ORIGINAL

Dear Sir:

We have recently been assigned six-digits of the Vehicle Identification Number by SAE of Warrendale, Pennsylvania. After thoroughly reviewing the information given to us by them on "Federal Safety Standards, MVSS 115," we have devised a number for our company, "Martin Camper."

Attached you will find out how exactly one can decipher the characters contained in the VIN. This also has been submitted to SAE for their reference.

Please review this and let us know the outcome as soon as possible. Thank you for your consideration.

Sincerely Yours,

Launa L. Spurgeon
