Gentlemen:

We are enclosing herewith our 1986 Vehicle Identification Numbers for your records and review as required by FMVSS regulation #565.5.

The only change in the decipherable code information is in the sixth digit position. The code digit "2" will designate our new two door convertible line. All other information is as originally set-up by Avanti Motor Corporation with its original submission in 1980.

Should you desire any additional clarification, please contact us at your convenience.

Yours very truly,

Robert E. Smith
