

vPIC

NHTSA'S Product Information Catalog and Vehicle Listing

Using vPIC, NHTSA's online Product Information Catalog and Vehicle Listing—

- Manufacturers can easily submit CFR-required information to NHTSA;
- Anyone can view manufacturer submissions or research vehicle information for Model Years 1995 forward; and
- Developers and programmers can integrate vPIC data with their own systems, an ideal solution for Federal and State agencies.

Learn more and get started at <http://vpic.nhtsa.dot.gov>.

SUBMIT MANUFACTURER FORMS

Submitting forms to NHTSA, as required under CFR 49 Parts 551–574, just got easier. Instead of mailing submissions to NHTSA, manufacturers can now complete and submit forms online using the **Manufacturer Portal**.

VIEW MANUFACTURER SUBMISSIONS

NHTSA's **Manufacturer Information Database (MID)** lets anyone view manufacturer submissions, including VIN and manufacturer information under Parts 565 and 566, World Manufacturer Identifiers, and equipment plant-related information.

RESEARCH VEHICLE INFORMATION

Using our new **VIN Decoder**, anyone can decode Vehicle Identification Numbers and get vehicle specifications based on manufacturer submissions. Great for conducting vehicle research on anything from engine types to safety features.

INTEGRATE DATA

Our **Application Programming Interface (API)** lets developers and programmers integrate vPIC data with their own systems, improving consistency.
