ATTN: VIN Coordinator

Dear Sir:

Enclosed please find the VIN scheme for M&G Tankers Limited of England. This VIN including the manufacturers' identifier has been obtained through the British Standards Institute and is being submitted to your Office in accordance with 49 CFR 565 "Vehicle Identification Number Content Requirement".

The trailers in question are fiber reinforced plastic (FRP) tank semi trailers suitable for transporting a variety of hazardous flammable products. These trailers are manufactured, marked and sold under DOT Exemption #DOT-E 9180.

Unfortunately, the enclosed information was unavailable for submission within the 60 day guideline. The VIN was only released by the British Standards Institute at the end of last week. The first of the trailers is now in the USA and will be featured at a trade show later this month. It will enter full service at the end of September.

Once a copy of Title 49 has been received from the Superintendent of Documents M&G will register with the DOT as a manufacturer as per 49 CFR 566 as well as certify conformance with 49 CFR 567 "Certification". An agent for service of process will also be filed at that time.

Yours sincerely,

D.W. Panzer
