**Re: 49CFR Part 565 Vehicle Identification Number**

We have received an assigned world manufacturer identifier code that will be stamped accordingly on all new manufactured trailers.

The completed VIN will be a combination of 17 letters and numbers that identify a given unit.

The following formula will explain the code:

- The first THREE digits are common
  - "1A9"- Identified U.S. manufacturer of less than 100 units per year
- FOURTH digit represents TYPE OF TRAILER
  - "E" - Load Divider Jeep
  - "F" - Flat Deck Trailer
  - "H"- Low Bed Trailer
  - "N"- Dolly
- FIFTH digit identifies CONFIGURATION
  - "A"- Lead B-Train Trailer
  - "B"- Rear B-Train Trailer
  - "C"- Semi-Trailer
  - "D"- Pup-Trailer, Single Axle Front Dolly
  - "E"- Pup-Trailer, Tandem Axle Front Dolly
  - "F"- Lead Semi-Trailer "A" Train
- SIXTH digit identifies CONSTRUCTION, excluding running gear
  - "A"- All Aluminum
  - "B"- Aluminum/Steel
  - "C"- Steel
- SEVENTH digit represents NUMBER OF AXLES, excluding front dolly
  - "1"- Single Rear Axle
  - "2"- Tandem Rear Axle
  - "3"- Tri Axle
  - "4"- Quad Axle
- EIGHTH digit identifies LENGTH of unit
  - This is a letter designation as per Table form
- NINTH digit is a check digit through a calculation of all letter and number values

0001

- TENTH digit is YEAR of manufacturing
  - “W”- 1998
  - “X.”- 1999
  - “Y” - 2000
  - “1” - 2001
  - “2” - 2002
  - “3” - 2003

  - “5” - 2005
  - “6” - 2006
  - “7” - 2007
  - “8” - 2008
  - “9” - 2009
  - “A” - 2010
  - “B” - 2011
  - “C” - 2012
  - “D” - 2013
  
- ELEVENTH digit is PLANT LOCATION, (Delta Jct. Alaska, #1)
  
- NEXT THREE digits are common
  - “529” identifies manufacturers plant number and Almax Holding Ltd. identification number 529 (trailers)
  - “530” identifies manufacturers plant number and Almax Holding Ltd. identification number 530 (converter dollies)
  
- LAST THREE digits are progressive number of units produced in given years starting at 001

Additions will be made up as we go along.
