Subject Extension of due date for submission of response to PE IR: ES350 All weather floor mat

Gentlemen,

As I told you in the meeting held this Tuesday, TMA-DC negotiated with NHTSA about the extension of the due date for the submission of our response to the NHTSA's information request concerning the ES350 all weather floor mat on grounds of one week delay in receiving the information request letter and one week holiday in TMC.

As a result, NHTSA granted our request for a two-week extension of the due date and, therefore, now new due date is June 6. We have to submit a full response to NHTSA by that day. (no partial response will not be allowed.)

If you have any question, please let me know.

Best regards,

Mitch Kato  
J-CQE QL
