In Re: VIN Number Identifications

Dear Mr. Coleman:

The following is a break down of what each position represents for our VIN numbers. We have 2 styles of trailers at this time which I am enclosing a sample of each check digit calculation worksheet.

- Positions 1-3: 1M9 - SAE assigned as our WMI
- Position 4: G - A Gooseneck/Rectangular Steel Frame Trailer and  
P - A Pintel Hook/Formed Channel Trailer
- Position 5: E - Extendable
- Positions 6,7: 48 - Length of trailer—Extendable from 48 feet to 74 feet
- Position 8: 3- Trailer has 3 axles
- Position 9: 9 for Gooseneck Trlr. and  
0 for Pintel Hook Trlr. - Check digit
- Position 10: X - Model Year 1999
- Position 11: F - Plant Location is in Fulton, Missouri
- Position 12-14: 502 - SAE assigned for our WMI
- Position 15-17: Our sequential number system

If you have any questions, please contact me at the above phone number. I am also faxing a copy of the letter on our Manufacturer Identification Information (49 CFR Part 566).

Sincerely,

*Deborah McCormick*
