Re: WMI & Unique ID Coding for Derbi Motorbike

1 pg.

Dear Mr. Younger

The Derbi Motorcycle Company ("Derbi") is in the process of finalizing FMVSS compliance on its new products. We hope, shortly, to begin distribution/sale of product to our authorized dealers. Product brochures are enclosed for your information. Please note that all these Derbi motorbikes and scooters will have 49cc engines, and will be of limited speed capability, which should exempt them from current emissions requirements. They will be fully FMVSS compliant as "motor - driven cycles", although.

Derbi motorbikes and scooters are manufactured in Spain by Derbi Motorcycle Company.

Derbi, who has, in the past, manufactured motorcycles, scooters, and mopeds for sale in the U.S., has already been assigned the World Manufacturers Identifier (WMI) code of VTH (insert 3 digit WMI).

For the 1999 and 2000 model years, Derbi will have several models available. We intend to use the unique model identifier codes shown below in the 4th through 8th positions of Derbi motorbike and scooter Vehicle Identification Numbers.

MODEL	4TH DIGIT	5TH DIGIT	6TH DIGIT	7TH DIGIT	8TH DIGIT
Paddock	H	U	N	T	A
Hunter	H	U	N	T	E
GPR50R	G	P	R	R	A
Senda	S	E	N	D	A
Predator	P	R	E	D	A
Variant	V	R	N	9	5
