Attn: VIN Coordinator

Gentlemen:

Please be advised that we have revised the VIS section of the VIN number to the following:

Digit 1 : Model Year

Digit 2 : Plant of manufacture where
Saginaw, Tx = 1;
Rhome, Tx = 2 (Revision)

SAE assigned a WMI code 1J9 with 3rd, 4th and 5th characters of the VIS section to be 001. This left us with the 6th, 7th and 8th characters for sequential production numbers.

We are approaching number 999 in the production sequence. What procedure would we follow for a change in the 5th character of the VIS section?

Sincerely yours,

J & L TANK, INC.

Allan Nilsson, Chief Engineer
