**RIBBON SOURCES FOR DOT MATRIX PRINTERS OR TYPEWRITER RIBBONS**

An important part of a successfully imprinted piece is the selection of the correct ribbon to be used. Clear crisp alpha-numeric and adequate ink dry time are the yardsticks by which we measure ribbon compatibility. Two other important factors to consider are: U.V. light fade and scuff resistance. We do, however, recommend customer testing under actual use conditions. Although many black fabric ribbons might work, UL & CSA approval is based on a complete systems approach and we would therefore suggest contacting the following company:

Mid City Columbia  
P.O. Box 413  
Ardmore, PA 1900
