitoring of the Strategic Highway Safety Plan (SHSP) focusing on eight key behavioral emphasis areas: **alcohol-impaired driving**, occupant protection, young drivers, speed, roadway departures, intersections, bicyclists, and pedestrian.

Purpose of Funds: Sections 405, 402 and 154-transfer funds have been utilized for progressive improvements in detection, prevention, enforcement, and treatment for impaired drivers.

Virginia Stakeholder Committee Strategies:

The strategies listed below are the result of the important work of the Virginia Impaired Driving Stakeholders Committee. These meetings are led by the VAHSO Impaired Driving Program Manager. Meetings are held four times a year, driven by collaborative discussion and decision-making regarding impaired driving initiatives, data analysis, and sharing projects that help to construct and implement effective strategies to prevent impaired driving.

- High visibility enforcement campaigns that coincide with strong communication campaigns including owned media, paid media, and earned media.
- DUI Task Force is designated in one of the counties with the highest alcohol-related fatalities.
- Specialized law enforcement training to address alcohol and/or drug related impaired driving.
- Peer-to-peer education in academic institutions in which include high schools and colleges/universities.
- Collaborating with state agencies such as VASAP to support on-going assessment and treatment programs for those convicted of DUI or DWI.

- Supporting and implementing best practices for judicial entities including specialized training, continued support of Judicial Outreach Liaison and a Traffic Safety Resource Prosecutor for the State.
- Education on current and new laws pertaining to impaired driving such as the Zero Tolerance law, .08 BAC legal limit, DUI, DUID, and DWI.
- Continue to support and offer specialized courses for the DWI court staff members.
- Continue to support transportation alternatives such as public transportation, Sober Ride programs, rideshares and encourage “plan ahead” by having designated driver.

Virginia’s Impaired Driving Stakeholder Committee plans, implements and evaluates impaired driving strategies through collaborative discussions regarding current and new traffic safety initiatives, data analysis, and sharing successful projects implemented. The Committee ensures that the countermeasure strategies, performance measures and safety initiatives are data driven and directly addresses the impaired driving crashes, fatalities and serious injuries within the Commonwealth.

Chair: Katharine Beachboard, Impaired Driving Program Manager

FY25 Project Descriptions:

The following data driven FY2025 Prevention Strategies seek to reduce the incidence of impaired driving on Virginia’s roadways.

Prevention – Alcohol Service

Virginia Department of Alcohol & Beverage Control Authority		Project number		ENF AL-2025-55146-25146	
<i>Project Name & Description</i>	<p align="center">ABC Underage Buyer Compliance Check</p> <p>This project is designed to deter use, purchase, possession, and sale of alcohol to youth under 21 by stopping ABC licensees from selling to underage individuals.</p>				
<i>Countermeasure Strategy</i>	<ul style="list-style-type: none"> Alcohol Vendor Compliance Checks 				
<i>Objectives</i>	<ul style="list-style-type: none"> Track the attempted purchases made by an underage buyer and the number of actual sales made. Decrease the number of illegal sales made to UAB youth by 3%. 				
<i>Organization Type</i>	State Agency				
<i>Funding Information</i>	Source	Amount		Coverage	
	BIL – 154-Transfer	\$350,350.00		Statewide	
<i>Eligible Use of Funds</i>	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.				
<i>Accomplishments</i>	- Completed 956 underage buyer alcohol inspections out of 1,029 attempts with an 89% compliance rate.				

Prevention – Transportation Alternatives

Drive Safe Hampton Roads		Project number		EDU_AL-2025-55211-25211	
<i>Project Name & Description</i>	<p align="center">757 Sober Ride Program</p> <p>Offers an alternative to drinking and driving when the driver is unexpectedly too impaired to be driving.</p>				
<i>Countermeasure Strategy</i>	<ul style="list-style-type: none"> Alternative Transportation 				
<i>Objectives</i>	<ul style="list-style-type: none"> Identify at least 8 holidays to operate the program. Develop creatives to promote the program. Promote the program on multiple platforms. 				
<i>Organization Type</i>	Non-Profit				
	Source	Amount		Coverage	

Funding Information	BIL 154-Transfer	\$114,796.00		Hampton Roads Region
Eligible Use of Funds	For staff, creatives, social media, and operation of the program that helps to keep potential impaired drivers off the Virginia Roads.			
Accomplishments	<ul style="list-style-type: none"> • Covered four major holidays with a sober ride program. • 385 sober rides were utilized in just the first quarter. 			

Washington Regional Alcohol Program		Project number	BFDL*DE-2025-55211-25211	
Project Name & Description	Public Information & Education and Youth Outreach Programs This project provides resources and information about alcohol impaired driving, maintains interactive website, promotes a sober ride program, and offers youth community outreach programs.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Alternative Transportation • Youth Programs 			
Objectives	<ul style="list-style-type: none"> • Conduct a Sober Ride program during 5 major holiday campaigns. • Expand the Alcohol Awareness for Students educational program in Northern Virginia. • Coordinated safety events at high schools. 			
Organization Type	Non-Profit			
Funding Information	Source	Amount		Coverage
	BIL – 405d	\$140,360.00		Statewide
Eligible Use of Funds	Funds used for media buys and placements and creatives for the campaigns.			
Accomplishments	<ul style="list-style-type: none"> • Provided 2,202 sober rides during 1 quarter, which exceeds last year’s numbers from covering two major holidays. • 450 visitors were added to the WRAP website. • Reached 820 high school students in first quarter. 			

Department Of Motor Vehicles		Project number	EDU_AL-2025-55376-25376	
Project Name & Description	Sober Ride Pop Up This project educates and encourages people to use alternative transportation instead of drinking and driving at events that people usually drink at. The popup tent will provide sober ride options and educational resources.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Designated Driver 			
Objectives	<ul style="list-style-type: none"> • Provide sober ride options at 4 major events. • Decrease the number of alcohol related fatalities statewide by 3%. 			

Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL – 154-Transfer	\$47,000.00		Statewide
Eligible Use of Funds	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> • Contract has been executed. • Plans for 4 events during the summer in rural/urban mixed areas. 			

Prevention – Mass Media Communications

Virginia Department of Motor Vehicles		Project number		BPM-2025-55264-25264
Project Name & Description	Alcohol Paid Media Year-round messaging to the public about alcohol impaired driving, reaching our key demographic audience to decrease impaired driving.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Mass-Media Campaigns 			
Objectives	<ul style="list-style-type: none"> • Year-round campaign • Target alcohol impaired driving paid media campaign during Super Bowl Sunday, St. Patrick’s Day, Cinco de Mayo, and Fourth of July. • Track progress of the campaign 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL 154-Transfer	\$3,410,000.00		Statewide
Eligible Use of Funds	Funds used for media buys and placements and creatives for the campaigns.			
Accomplishments	<ul style="list-style-type: none"> • Reached 62,915,076 people so far with DMV alcohol paid media campaigns with an emphasis on Prince William, Virginia Beach City, Fairfax County, Richmond City, Chesterfield County and Henrico County. 			

Prevention – Community-Based Programs

Chesterfield SAFE		Project number		BM6OT-2025-55199-25199
Project Name & Description	Of Course It’s Impaired Driving Media campaigns and outreach addressing impaired driving issues within Chesterfield County.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Mass-Media Campaigns • Youth Programs 			

Objectives	<ul style="list-style-type: none"> Reach 2,000 Chesterfield County Public School students with impaired driving prevention. Run 4,000 PSA media campaigns in areas that are overrepresented in impaired driving crashes. Reach 2,500 Latino community members about impaired driving prevention. Conduct 2025 YAS survey of 400 people ages 16-25. 		
Organization Type	Non-profit		
Funding Information	Source	Amount	Coverage
	BIL 154-Transfer	\$359,301.00	Chesterfield County
Eligible Use of Funds	To fund staff and activities for Chesterfield County traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.		
Accomplishments	<ul style="list-style-type: none"> Reached 1,559 people through education presentations. Suber Bowl media campaign generated 123,899 impressions and St. Patrick's Day campaign yielded 285,514 impressions. 		

Virginia State Police		Project number	EDU_AL-2025-55177-25177	
Project Name & Description	<p align="center">Youth of Virginia Speak Out (YOVASO) Peer-to-Peer Education Program - AL</p> <p>Peer to peer education focusing on teen driver safety, using effective outreach in middle and high schools with interactive and educational programs.</p>			
Countermeasure Strategy	<ul style="list-style-type: none"> Youth Programs Mass-Media Campaigns 			
Objectives	<ul style="list-style-type: none"> Provide Leadership Development Training for youth, adult advisors, and partners. Sponsor three student-led youth traffic safety campaigns. Provide interactive programs that include DD/DUI simulator and ScanEd to various schools/events statewide. 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL-154-Transfer	\$354,324.00		Statewide
Eligible Use of Funds	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> 93,829 students reached through Projects, Programs, and Activities. Completed 15 Interactive Distracted Driving Simulator event with 1,568 students participating for the 1st and 2nd quarter. 			

Mothers Against Drunk Driving		Project number		BB6PEM-2025-55056-25056	
Project Name & Description	MADD Educate the public about the dangers of drinking and driving through mass media campaigns, collaborating with victim advocates, law enforcement and safety advocates and outreach.				
Countermeasure Strategy	<ul style="list-style-type: none"> • Mass-Media Campaigns • Youth Programs • Outreach 				
Objectives	<ul style="list-style-type: none"> • Media campaigns that share the alcohol-impaired driving message. • Law enforcement recognition program. • Present Underaged Driving presentations in schools statewide. 				
Organization Type	Non-Profit				
Funding Information	Source	Amount			Coverage
	BIL-405d	\$802,983.00			Statewide
Eligible Use of Funds	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.				
Accomplishments	<ul style="list-style-type: none"> • Reached 3,262 people through impactful presentations to schools, military, and law enforcement. • Presented to 37 cadets in the Central Virginia Criminal Justice academy. 				

Virginia Commonwealth University		Project number		BFDL*DEE-2024-55176-25176	
Project Name & Description	Project IMPACT The project focuses on traffic safety including impaired driving, educating the youth about the consequences of their actions with an interactive program about trauma after a crash.				
Countermeasure Strategy	<ul style="list-style-type: none"> • Youth Programs 				
Objectives	<ul style="list-style-type: none"> • Grow the number of high schools that participate in the Metro Richmond area. • Expand the project in high school drivers' education classrooms. • Provide students with the experience of driving impaired using interactive activities that simulates the effects. 				
Organization Type	State Agency				
Funding Information	Source	Amount			Coverage
	BIL-405d	\$565,421.00			Richmond
Eligible Use of Funds	To fund staff and activities for traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.				
Accomplishments	<ul style="list-style-type: none"> • Reached 2,925 students and held 39 events in the 1st and 2nd quarter. • Scheduled 16 additional events through FY25. 				

SADD Inc.,		Project number		SM6OT-2025-55240-25240	
<i>Project Name & Description</i>	<i>Back-to-SADD: Encouraging Young Drivers</i> Peer-to-peer program in high schools and colleges focuses on the public health awareness and the risks involved in impaired driving.				
<i>Countermeasure Strategy</i>	<ul style="list-style-type: none"> • Youth Programs • Outreach 				
<i>Objectives</i>	<ul style="list-style-type: none"> • Expand the number of SADD chapters in colleges. • Facilitate training with staff and interns in peer-to-peer traffic safety programs. • Expand traffic safety partners and maintain relationships with businesses, bars, restaurants, and community organization around campuses. • Conduct one activation event in partnership with RADD, the Higher Education Center for Alcohol Drug Misuse Prevention and Policy and local event venues to promote impaired driving prevention. 				
<i>Organization Type</i>	Non-Profit				
<i>Funding Information</i>	Source	Amount		Coverage	
	BIL-405d	\$231,696.00		Statewide	
<i>Eligible Use of Funds</i>	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.				
<i>Accomplishments</i>	<ul style="list-style-type: none"> • Added 6 new SADD chapters on top of the 21. • Supported 3 mobility safety programs. • Added 13 new partners. 				

DRIVE SMART Virginia		Project number		EDU_AL-2025-55227-25227	
<i>Project Name & Description</i>	<i>Impaired Driving Education & Outreach</i> This project focuses on public information and education campaigns to address impaired driving through partnerships with communities and community events.				
<i>Countermeasure Strategy</i>	<ul style="list-style-type: none"> • Mass-Media Campaigns • Outreach 				
<i>Objectives</i>	<ul style="list-style-type: none"> • Creating and implementing “Who’s Your Driver” campaign year around. • To speak or exhibit at conferences, workplaces, community and/or sporting events year-round. • Increase sports partnerships to increase exposure to impaired driving prevention campaign. 				
<i>Organization Type</i>	Non-Profit				

Funding Information	Source	Amount		Coverage
	BIL-154-Transfer	\$617,599.00		Statewide
Eligible Use of Funds	To fund staff, activities, media buys and creatives for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> • Participated in 31 events, reached over 20,000 people. • 3.8 million reached through social media. • 4 million people reached with the designated/sober driver messaging. 			

Department of Motor Vehicles		Project number		BM5IDC-2025-55234-25234
Project Name & Description	Alcohol Impaired Driving Program, Program Coordinator, SFST Coordinator Oversee development and implementation of impaired driving programs and coordinates with partners to facilitate Standardized Field Sobriety Test (SFST) Instructor Development training opportunities.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Alternative Transportation • Youth Programs • Designated Drivers • Law Enforcement Training 			
Objectives	<ul style="list-style-type: none"> • Quarterly Impaired Driving Stakeholder meetings. • In partnership with Virginia State Police, ensure that the continued growth of the SFST Instructor program. Provide free support materials to law enforcement for conducting SFST.			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL-405d	\$359,241.00		Statewide
Eligible Use of Funds	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> • 17 SFST Instructors have been added. • 11 Drug Recognition Experts have been added. • There was a consistent participant in the Stakeholder Meetings with 42 attendees. 			

Department of Motor Vehicles		Project number		SDD-2025-55377-25377
Project Name & Description	Impaired Driving Program Coordination: Drugged, Drowsy and Distracted This project is to manage statewide impaired driving prevention activities for distracted drowsy and drugged driving.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Community Outreach • Mass media campaigns 			

<i>Objectives</i>	<ul style="list-style-type: none"> • Decrease the number of impaired driving crashes, injuries, and fatalities by 10%. • Develop and implement the best practices by participating in required training. 			
<i>Organization Type</i>	State Agency			
<i>Funding Information</i>	Source	Amount		Coverage
	BIL-402	\$32,243.00		Statewide
<i>Eligible Use of Funds</i>	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
<i>Accomplishments</i>	<ul style="list-style-type: none"> • 97 Distracted Driving posters have been distributed to local law enforcement agencies and schools. • Increase impaired driving prevention education to colleges and universities in areas identified by data. Hosted a table at 3 college events, with 275 students that engaged at the table. 			

The following data driven FY2025 Criminal Justice System Strategies are implemented to deter and reduce the incidence of impaired driving on Virginia’s roadways. This begins with strong laws that clearly define offenses, enforcement and consequences.

Virginia’s Administrative Sanction and Driver Licensing Programs

§ 46.2-391. Revocation of license for multiple convictions of driving while intoxicated; exception; petition for restoration of privilege.

A. The Commissioner shall forthwith revoke and not thereafter reissue for three years the driver's license of any person on receiving a record of the conviction of any person who (i) is adjudged to be a second offender in violation of the provisions of subsection A of § [46.2-341.24](#) (driving a commercial motor vehicle under the influence of drugs or intoxicants), or § [18.2-266](#) (driving under the influence of drugs or intoxicants), if the subsequent violation occurred within 10 years of the prior violation, or (ii) is convicted of any two or more offenses of § [18.2-272](#) (driving while the driver's license has been forfeited for a conviction under § [18.2-266](#)) if the second or subsequent violation occurred within 10 years of the prior offense. However, if the Commissioner has received a copy of a court order authorizing issuance of a restricted license as provided in subsection E of § [18.2-271.1](#), he shall proceed as provided in the order of the court. For the purposes of this subsection, an offense in violation of a valid local ordinance, or law of any other jurisdiction, which ordinance or law is substantially similar to any provision of Virginia law herein shall be considered an offense in violation of such provision of Virginia law. Additionally, in no event shall the Commissioner reinstate the driver's license of any person convicted of a violation of § [18.2-266](#), or of a substantially similar valid local ordinance or law of another jurisdiction, until receipt of notification that such person has successfully completed an alcohol safety action program if such person was required by court order to do so unless the requirement for completion of the program has been waived by the court for good cause shown. A conviction includes a finding of not innocent in the case of a juvenile.

§ 46.2-391.2. Administrative suspension of license or privilege to operate a motor vehicle.

A. If a breath test is taken pursuant to § [18.2-268.2](#) or any similar ordinance or § [46.2-341.26:2](#) and (i) the results show a blood alcohol content of 0.08 percent or more by weight by volume or 0.08 grams or more per 210 liters of breath, or (ii) the results, for persons under 21 years of age, show a blood alcohol concentration of 0.02 percent or more by weight by volume or 0.02 grams or more per 210 liters of breath or (iii) the person refuses to submit to the breath or blood test in violation of § [18.2-268.3](#) or any similar ordinance or § [46.2-341.26:3](#), and upon issuance of a petition or summons, or upon issuance of a warrant by the magistrate, for a violation of § [18.2-51.4](#), [18.2-266](#), or [18.2-266.1](#), or any similar ordinance, or § [46.2-341.24](#) or upon the issuance of a warrant or summons by the magistrate or by the arresting officer at a medical facility for a violation of § [18.2-268.3](#), or any similar ordinance, or § [46.2-341.26:3](#), the person's license shall be suspended immediately or in the case of (a) an unlicensed person, (b) a person whose license is otherwise suspended or revoked, or (c) a person whose driver's license is from a jurisdiction other than the Commonwealth, such person's privilege to operate a motor vehicle in the Commonwealth shall be suspended immediately. The period of suspension of the person's license or privilege to drive shall be seven days, unless the petition, summons or warrant issued charges the person with a second or subsequent offense. If the person is charged with a second offense the suspension shall be for 60 days. If not already expired, the period of suspension shall expire on the day and time of trial

of the offense charged on the petition, summons or warrant, except that it shall not expire during the first seven days of the suspension. If the person is charged with a third or subsequent offense, the suspension shall be until the day and time of trial of the offense charged on the petition, summons or warrant.

§ 18.2-266. Driving motor vehicle, engine, etc., while intoxicated, etc.

It shall be unlawful for any person to drive or operate any motor vehicle, engine or train (i) while such person has a blood alcohol concentration of 0.08 percent or more by weight by volume or 0.08 grams or more per 210 liters of breath as indicated by a chemical test administered as provided in this article, (ii) while such person is under the influence of alcohol, (iii) while such person is under the influence of any narcotic drug or any other self-administered intoxicant or drug of whatsoever nature, or any combination of such drugs, to a degree which impairs his ability to drive or operate any motor vehicle, engine or train safely, (iv) while such person is under the combined influence of alcohol and any drug or drugs to a degree which impairs his ability to drive or operate any motor vehicle, engine or train safely, or (v) while such person has a blood concentration of any of the following substances at a level that is equal to or greater than: (a) 0.02 milligrams of cocaine per liter of blood, (b) 0.1 milligrams of methamphetamine per liter of blood, (c) 0.01 milligrams of phencyclidine per liter of blood, or (d) 0.1 milligrams of 3,4-methylenedioxymethamphetamine per liter of blood. A charge alleging a violation of this section shall support a conviction under clauses (i), (ii), (iii), (iv), or (v).

§ 18.2-266.1. Persons under age 21 driving after illegally consuming alcohol; penalty.

A. It shall be unlawful for any person under the age of 21 to operate any motor vehicle after illegally consuming alcohol. Any such person with a blood alcohol concentration of 0.02 percent or more by weight by volume or 0.02 grams or more per 210 liters of breath but less than 0.08 by weight by volume or less than 0.08 grams per 210 liters of breath as indicated by a chemical test administered as provided in this article shall be in violation of this section.

§ 18.2-271. Forfeiture of driver's license for driving while intoxicated.

A. Except as provided in § [18.2-271.1](#), the judgment of conviction if for a first offense under § [18.2-266](#) or for a similar offense under any county, city, or town ordinance, or for a first offense under subsection A of § [46.2-341.24](#), shall of itself operate to deprive the person so convicted of the privilege to drive or operate any motor vehicle, engine or train in the Commonwealth for a period of one year from the date of such judgment. This suspension period shall be in addition to the suspension period provided under § [46.2-391.2](#).

§ 18.2-272. Driving after forfeiture of license.

B. Regardless of compliance with any other restrictions on his privilege to drive or operate a motor vehicle, it shall be a violation of this section for any person whose privilege to drive or operate a motor vehicle has been restricted, suspended or revoked because of a violation of § [18.2-36.1](#), [18.2-51.4](#), [18.2-266](#), [18.2-268.3](#), [46.2-341.24](#), or [46.2-341.26:3](#) or a similar ordinance or law of another state or the

United States to drive or operate a motor vehicle on any highway, as defined in § [46.2-100](#), in the Commonwealth while he has a blood alcohol content of 0.02 percent or more.

§ 18.2-323.1. Drinking while operating a motor vehicle; possession of open container while operating a motor vehicle and presumption; penalty.

A. It is unlawful for any person to consume an alcoholic beverage while driving a motor vehicle upon a public highway of the Commonwealth.

B. Unless the driver is delivering alcoholic beverages in accordance with the provisions of § [4.1-212.1](#), a rebuttable presumption that the driver has consumed an alcoholic beverage in violation of this section shall be created if (i) an open container is located within the passenger area of the motor vehicle, (ii) the alcoholic beverage in the open container has been at least partially removed, and (iii) the appearance, conduct, odor of alcohol, speech, or other physical characteristic of the driver of the motor vehicle may be reasonably associated with the consumption of an alcoholic beverage.

§ 46.2-301.1. Administrative impoundment of motor vehicle for certain driving while license suspended or revoked offenses; judicial impoundment upon conviction; penalty for permitting violation with one's vehicle.

A. The motor vehicle being driven by any person (i) whose driver's license, learner's permit or privilege to drive a motor vehicle has been suspended or revoked for a violation of § [18.2-51.4](#) or [18.2-272](#) or driving while under the influence in violation of § [18.2-266](#), [46.2-341.24](#) or a substantially similar ordinance or law in any other jurisdiction; (ii) where such person's license has been administratively suspended under the provisions of § [46.2-391.2](#); (iii) driving after such person's driver's license, learner's permit or privilege to drive a motor vehicle has been suspended or revoked for unreasonable refusal of tests in violation of § [18.2-268.3](#), [46.2-341.26:3](#) or a substantially similar ordinance or law in any other jurisdiction; or (iv) driving without an operator's license in violation of § [46.2-300](#) having been previously convicted of such offense or a substantially similar ordinance of any county, city, or town or law in any other jurisdiction shall be impounded or immobilized by the arresting law-enforcement officer at the time the person is arrested for driving after his driver's license, learner's permit or privilege to drive has been so revoked or suspended or for driving without an operator's license in violation of § [46.2-300](#) having been previously convicted of such offense or a substantially similar ordinance of any county, city, or town or law in any other jurisdiction.

Criminal Justice System - Prosecution

Commonwealth Attorney's Services Council	Project number	BB6CS-2025-55159-25159		
Project Name & Description	TSRP, Adv. DUI, DUID, DRE, Fatal Crash This project funds a TSRP to provide and coordinate training, education and services for Virginia's prosecutors and law enforcement.			
Countermeasure Strategy	<ul style="list-style-type: none"> • DWI Courts 			
Objectives	<ul style="list-style-type: none"> • Training law enforcement officers and prosecutors at different training programs. • TSRP to provide technical support and legal support on issues involving impaired driving. • Attend CASC prosecutor and law enforcement trainings to educate DRE and other training programs. 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL – 405d	\$376,208.00		Statewide
Eligible Use of Funds	To fund TSRP and training expenses for prosecutors and law enforcement statewide to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> • Planned 1 DRE course, 6 DUID courses, 1 Fury Road course, and 6 Advanced DUI courses throughout the State. • Conducted 12 courses so far into quarter three. 			

Department of Forensic Science - Virginia	Project number	BB6BAC-2025-55042-25042		
Project Name & Description	DFS Breath Alcohol Training Program 2025 This project is to provide training at no additional cost to law enforcement agencies and to support continuing education and maintain capacity for Breath Alcohol Section staff.			
Countermeasure Strategy	<ul style="list-style-type: none"> • Alcohol Measurement Devices Training • DWI Courts – results for BAC testing 			
Objectives	<ul style="list-style-type: none"> • Provide breath alcohol instruction at little to no cost to law enforcement agencies. • Conduct 40 breath alcohol training courses. • Conduct instructor certification course. 			
Organization Type	State Agency			
	Source	Amount		Coverage

Funding Information	BIL – 405d	\$311,273.00		Statewide
Eligible Use of Funds	To fund staff and training to law enforcement agencies on Breath Alcohol devices and instruction related to the use of the device.			
Accomplishments	<ul style="list-style-type: none"> Completed 12 classes with 218 students at the end of the second quarter. Held 113 site visits. 			

Criminal Justice System – Adjudication

Supreme Court of Virginia	Project number	EDU_AL-2025-55267-25267		
Project Name & Description	Judicial Outreach Liaison			
	The JOL will assist with supporting the Commonwealth’s judicial education programs relating to transportation safety.			
Countermeasure Strategy	<ul style="list-style-type: none"> DWI Courts 			
Objectives	<ul style="list-style-type: none"> Conduct presentation at events when requested. Research, compose and/or distribute periodic correspondence to judges alerting them to resources related to highway safety-specifically in impaired driving. Provide information, resources and support on relevant highway safety issues and programs designed to decrease crashes, fatalities and injuries. 			
Organization Type				
Funding Information	Source	Amount		Coverage
	BIL-154-Transfer	\$63,600.00		Statewide
Eligible Use of Funds	To fund staff and activities for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> Created and distributed 6 newsletters to judges in the State about impaired driving. Attended 5 major conferences and training sessions to expand the knowledge base on impaired driving. 			

Supreme Court of Virginia	Project number	BB6CS-2025-55349-25349		
Project Name & Description	Virginia Specialty Dockets Training to Reduce Impaired Driving			
	Planning and operating specialty dockets to train on DUI, Drug Court Dockets and evidence-based practices and comply with revised operating standards.			
Countermeasure Strategy	<ul style="list-style-type: none"> DWI Courts 			
Objectives	<ul style="list-style-type: none"> Train over 425 staff. Send staff to NADCP. Provide drug testing supplies to dockets. 			
Organization Type	State Agency			

Funding Information	Source	Amount		Coverage
	BIL-405d	\$232,725.00		Statewide
Eligible Use of Funds	To fund staff and training for statewide traffic safety programs developed to reduce impaired driving crashes and eliminate serious injuries and fatalities.			
Accomplishments	<ul style="list-style-type: none"> Contract has been executed and the agenda approved for event to be held in August. 			

Criminal Justice System - Enforcement

Fairfax County Police Department – DUI Task Force		Project number	ENF_AL-2025-55035-25035	
Project Name & Description	DUI Task Force This is a specific task force that conducts selective alcohol enforcement throughout the county all year round working the identified hours and days of week by evidence-based data.			
Countermeasure Strategy	<ul style="list-style-type: none"> Publicized Sobriety Checkpoints High-Visibility Saturation Patrols Integrated Enforcement 			
Objectives	<ul style="list-style-type: none"> Conduct 4 checkpoints. Conduct 1600 saturation patrols. Hold one training event. 			
Organization Type	County Agency (Local)			
Funding Information	Source	Amount		Coverage
	BIL – 154-Transfer-2024	\$1,355,330.00		Fairfax County
Eligible Use of Funds	To fund staff, hours, and equipment for alcohol related selective enforcement.			
Accomplishments	<ul style="list-style-type: none"> Conducted 4 checkpoints and made 511 vehicle contacts. 53 DUI, 3 DUID, 5 Underage drinking citations reported at end of 1st quarter.

York County	154- Transfer- 2025	25237	Selective Enforcement - Alcohol	55237	11,580.00
Accomplishments: More than 80 law enforcement agencies throughout Virginia continue to provide checkpoints and saturation patrols increasing high visibility enforcement, deterring drivers from impaired driving and catching drivers that are impaired, ensuring safety on the roads.					

Criminal Justice System – Publicizing High Visibility Enforcement

Washington Regional Alcohol Program	Project number	BPM AL-2025-55073-25073
Project Name & Description	Virginia Drive Sober or Get Pulled Over Campaign This project is a year-round mass media campaign of paid and earned media with emphasis between July and January in conjunction with high visibility enforcement.	
Countermeasure Strategy	<ul style="list-style-type: none"> • Mass Media Campaigns 	
Objectives	<ul style="list-style-type: none"> • Year-round campaign • Emphasis in July-August and December-January • Focuses on men between the ages of 21-35. • Coordinates with high visibility enforcement campaign for Drive Sober or Get Pulled Over 	
Organization Type	Non-Profit	
Funding Information	Source	Amount
	BIL – 154-Transfer	\$1,129,280.00
		Coverage
		Statewide
Eligible Use of Funds	Funds used for media buys and placements and creatives for the campaigns.	
Accomplishments	<ul style="list-style-type: none"> • Reached 481,88,961 during DSOGPO winter campaign. • Conducted two interviews in December at major television stations. 	

Alcohol and Other Drug Misuse:

Screening, Assessment, Treatment, and Rehabilitation

Commission of Virginia Alcohol Safety Action Program	Project number	BFFDLIS-2025-55081-25081
Project Name & Description	INSPIRE and VASAP Case Management Enhancement and Maintenance Grant Maintaining and enhancing the current system that assists in effective and efficient services for proper intervention and implementation of the program aiming to reduce recidivism.	
Countermeasure Strategy	<ul style="list-style-type: none"> • Alcohol Screening and Brief Intervention • Alcohol Ignition Interlocks • Alcohol Problem Assessment and Treatment 	

Objectives	<ul style="list-style-type: none"> • Provide hosting and maintenance for the Engenuity VASAP Case Management System and INSPIRE. • Provide required enhancements to security of both platforms. • Provide equipment to ASAP locations that would help track the number of clients. 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL-405d	\$306,000.00		Statewide
Eligible Use of Funds	To fund the software and equipment that aid in reducing the recidivism rate in Virginia.			
Accomplishments	<ul style="list-style-type: none"> • Enhancements to the current systems are being implemented to increase usage by clients, assist state employees with regulatory requirements, and provide additional security measures. 			

Commission of Virginia Alcohol Safety Action Program		Project number	BFDLDATE-2025-55151-25151	
Project Name & Description	<p>Commission on VASAP Training Conference & Regional ASAP, DMV & Clerk Training</p> <p>This project provides training for the best practices in reducing recidivism in Virginia and keeping staff up to date on ignition interlock, restricted licenses, ASAP monitoring and DMV and ASAP processes.</p>			
Countermeasure Strategy	<ul style="list-style-type: none"> • Alcohol Ignition Interlocks • Alcohol Problem Assessment and Treatment • Alcohol Screening and Brief Intervention • DWI Monitoring 			
Objectives	<ul style="list-style-type: none"> • Conduct a VASAP Training Conference. • Organizing speakers for the conference. • Arranging lodging and meals for the attendees. 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL-405d	\$92,770.00		Statewide
Eligible Use of Funds	To fund training and travel related to the conference aiding in reducing the recidivism rate in Virginia.			
Accomplishments	<ul style="list-style-type: none"> • The contract has been executed for the training conference in August to be held in Virginia Beach City. 			

Program Evaluation and Data

Data from the Traffic Records Electronic Data Collection System (TREDS - crash), the Fatality Analysis Reporting System (FARS,) Citizen Services System (CSS – driver, vehicle and conviction data) as well as external datasets such as demographic data and Census data is analyzed, monitored and evaluated for program development and evaluation. Data reports are monitored on a weekly, monthly and annual basis to not only address the current environment, but to also plan for future opportunities for program implementation. Additional data sources used in our analysis are listed below.

Department of Forensic Science - Virginia		Project number		BM6OT-2025-55043-25043	
<i>Project Name & Description</i>	DFS TREDS Data Project The Department of Forensic Science Toxicology conducts postmortem analysis for the Office of the Chief Medical Examiner in motor vehicle related fatal crashes. This project ensures timely reporting of motor related fatal crashes which is critical in reducing impaired driving on Virginia’s roadways.				
<i>Countermeasure Strategy</i>	<ul style="list-style-type: none"> • Data collection 				
<i>Objectives</i>	<ul style="list-style-type: none"> • Reduce annual turn-around times for medical examiner case types by 10%. • Continue timely reporting. 				
<i>Organization Type</i>	State Agency				
<i>Funding Information</i>	Source	Amount		Coverage	
	BIL – 405d	\$468,760.00		Statewide	
<i>Eligible Use of Funds</i>	To fund staff to collect data used for developing effective strategies in reducing impaired driving crashes.				
<i>Accomplishments</i>	<ul style="list-style-type: none"> • Three full-time Forensic Scientist III have been trained to perform BAC and ELISA screenings. • Conducted 25% of all breath alcohol training courses in Virginia. 				

Department of Motor Vehicles		Project number		BTR-2025-55330-25330	
<i>Project Name & Description</i>	VA Tech Analytics and Reporting This project provides VAHSO expertise, skillsets and tools to perform enhanced analysis and reporting that are critical to Virginia’s efforts to further reduce crashes, injuries and fatalities.				

Countermeasure Strategy	<ul style="list-style-type: none"> Data collection 			
Objectives	<ul style="list-style-type: none"> Data analysis for 10 projects to VAHSO 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
	BIL – 402	\$409,989.00		Statewide
Eligible Use of Funds	To fund staff to collect data used for developing effective strategies in reducing impaired driving crashes.			
Accomplishments	<ul style="list-style-type: none"> Conducted real time, trend and predictive analysis on all behavioral high safety programs. Prepared evaluation data for incorporation of Public Participation and Engagement Effects for Annual Report. Completed summary reports on motorcycle and pedestrian behavioral areas. 			

Department of Motor Vehicles	Project number	693JJ92250115-52445-22445		
Project Name & Description	Fatality Analysis Reporting System (FARS)			
Countermeasure Strategy	<ul style="list-style-type: none"> Data collection 			
Objectives	<ul style="list-style-type: none"> To provide crash data that will help facilitate effective traffic safety prevention strategies. 			
Organization Type	State Agency			
Funding Information	Source	Amount		Coverage
		\$705,936.00		Statewide
Eligible Use of Funds	To fund staff to collect data used for developing effective strategies in reducing impaired driving crashes.			
Accomplishments	<ul style="list-style-type: none"> Completed 914 fatalities to NHTSA/FARS and 216 fatalities in 2024. Updated VA/FARS services with JSON software to align with current architectural standards. 			

Department of Motor Vehicles	Project number	FM3DA-2025-55132-25132		
Project Name & Description	<p>TREDS Projects</p> <p>This project is for development and implementation of the Traffic Records Electronic Data System (TREDS), a database that houses over a decade of crash data in Virginia.</p>			
Countermeasure Strategy	<ul style="list-style-type: none"> Data collection 			

<i>Objectives</i>	<ul style="list-style-type: none"> Enhancements to TRENDS and related data and data systems to measure the impact on completeness, timeliness, accuracy, integration, accessibility and uniformity of data. 			
<i>Organization Type</i>	State Agency			
<i>Funding Information</i>	Source	Amount		Coverage
	BIL – 405c	963,000.00		Statewide
<i>Eligible Use of Funds</i>	To fund staff to collect data used for developing effective strategies in reducing impaired driving crashes.			
<i>Accomplishments</i>	<ul style="list-style-type: none"> Updated TRENDS to TRENDS 2.0 system, implementing a modernized version with security enhancements, removing in-house services and replacing the 10-year-old software. 300+ business rules were rewritten into .net. Successfully deployed TRENDS 2.0 November 1, 2024.

Virginia's Motorcycle Helmet Law

§ 46.2-910. Motorcycle and autocycle operators to wear helmets, etc.; certain sales prohibited; penalty.

A. Every person operating a motorcycle or autocycle shall wear a face shield, safety glasses or goggles, or have his motorcycle or autocycle equipped with safety glass or a windshield at all times while operating the vehicle, and operators and any passengers thereon shall wear protective helmets. Operators and passengers riding on motorcycles with wheels of eight inches or less in diameter or in three-wheeled motorcycles or autocycles that have nonremovable roofs, windshields, and enclosed bodies shall not be required to wear protective helmets. The windshields, face shields, glasses or goggles, and protective helmets required by this section shall meet or exceed the standards and specifications of the Snell Memorial Foundation, the American National Standards Institute, Inc., or the federal Department of Transportation. Failure to wear a face shield, safety glasses or goggles, or protective helmets shall not constitute negligence per se in any civil proceeding. The provisions of this section requiring the wearing of protective helmets shall not apply to operators of or passengers on motorcycles or autocycles being operated (i) as part of an organized parade authorized by the Department of Transportation or the locality in which the parade is being conducted and escorted, accompanied, or participated in by law-enforcement officers of the jurisdiction wherein the parade is held and (ii) at speeds of no more than 15 miles per hour.

No motorcycle or autocycle operator shall use any face shield, safety glasses, or goggles, or have his motorcycle or autocycle equipped with safety glass or a windshield, unless of a type either (i) approved by the Superintendent prior to July 1, 1996, or (ii) that meets or exceeds the standards and specifications of the Snell Memorial Foundation, the American National Standards Institute, Inc., or the federal Department of Transportation and is marked in accordance with such standards.

B. It shall be unlawful to sell or offer for sale, for highway use in Virginia, any protective helmet that fails to meet or exceed any standard as provided in the foregoing provisions of this section. Any violation of this subsection is a Class 4 misdemeanor.

Code 1950, §§ 46-183.1, 46-183.2; 1954, c. 204; 1958, c. 541, § 46.1-172; 1968, c. 498; 1970, cc. 29, 99; 1982, cc. 390, 681; 1989, cc. 6, 727; 1996, c. [690](#); 1998, c. [789](#); 2014, cc. [53](#), [256](#).

Use of Fees Collected from Motorcyclists for Motorcycle Programs

Virginia Code § 2.2-1509. Budget Bill.

A. On or before December 20 of the year immediately prior to the beginning of each regular session of the General Assembly held in an even-numbered year, the Governor also shall submit to the presiding officer of each house of the General Assembly, at the same time he submits "The Executive Budget," copies of a tentative bill for all proposed appropriations of the budget, for each year in the ensuing

biennial appropriation period, which shall be known as "The Budget Bill." "The Budget Bill" shall be organized by function, primary agency, and proposed appropriation item and shall include an identification of, and authorization for, common programs and the appropriation of funds according to programs. Except as expressly provided in an appropriation act, whenever the amounts in a schedule for a single appropriation item are shown in two or more lines, the portions of the total amount shown on separate lines are for information purposes only and are not limiting. No such bill shall contain any appropriation the expenditure of which is contingent upon the receipt of revenues in excess of funds unconditionally appropriated.

B. The salary proposed for payment for the position of each cabinet secretary and administrative head of each agency and institution of the executive branch of state government shall be specified in "The Budget Bill," showing the salary ranges and levels proposed for such positions.

C. "The Budget Bill" shall include all proposed capital appropriations, including each capital project to be financed through revenue bonds or other debt issuance, the amount of each project, and the identity of the entity that will issue the debt.

D. The Governor shall also ensure a prefile bill is submitted to the Chairman of the House Committee on Appropriations and the Chairman of the Senate Committee on Finance in accordance with the deadlines for prefilings under subdivision A 3 of § [30-19.3](#) for any request for authorization of additional bonded indebtedness if its issuance is authorized by, or its repayment is proposed to be made in whole or in part, from revenues or appropriations contained in "The Budget Bill."

E. On or before December 20 of the year immediately prior to the beginning of each regular session held in an odd-numbered year of the General Assembly, the Governor shall submit to the presiding officer of each house printed copies of all gubernatorial amendments proposed to the general appropriation act adopted in the immediately preceding even-numbered year session. In preparing the amendments, the Governor may obtain estimates in the manner prescribed in §§ [2.2-1504](#), [2.2-1505](#), and [2.2-1506](#). The Governor shall also ensure a prefile bill is submitted to the Chairman of the House Committee on Appropriations and the Chairman of the Senate Committee on Finance in accordance with the deadlines for prefilings under subdivision A 3 of § [30-19.3](#) for any request for authorization of additional bonded indebtedness if its issuance is authorized by, or its repayment is proposed to be made in whole or in part, from revenues or appropriations contained in the proposed gubernatorial amendments.

F. The proposed capital appropriations or capital projects described in, or for which proposed appropriations are made pursuant to, this section shall include the capital outlay projects required to be included in "The Budget Bill" pursuant to § [2.2-1509.1](#). The Governor shall propose appropriations for such capital outlay projects in "The Budget Bill" in accordance with the minimum amount of funding and the designated sources of funding for such projects as required under § [2.2-1509.1](#).

Virginia Code § 46.2-1191. Motorcycle Rider Safety Training Program Fund.

To finance the cost of the Motorcycle Rider Safety Training Program, the Department of Motor Vehicles shall deposit the fee collected for the issuance of each motorcycle learner's permit and \$3 of the fee collected for the issuance of each motorcycle registration and all motorcycle driver's license endorsement fees into a special fund to be known as the Motorcycle Rider Safety Training Program Fund. The Department shall use the Fund as necessary for: (i) the costs of the Department of Motor Vehicles incurred in the administration of this article, (ii) the

funding of licensed, approved regional cycle rider safety training centers for the conducting of courses, as set forth in § [46.2-1192](#) and (iii) any other purposes related to the administration of this article, including contractual costs related to administrative and other operational support for the reimbursed training centers.

PART 9: PREVENTING ROADSIDE DEATHS GRANTS (23 CFR 1300.27)

Commonwealth of Virginia

Plan to Prevent Roadside Deaths

Roadside Crashes 2021-2024 Summary

Roadside Crash Overview

- Roadside crashes increased 24% from 38 to 47 from 2023 to 2024. Roadside crashes from 2021 through 2023 had remained about the same.
 - There was 1 fatal crash in each year, none in 2024.
 - The number of injury crashes increased from 14 (37%) to 24 (51%).
 - The increase in injuries were mostly serious injuries. **Serious injuries increased from 1 to 8.**

- Non-serious injuries decreased from 23 to 22.
- In 2024, property damage crashes remained the same at 23, 61% of crashes in 2023 and 49% in 2024. The number of property damage crashes varied little from 2021 to 2024.

Roadside Crashes 2021 - 2024

Year	Total Roadside Crashes	% of 2021-2024 Roadside Crashes	% Change from Previous Year	Fatal	Injury	%	Property Damage	%
2021	37	21%		1	12	32%	24	65%
2022	34	19%	-8%	1	12	35%	21	62%
2023	38	21%	12%	1	14	37%	23	61%
2024	47	26%	24%	0	24	51%	23	49%
Total	156			3	62	40%	91	58%

- In 2024 special vehicles involved in roadside crashes were almost half police vehicles and half maintenance vehicles.
 - Crashes involving maintenance vehicles more than doubled from 10 to 21 from 2023 to 2024. They accounted for 45% of roadside crashes in 2024 vs. 26% in 2023. Crashes involving maintenance vehicles were also low compared to 2024 in 2021 (13) and 2022 (11).
 - Crashes involving police vehicles decreased from 22 to 20 from 2023 to 2024. They accounted for 43% of roadside crashes in 2024 vs. 58% in 2023. Overall, they increased from 2021 (15) and 2022 (16).
 - Crashes involving Tow Trucks decreased from 6 to 4 from 2023 to 2024. They accounted for 8.5% of roadside crashes in 2024 vs. 16% in 2023. This was also a decrease from 2021 (7) and 2022 (6).
 - There were 4 crashes involving fire trucks in 2021, 2 in 2022, 0 in 2023 and 2024.
 - There were 2 crashes that involved an ambulance in 2022 and 2024, 0 in 2021 and 2023.

Roadside Crash Characteristics

- 85% of roadside crashes in 2024 were rear-end, sideswipe-same direction, or angle collisions.
 - Sideswipe-same direction collisions doubled from 10 to 20 in 2024. 43% of crashes were sideswipe-same direction collisions in 2024 vs. 26% in 2023.
 - Rear-end collisions were the most common collision type in all years except 2024. There were 18 rear-end collisions in each year, but a slight decrease to 16 in 2024. 34% of crashes were rear-end collisions in 2024.

- o Angle collisions decreased from 7 to 4 in 2024. 8.5% of crashes were angle collisions in 2024 vs. 18% in 2023. There were 6 angle collisions in 2022 and 8 in 2021.
- Roadside crashes taking place in work zones increased significantly in 2024.
 - o Crashes in work zones more than doubled from 4 to 10 increasing from 11% of crashes to 21% of crashes.
 - o Work zone crashes in 2023 had decreased significantly from 2022. They decreased 64% from 11 to 4. They accounted for 32% of roadside crashes in 2022 vs. 11% in 2023.
 - o Work zone crashes were on the higher side (9) in 2021 and accounted for 24% of roadside crashes.
- In 2024, roadside crashes were highest in January, May, and October.
 - o Crashes in January, May, and October each had six crashes. November and December each had five.
 - o In 2024, roadside crashes were lowest in August in 2024. There were 0 crashes in August 2023.
 - o In 2024, roadside crashes increased by 3 in January, October, November, and December. Each had 5 or 6 crashes in 2024.
- From 2021 to 2024, roadside crashes were somewhat evenly distributed by day with fewest total on Thursdays (17) and most on Wednesdays (26).
 - o In 2024, roadside crashes doubled from 5 to 10 on Tuesdays in 2024. Tuesday had the highest number of crashes in 2024.
 - o Roadside crashes more than doubled from 4 to 9 on Wednesdays in 2024. Wednesdays had the second highest number of crashes in 2024.
 - o Roadside crashes on Thursdays increased from 2 to 7 in 2024.
- From 2021 to 2024, the largest number of roadside crashes were between midnight-3am and the fewest number were between 3am-6am.
 - o In 2024, crashes between midnight-3am decreased from 7 to 4. In 2024, 8.5% of roadside crashes were between midnight-3am vs. 29% in 2022 when there were 10 crashes.
 - o In 2024, 40% of roadside crashes took place between noon-3pm and 9pm-midnight vs 34% in 2023.
 - o Crashes from noon-3pm more than doubled from 4 to 10. Crashes from 9pm-midnight doubled from 5 to 10.
 - o 49% (23) of crashes occurred between 6am-3pm in 2024 vs. 32% (12) in 2023.
 - o Crashes between midnight-6am decreased to 13% (6) of all roadway crashes in 2024 vs. 21% (8) in 2023.

- Roadside crashes occurring during daylight increased in 2024 to 57% vs. 50% in 2023. Crashes in daylight in 2023 and 2024 were notably higher than in 2021 and 2022. 38% (14) of roadside crashes in 2021 occurred in daylight and 32% (11) in 2022.
 - In 2024, crashes in daylight increased from 19 to 27.
 - Crashes in darkness were similar from 2021-2024.
 - In 2024, crashes increased from 19 to 20.
 - Crashes on lighted vs. non-lighted roadways remained about the same over the time period. Slightly more occurred on lighted roadways.
 - In 2024, 11 occurred on lighted roadways and 8 on non-lighted roadways vs. 12/7 in 2023.

- Just over 21% of roadside crashes occurred during adverse weather conditions in 2024, this was the same as 2022 and 2023. Only 11% occurred during adverse weather conditions in 2021.
 - 10 of 47 occurred in adverse conditions in 2024.
 - 11 of 47 (23.5%) had wet or icy road surface conditions in 2024.
 - 8 of 38 occurred in adverse conditions in 2023.
 - 10 of 38 (26%) had wet road surface conditions in 2023.
 - 7 of 34 occurred in adverse conditions in 2022.
 - 7 of 34 (21%) had wet or snowy road surface conditions in 2022.
 - 4 of 37 occurred in adverse weather conditions in 2021.
 - 4 of 37 (11%) had wet or icy road surface conditions in 2021.

- 76% of roadway crashes occurred on a straight roadway in 2024 and in 2023. This decreased from 82% in 2021 and 95% in 2021.
 - Crashes on curved roadways increased from 3 to 7 in 2023 and increased to 10 in 2024.

- Roadside crashes involving alcohol decreased in 2024.
 - 11% (5 of 47) roadside crashes involved alcohol in 2024, a decrease from 18% (7 of 38) in 2023.
 - 18% (6 of 34) involved alcohol in 2022.
 - 19% (7 of 37) involved alcohol in 2021.

- 32% (15 of 47) of roadway crashes involved speed 2024, a decrease from 45% (17 of 38) in 2023.
 - 35% of crashes involved speed in 2021 and 2022.

- Distracted drivers involved more than doubled from 2023 to 2024.
 - 10 of 47 (21%) involved a distracted driver vs. 4 of 38 (10.5%) in 2023.
 - Distracted drivers had been even higher in 2021 and 2022. In 2021, 14 of 37 (38%) were distracted. In 2022, 15 of 34 (44%).

- Roadside crashes involving commercial vehicles increased to 11 (23%) from 7 (18%) in 2023.

- o Roadside crashes involving commercial vehicles were 11 (30%) in 2021 and 10 (29%) in 2022.
- In 2024, 21% of crashes involved either a teen driver or a mature driver. This decreased from 34% in 2023. There were 2 in 2021 and 3 in 2022.
 - o In 2024, the number of young drivers involved crashes decreased from 6 to 4. There were 2 in 2021 and 3 in 2022.
 - o In 2024, the number of mature drivers involved crashes decreased from 7 to 6. There were 4 in 2021 and 2022.

Roadside Crash Locations

- In 2024, most roadside crashes occurred on two-way divided roadways with a positive median barrier (28/60%). This was an increase of 2 from 2023. There had been a large decrease from 2021 (31) to 2022 (19).
 - o In 2024, crashes on two-way divided roadways with unprotected medians increased from 6 to 9. 19% of crashes occurred on this type of roadway vs. 16% in 2023. There was a significant increase from 2021 (4) to 2022 (11).
 - o In 2024, crashes on two-way not divided roadways increased from 5 to 8. 17% of crashes occurred on this type of roadway vs. 13% in 2023. The numbers were lower in 2021 (1) and 2022 (2).
 - o There were 2 one-way roadway crashes in 2024 and 1 or 2 in each of the other years.
- 79% (37) of roadside crashes occurred on urban roadways in 2024.
 - o 84% (32) of roadside crashes occurred on urban roadways in 2023.
 - o 77% (26) of roadside crashes occurred on urban roadways in 2022.
 - o 73% (27) of roadside crashes occurred on urban roadways in 2021.
- There were 26 roadside crashes in the Fairfax and Portsmouth Regions in 2023 and 2024. They accounted for 55% of crashes in 2024 vs. 68% in 2023. There were 15 (68%) in 2021 and 17 (50%) in 2022.
 - o In 2024, crashes increased in the Fairfax region from 12 to 14 and decreased in the Portsmouth region from 14 to 12.
 - o In 2024, crashes in Richmond increased from 6 to 8 and accounted for 17% of all roadside crashes.
 - o In 2024, crashes in Bristol doubled from 3 to 6 and accounted for 13% of all roadside crashes.
 - o In 2024, crashes in Staunton increased from 1 to 4 and accounted for 8.5% of all roadside crashes.
 - o In 2024, crashes in Roanoke increased from 2 to 3 and accounted for 6% of all roadside crashes.

Roadside Crashes by Region 2021-2024

- 55 jurisdictions had at least 1 roadside crash in 2021-2024.
 - o 10 jurisdictions had at least 2 roadside crashes 2021-2024.
 - o 5 jurisdictions had at least 3 roadside crashes 2021-2024.
 - o 7 jurisdictions had at least 4 or 5 roadside crashes 2023-2024.
 - o 4 jurisdictions had at least 7 to 10 roadside crashes 2023-2024.
 - o Fairfax County had 27 roadside crashes 2023-2024.
 - o The fatal crash in 2021 occurred in Prince George County on I-95N.
 - o The fatal crash in 2022 occurred in Augusta County on I-81N.
 - o The fatal crash in 2023 occurred in Hampton City on I-64E.

- In 2024, all of the increase in roadside crashes took place in a jurisdiction that did not have a roadside crash in 2023.

- The top 7 jurisdictions accounted for 38% of all roadside crashes in 2024 vs. 63% in 2023.

Jurisdictions with Three or More Roadside Crashes 2021-2024

Jurisdiction	2021	2022	2023	2024	Total 2021-2024	% of Total 2021-2024
Fairfax County	8	5	8	6	27	17%
Hampton City	3	1	5	1	10	6%
Norfolk City	3	1	4	2	10	6%
Va. Beach City	5	1	1	1	8	5%
Chesapeake City		1	3	3	7	4%

At Fault Vehicles

- Although there was a decrease in speeding “at fault” drivers in 2024, speed was still a factor in 32% (15) roadside crashes in 2024. Speed was a factor in 45% (17) of crashes in 2023. Twelve crashes involved speed in 2021 (32%) and 2022 (35%).
- Drinking “at fault” drivers decreased from 7 to 5. 11% of drivers with a known drinking status were drinking in 2024 vs. 21% in 2023.
 - Drinking drivers may have decreased, but most drinking drivers were impaired in both years.
 - 4 of the 5 drinking “at fault” drivers in 2024 were drinking and impaired.
 - 5 of the 7 drinking "at fault" drivers in 2023 were drinking and impaired.
 - 6 “at fault” drivers were drinking in 2021 (20%) and 2022 (18%). All were impaired in 2021 and 4 of the 5 with a known status were impaired in 2022.
- 66% (31) of “at fault” drivers in roadside crashes did not maintain proper control, made an unsafe lane change, or were improperly passing. This was an increase from 55% (21) in 2023. The rate for these three driver actions was also under 60% in 2021 and 2022. All decreased from 2021 before increasing in 2023 and/or 2024.
 - 47% (22) failed to maintain proper control in 2024 vs. 50% (19) in 2023.
 - 11% (5) made an improper or unsafe lane change in 2024 vs. 5% (2) in 2023.
 - 9% (4) were improperly passing in 2024, 0 in 2023.
 - For all years, failure to maintain control was the most common driver action.
- In 2024, 72% (34) of “at fault” drivers were going straight ahead or ran off road-right.
 - Drivers going straight ahead increased from 16 to 19. 40% of drivers in 2024 vs. 42% in 2023.
 - Drivers that ran off road-right increased from 12 to 15. 32% of drivers in 2024 and in 2023.
 - Drivers that ran off road-left increased from 3 to 5. 11% in 2024 vs. 8% in 2023.
 - In 2021, 73% of drivers were going straight ahead or ran off road – right. In 2022, almost 70% of drivers were going straight ahead.
- In 2024, the increase in “at fault” drivers were almost all female drivers.
 - Female drivers almost doubled from 9 to 17. 39% of “at fault” drivers in 2024 vs. 26% in 2023.
 - Male “at fault” drivers increased from 25 to 27. There were 61% of drivers in 2024 vs. 74% in 2023.
 - There were 6 female drivers in 2021, an increase to 10 in 2022.

- 79% of “at fault” drivers received a summons or had one pending vs. 85% in 2023.
 - o In 2024, the number of drivers receiving a summons increased from 29 to 35.
 - o 85% of drivers received a summons or had one pending in 2021 and 2022.
- In 2024, “at fault” drivers that were over age 40 increased.
 - o The number of drivers increased from 16 to 22. 49% in 2024 vs. 46% in 2023.
 - o The largest increase was 2 to 6 for ages 40-44.
 - o Ages 60-64 increased from 1 to 4.
 - o In 2024, most ages had a similar number of drivers except under 20 and 45-54.
 - o 78% were under the age of 45 in 2021, 64% in 2022.
- “At fault” drivers with a contributing condition decreased from 6 to 5 in 2024.
 - o Illness was the most common condition, 4 in 2023-2024.
 - o The next most common condition was eyesight defective, 3 in 2023-2024.
- Distraction among at fault drivers more than doubled from 4 to 10. 23% were distracted in 2024 vs. 12% in 2023.
 - o The largest increases were 0 to 3 for eyes not on road and looking at roadside incident.
 - o The number of distracted drivers was even higher in 2021 and 2022. 38% (14) drivers were distracted in 2021 and 44% (15) were distracted in 2022.

Part 11: Racial Profiling Data Collection Grants (23 CFR 1300.29)

Code of Virginia

§ 9.1-192. Community Policing Reporting Database; annual report.

A. The Department shall periodically access the Community Policing Reporting Database, which is maintained by the Department of State Police in accordance with § [52-30.3](#), for the purposes of analyzing the data to determine the existence and prevalence of the practice of bias-based profiling and the prevalence of complaints alleging the use of excessive force. The Department shall maintain all records relating to the analysis, validation, and interpretation of such data. The Department may seek assistance in analyzing the data from any accredited public or private institution of higher education in the Commonwealth or from an independent body having the experience, staff expertise, and technical support capability to provide such assistance.

B. The Director shall annually report the findings and recommendations resulting from the analysis and interpretation of the data from the Community Policing Reporting Database to the Governor, the General Assembly, and the Attorney General beginning on or before July 1, 2021, and each July 1 thereafter. The report shall also include key information regarding state or local law-enforcement agencies that have failed or refused to report the required data to the Department of State Police as required by §§ [15.2-1609.10](#), [15.2-1722.1](#), and [52-30.2](#). A copy of the Director's report shall also be provided to each attorney for the Commonwealth of the county or city in which a reporting law-enforcement agency is located.

2020, c. [1165](#), § 9.1-191.

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 15.2-1609.10. Prohibited practices; collection of data.

A. No sheriff or deputy sheriff shall engage in bias-based profiling as defined in § [52-30.1](#) in the performance of his official duties.

B. The sheriff of every locality shall collect data pertaining to (i) all investigatory motor vehicle stops, (ii) all stop-and-frisks of a person based on reasonable suspicion, and (iii) all other investigatory detentions that do not result in an arrest or the issuance of a summons pursuant to § [52-30.2](#) and report such data to the Department of State Police for inclusion in the Community Policing Reporting Database established pursuant to § [52-30.3](#). The sheriff of the locality shall be responsible for forwarding the data to the Superintendent of State Police.

C. The sheriff shall post the data that has been forwarded for inclusion in the Community Policing Reporting Database on a website that is maintained by the sheriff or on any other website on which the sheriff generally posts information and that is available to the public or that clearly describes how the public may access such data.

2020, c. [1165](#); 2020, Sp. Sess. I, c. [37](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 15.2-1722.1. Prohibited practices; collection of data.

A. No law-enforcement officer shall engage in bias-based profiling as defined in § [52-30.1](#) in the performance of his official duties.

B. The police force of every locality shall collect data pertaining to (i) all investigatory motor vehicle stops, (ii) all stop-and-frisks of a person based on reasonable suspicion, and (iii) all other investigatory detentions that do not result in an arrest or the issuance of a summons pursuant to § [52-30.2](#) and report such data to the Department of State Police for inclusion in the Community Policing Reporting Database established pursuant to § [52-30.3](#). The chief of police of the locality shall be responsible for forwarding the data to the Superintendent of State Police.

C. The chief of police of the locality shall post the data that has been forwarded for inclusion in the Community Policing Reporting Database on a website that is maintained by the chief of police or on any

other website on which the chief of police generally posts information and that is available to the public or that clearly describes how the public may access such data.

2020, c. [1165](#); 2020, Sp. Sess. I, c. [37](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 52-30.1. Definition.

For purposes of this chapter, unless the context requires a different meaning, "bias-based profiling" means actions of a law-enforcement officer that are based solely on the real or perceived race, ethnicity, age, gender, or any combination thereof, or other noncriminal characteristics of an individual, except when such characteristics are used in combination with other identifying factors in seeking to apprehend a suspect who matches a specific description.

2020, c. [1165](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 52-30.2. Prohibited practices; collection of data.

A. No State Police officer shall engage in bias-based profiling in the performance of his official duties.

B. State Police officers shall collect data pertaining to (i) all investigatory motor vehicle stops, (ii) all stop-and-frisks of a person based on reasonable suspicion, and (iii) all other investigatory detentions that do not result in an arrest or the issuance of a summons to be reported into the Community Policing Reporting Database. State Police officers shall submit the data to their commanding officers, who shall forward it to the Superintendent of State Police.

C. Each time a law-enforcement officer or State Police officer stops a driver of a motor vehicle, stops and frisks a person based on reasonable suspicion, or temporarily detains a person during any other investigatory stop, such officer shall collect the following data based on the officer's observation or information provided to the officer by the driver: (i) the race, ethnicity, age, gender of the person stopped, and whether the person stopped spoke English; (ii) the reason for the stop; (iii) the location of the stop; (iv) whether a warning, written citation, or summons was issued or whether any person was arrested; (v) if a warning, written citation, or summons was issued or an arrest was made, the warning provided, violation charged, or crime charged; (vi) whether the vehicle or any person was searched; and (vii) whether the law-enforcement officer or State Police officer used physical force against any person and whether any person used physical force against any officers.

D. Each state and local law-enforcement agency shall collect the number of complaints the agency receives alleging the use of excessive force.

2020, c. [1165](#); 2020, Sp. Sess. I, c. [37](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 52-30.3. Community Policing Reporting Database established.

A. The Department of State Police shall develop and implement a uniform statewide database to collect all records of investigatory motor vehicle stops, all stop-and-frisks of a person based on reasonable suspicion, and other investigatory detentions that do not result in an arrest or the issuance of a summons, records of complaints alleging the use of excessive force, and data and information submitted by law-enforcement agencies pursuant to §§ [15.2-1609.10](#), [15.2-1722.1](#), and [52-30.2](#). The Department of State Police shall provide the Department of Criminal Justice Services with secure remote access to the database for the purposes of analyzing such data as required by subsection A of § [9.1-192](#).

B. The Department of State Police shall promulgate regulations governing the operation and maintenance of the database.

2020, c. [1165](#); 2020 Sp. Sess. I, c. [37](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

§ 52-30.4. Reporting of state and local law-enforcement agencies required.

All state and local law-enforcement agencies shall collect the data specified in subsections C and D of § [52-30.2](#), and any other data as may be specified by the Department of State Police, on forms developed by the Department of State Police and submit such data to the Department of State Police for inclusion in the Community Policing Reporting Database.

2020, c. [1165](#); 2020, Sp. Sess. I, c. [37](#).

The chapters of the acts of assembly referenced in the historical citation at the end of this section may not constitute a comprehensive list of such chapters and may exclude chapters whose provisions have expired.

2025 Code of Virginia

HB 1836 (Wiley) (Agency)	Driver training schools; operation and licensure. Amends various provisions related to the operation and licensure of driver training schools. The bill grants the Commissioner of the Department of Motor Vehicles increased oversight authority over such operations.
HB 1549/SB 750 (Green/Diggs)	Vehicle operation; unlicensed minor; penalty. Prohibits any person from knowingly authorizing the operation of a motor vehicle by a minor who he knows has no operator's license or learner's permit or who has a learner's permit but who he knows would operate such motor vehicle in

	<p>violation of certain limitations on operating a motor vehicle with a learner's permit. The bill makes it a Class 1 misdemeanor for any person who violates such provisions if such violation results in a motor vehicle accident that causes death or injury to any person if such violation does not otherwise constitute a felony. Existing law prohibits any person from knowingly authorizing the operation of a motor vehicle by any person who the authorizing person knows (i) has had his operator's license or permit suspended or revoked or (ii) has no operator's license or permit and has been previously convicted of driving without a license.</p>
SB 1416 (Ebbin)	<p>Drivers to stop for pedestrians; vulnerable road users; penalties. Makes it a traffic infraction if a driver operating a motor vehicle fails to stop for pedestrians and makes it a Class 1 misdemeanor if such traffic infraction results in the serious bodily injury or death of a vulnerable road user lawfully crossing a highway.</p>
HB 2036 (Bulova)	<p>Reckless driving; exhibition driving; penalties. Expands reckless driving to include exhibition driving, defined in the bill. The bill prohibits (i) slowing or stopping traffic for a race or exhibition driving; (ii) riding as a passenger on the hood or roof during a race or exhibition driving; or (iii) aiding or abetting exhibition driving. The bill establishes penalties for violations and establishes a process for impounding or immobilizing motor vehicles driven by persons arrested for exhibition driving.</p>
HB 2096 (Hope)	<p>Intelligent Speed Assistance Program established; penalty. Establishes the Intelligent Speed Assistance Program to be administered by the Commission on the Virginia Alcohol Safety Action Program. The bill authorizes enrollment in such Program as an alternative to suspending a person's driver's license upon such person's conviction of certain speed-related offenses. The bill has a delayed effective date of July 1, 2026.</p>
SB 1006 (Surovell)	<p>Driving while intoxicated; pre-conviction ignition interlock for certain offenders. Permits a first-time or second-time offender charged with driving while intoxicated to obtain an ignition interlock pre-conviction.</p>

HB 1836 (Wiley) (Agency)	Driver training schools; operation and licensure. Amends various provisions related to the operation and licensure of driver training schools. The bill grants the Commissioner of the Department of Motor Vehicles increased oversight authority over such operations.
HB 2205/SB 959 (Kilgore/Sturtevant) (Agency)	Department of Motor Vehicles; proof of financial responsibility in the future. Clarifies when a vehicle owner is required to furnish proof of financial responsibility or proof of financial responsibility in the future. The bill specifies the forms required when providing proof of financial responsibility in the future.
HB 2256 (Maldonado)	A. Any driver, and any other person at least 18 years of age and occupying <i>a</i> seat, of a motor vehicle equipped or required by the provisions of this title to be equipped with a safety belt system, consisting of lap belts, shoulder harnesses, combinations thereof or similar devices, shall wear the appropriate safety belt system at all times while the motor vehicle is in motion on any public highway.

FY 2026 Grant Funding by Subrecipient Project

Federal Funding Source	154 Transfer Funds-AL
Eligible Use of Funds/Project #	154AL-2026-56167-26167
Subrecipient	ROANOKE COUNTY

Project Description	Pedestrian & Bicycle - Selective Enforcement Efforts, Training/Travel, and/or Equipment
Federal Funds Amount	15,400.00
Planning/Administration Costs	No
Promised Project	No
Countermeasure Strategy	Enforcement
Federal Funding Source	BIL 405h Nonmotorized Safety
Eligible Use of Funds/Project #	BFHPE-2026-56080-26080
Subrecipient	ROANOKE CITY
Organization Type	Locality
Project Title	Walk and Roll to School Spring Safety Campaign
Project Description	The City of Roanoke 2026 Walk and Roll to School Spring Safety Campaign is aimed at improving the safety and well-being of nonmotorized residents with a focus on the importance of slowing down for the safety of the pedestrian and bicyclist. and addressing numerous DMV Safety Funding Priorities (Speeding, Pedestrian and Bicycle Safety) by reducing speeding and promoting safe transportation habits. Through an approach that builds on prior City of Roanoke safety campaigns (No Need to Speed, School Zone Safety, Keep Each Other Safe) this campaign seeks to create safer environments around schools, through education and outreach focused on increasing awareness of the importance of speed management for pedestrian and bicyclist safety. All City of Roanoke residents along with the nonmotorized residents will benefit from this safety campaign, and, by focusing on reducing speeding near schools and safety education, the ripples of the 2026 campaign will increase roadway safety for the nonmotorized users.
Federal Funds Amount	300,000.00
Planning/Administration Costs	No
Promised Project	Yes
Countermeasure Strategy	405h Nonmotorized Safety eligible use of funds public education and awareness program designed to inform motorist and nonmotorized users regarding nonmotorized user safety, including information relating to the importance of speed management to the safety of the nonmotorized road users. Uniform Guideline No. 14 Pedestrian and Bicycle safety communication program and outreach program

Federal Funding Source	BIL 405h Nonmotorized Safety
Eligible Use of Funds/Project #	BFHPE-2026-56091-26091
Subrecipient	NORTHERN VIRGINIA FAMILIES FOR SAFE STREETS
Organization Type	Nonprofit
Project Title	Pedestrian Street Safety Outreach Program - Stage 2
Project Description	This project will build on work from FY2025 to support pedestrian safety in Northern Virginia. Notable project tasks include updating Near Miss flyers, promoting Near Miss on buses and bus stops, increasing pedestrian education programs in schools and civic associations, and launching a major social media campaign.
Federal Funds Amount	62,500.00
Planning/Administration Costs	No
Promised Project	Yes
Countermeasure Strategy	Pedestrian Safety Countermeasures Communications and Outreach Data collection Pedestrian Gap Acceptance Training Uniform Guidelines for State Highway Safety Office Guideline 14 Communication Program/outreach/Evaluation

Eligible Use of Funds/Project #	BFHPE-2026-56305-26305
Subrecipient	METRO WASHINGTON COUNCIL OF GOV
Organization Type	Nonprofit
Project Title	Street Smart Pedestrian and Bicycle Safety Program
Project Description	Street Smart aims to reduce pedestrian and bicyclist fatalities and injuries in Virginia region by changing driver, pedestrian, and bicyclist behavior through public information and education.
Federal Funds Amount	263,262.00
Planning/Administration Costs	No
Promised Project	Yes
Countermeasure Strategy	Pedestrian Safety Countermeasures High-Visibility Enforcement at Pedestrian Crossings Communications and Outreach-mass media campaign
Federal Funding Source	BIL 405h Preventing Roadside Deaths 24-26
Eligible Use of Funds/Project #	BM12BPE-2026-56228-26228
Subrecipient	DRIVE SMART VIRGINIA
Organization Type	Nonprofit
Project Title	Preventing Roadside Deaths
Project Description	To educate the public about best safety practices when approaching vehicles and people on the side of the road, whether it is emergency vehicles or a disabled vehicle.
Federal Funds Amount	104,134.00

Planning/Administration Costs	No
Promised Project	No
Countermeasure Strategy	Mass Media Campaign and community education.
Federal Funding Source	SBIL 402
Eligible Use of Funds/Project #	SDD-2026-56096-26096
Subrecipient	VIRGINIA DEPARTMENT OF MOTOR VEHICLES
Organization Type	State
Project Title	Impaired Driving Program Coordination: Drugged, Drowsy and Distracted
Project Description	VA HSO Impaired driver coordinator focuses on drugged drowsy and distracted programs
Federal Funds Amount	36,006.00
Planning/Administration Costs	No
Promised Project	No
Countermeasure Strategy	Countermeasures that work, Drowsy driving and distracted and drugged driving

Federal Funding Source	SBIL 402
Eligible Use of Funds/Project #	SDD-2026-56277-26277
Subrecipient	HUNTER'S FUND
Organization Type	Nonprofit
Project Title	Hunter's Fund Safe Driving Program for Colleges and Universities in VA
Project Description	Focuses on college students about the dangers of distracted driving through awareness campaigns, workshops, and peer-to-peer discussions.
Federal Funds Amount	13,488.00
Planning/Administration Costs	No
Promised Project	No
Countermeasure Strategy	Community outreach

Federal Funding Source	SBIL 402
Eligible Use of Funds/Project #	SDD-2026-56308-26308
Subrecipient	SADD, INC.
Organization Type	Nonprofit
Project Title	Driving Into the Future: SADD Supporting Safe Decisions for Young Drivers
Project Description	Young driver project focused on reaching college aged audience by peer to peer and in person programming.
Federal Funds Amount	251,171.00

Planning/Administration Costs	No
Promised Project	No
Countermeasure Strategy	Provide technological support to prevent distracted driving with young drivers.
Federal Funding Source	SBIL 402
Eligible Use of Funds/Project #	SMC-2026-56165-26165
Subrecipient	RICHMOND AMBULANCE AUTHORITY
Organization Type	Nonprofit
