Attention: VIN Coordinator, NSA-30 Room 611

Dear VIN Coordinator,

Enclosed please find the information necessary to decipher the WestMor Industries LLC VIN scheme.

1	2	3	4	5	6	7	8	9	10	11	12	13	14	15	16	17	=	Character Position
1	W	9	P	U	5	0	7	8	T	M	3	5	0	1	0	1	=	VIN Character

Character positions 1, 2 and 3 are WestMor's Work Manufacturer Identifier assignment from SAE (1, W, 9).

Character position 4 is our trailer type. In all cases this character will be P for pressure trailer. Character position 5 is our series identifier (U), see the attached table 1, this denotes the trailer gallons.

Character positions 6 and 7 (5 0) indicate the length of the trailer in feet while position 8 (7) indicates the number of axles.

Character position 9 (8) is the check digit

Character position 10 (T) denotes the model year, see table 2.

Character position 11 (M) indicates the plant manufacture, in WestMor's case this will always be M for Morris, MN.

Character positions 12, 13, and 14 (3 5 0) were assigned by SAE as WestMor's does not manufacture more than 500 trailers per year.

Character positions 15, 16, and 17 (1 0 1) indicates the production sequence. This number will follow sequentially (i.e. 101, 102, 103, etc.)

If there are any questions or comments please contact me at 320-589-2100.

Sincerely,

Lonnie Rohloff
Engineering Manager
