Subject Question for you

Ed,

Got a question for you. NHTSA is evaluating some complaints on the ES350, regarding the cruise control and

sudden acceleration. It is not an investigation, they just have some questions. One of the questions regards the take rate on the laser cruise control. It is bundled with Pre-Crash. Are we special order only on pre-Crash? What is the install rate on the ES350 for Pre-Crash? Not many, I'm guessing. Thanks for your help on this one.

In other news, I was at the Tundra frontal NCAP test on Friday. The vehicle should be getting a 4/4 star rating. However, TMC wants to investigate the seatbelts though, as they were expecting a 5/5....
