VIN Coordinator
400 7th Street S.W.
Washington D.C. 20590

Dear Ms Gardner

Please find enclosed the sample vehicle identification numbers for each model of trailer we are marketing in the United States.

As you can see, I have attached an original invoice for each kit where possible so you can see where the last three digits derive from and I have shown exactly how the final VIN number has been calculated. I hope that this is clear enough and that the process being used is correct.

If you require any further information, please do not hesitate to contact me.

Yours sincerely
For Rice of Leicestershire Limited.

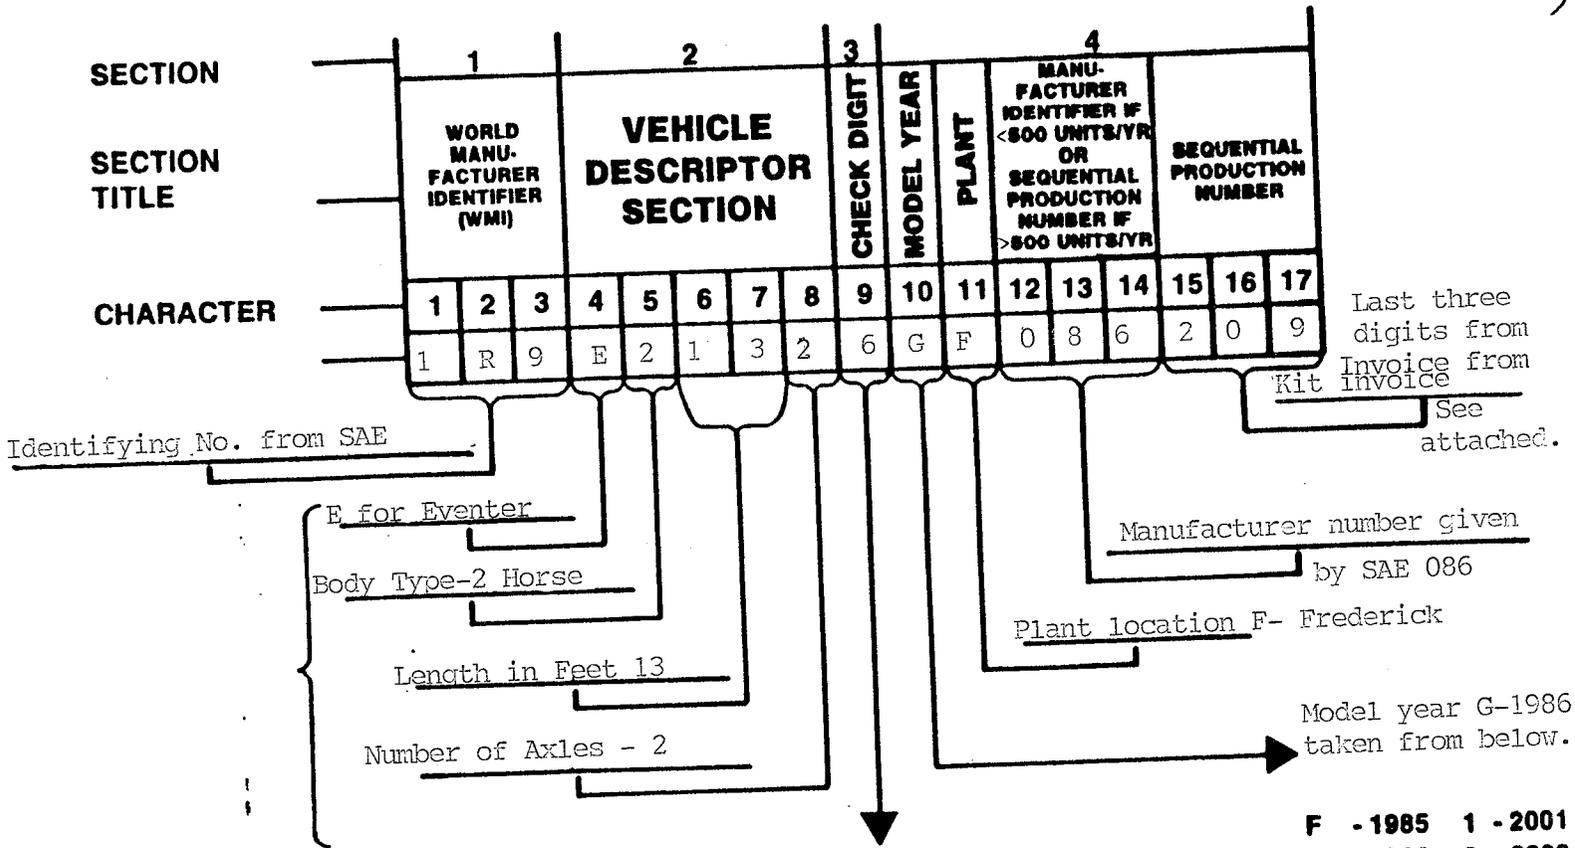

D.L. Slennett
Company Secretary.

Encs.,

VEHICLE IDENTIFICATION NUMBER

VEHICLE TYPE: Rice Horsebox Trailer. The Eventer

EXAMPLE VIN Number

calculated from Check Digit Sheet

Calculated as follows.

1 R 9 E 2 1 3 2 6 G F 0 8 6 2 0 9
 1 9 9 5 2 1 3 2 7 6 0 8 6 2 0 9
 8 7 6 5 4 3 2 10 9 8 7 6 5 4 3 2
 8.63.54.25.8.3.6.20. 63.48.0.48.30.8.0.18.added together = 402

402 ÷ 11 = 36.54 = 6 on check digit sheet .

Dear Mr Rutland

Please find enclosed brochures on the range of trailers we propose to market in the united States, together with sample vehicle identification numbers and an example of one of our VIN plates.

We have been in touch with the SAE in Warrendale, Pennsylvania, they have allocated the appropriate codes, but there has been a delay in us obtaining certificates of origin and VIN plates.

May we take this opportunity to thank you for your help in identifying the appropriate requirements and we apologise for the delay in notifying you of our activities but this has been entirely due to circumstances beyond our control.

Yours sincerely
For Rice of Leicestershire Limited.

C.D. Slennett
Managing Director.

by Rice of Leicestershire

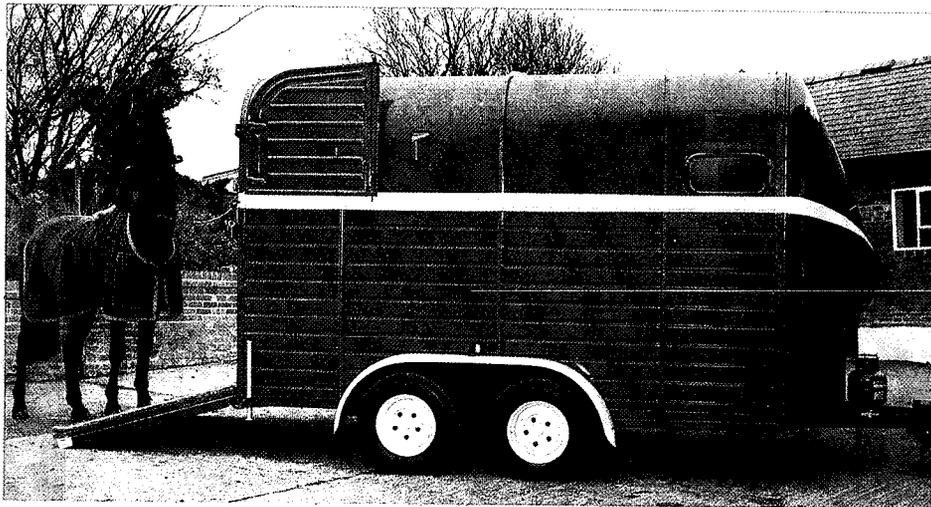

UNIQUE TRAILER WITH PRIVILEGED NAME

Rice Trailers are proud of their unique trailer with hitherto unknown features. His Grace, the late Duke of Beaufort, formally gave his consent for the new model to bear that famous equestrian name, **THE BADMINTON**. This is a privilege enjoyed by no other trailer manufacturer in the world. And indeed, this new model more than lives up to its prestigious associations. It fills a much needed gap in the market, inasmuch as it is specifically designed for horse lovers going to **one, two and three day shows or events**. It solves problems for both horses and riders, for apart from offering the very best transport facilities for the animals concerned, there is also **living accommodation for the team**.

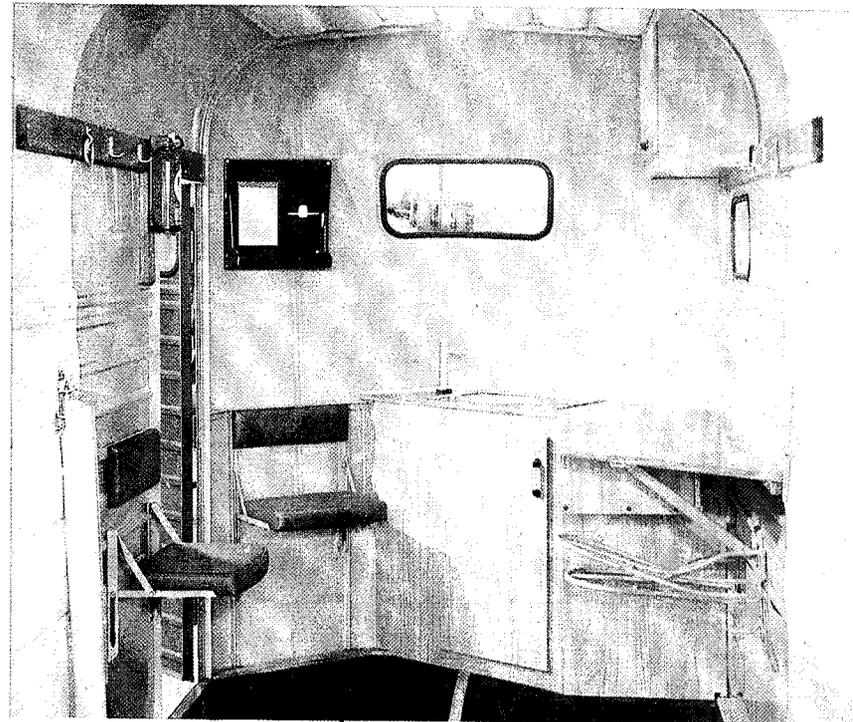

Examining in more detail the extra advantages over conventional boxes, specific highlights include the fact that the **Badminton** is the only production trailer of this type being manufactured in the United Kingdom; it bears the name **Rice of Leicestershire**, which is world renowned for both reliability and expertise: and the company's engineering skills put them in the fore-front of scientific advance. They have utilised the knowledge necessary to produce an aerodynamically efficient front dome, unique in the industry. **This can give up to 20% improvement in fuel consumption** compared with flat fronted trailers of similar weight.

Other important considerations are that there is no need to buy a very expensive motorised horsebox, nor to **tax, insure, maintain, or MOT**. In addition, no **HGV licence** is required.

The independence and freedom the **Badminton** bestows on its owner is a boon. It means that the box can be left on site, releasing the towing vehicle for other duties. **Locking rear doors** are an added security feature. They also ensure privacy whilst changing.

More down-to-earth considerations include the **saving of hotel and accommodation bills**; the benefit of **in-trailer cooking and washing facilities**, plus the addition of a **toilet if required**. The **Badminton** also serves as a **dressing room** and **refreshment area** during long waiting periods between events.

The **Badminton** is truly all things to all riders. As far as the ladies are concerned, trials have proved it to be extremely popular with the fair sex. Often they prefer to tow a trailer rather than drive a horsebox. It is more aesthetic, insofar as it does not occupy as much room when parked at home, or at an event. It also provides an **instant wash and change facility** for looking one's best.

A boon to both sexes are the storage facilities for saddles, tack and grooming equipment. This frees the towing vehicle of clutter.

Hand Built Horse

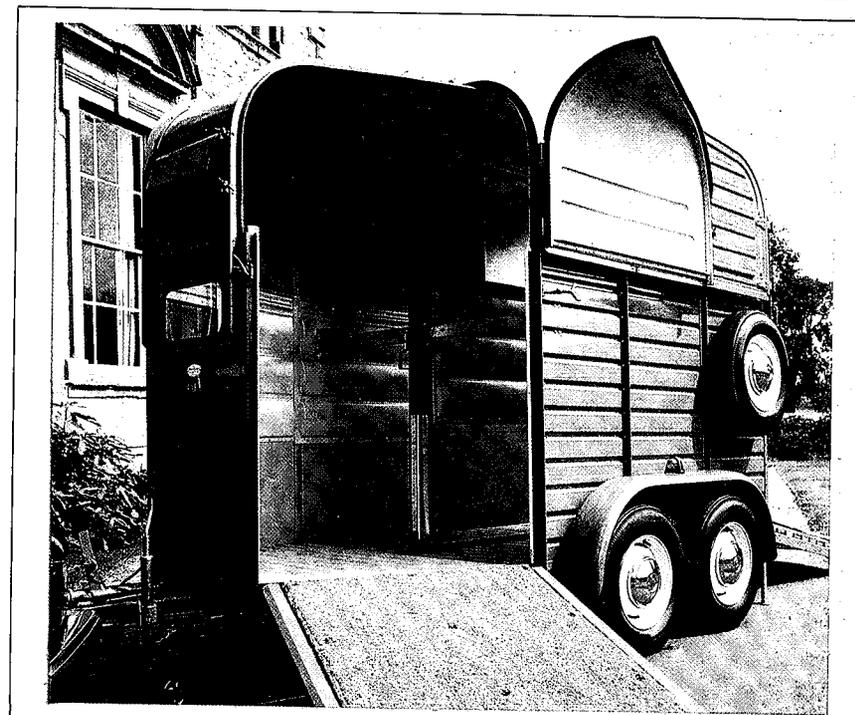

The name Rice on your trailer is in itself a statement of quality. It is recognised throughout the world, wherever equestrians meet, as being the leading brand name, symbolising comfort, and reliability. Indeed, Rice Trailers are top of their class, whichever model you choose.

As an example of Rice versatility, we feature the BEAUFORT DOUBLE a de-luxe horsebox trailer of advanced and proven design, illustrated in the photograph. It is for the connoisseur for whom only the best is good enough. This is reflected in the specification, which includes such features as a de-luxe hardwood frame partition, generous roof and side padding, full length steel kicking strips, a double transversally laid timber floor, aluminium rear doors, quality ramp mats and ramp lifting aids all standard. If it's the very best you want, then it must be RICE.

50 Years of experience have proved that Rice Trailers are easier and smoother to tow - individually tailored suspensions mean less stress for the driver and comfort and confidence for your horses.

The New Farmers Hunt

Hand Built Home

The New Farmers Hunt

Hand Built Horses

The name Rice on your trailer is in itself a statement of excellence. It is recognised throughout the world, wherever equestrians meet, as being the leading brand name, symbolising comfort, and reliability. Indeed, Rice Trailers are top of their class, whichever model you choose.

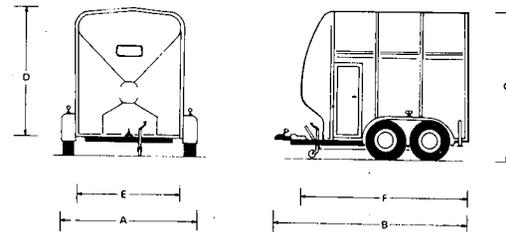

The Farmers Hunt, one of the best sellers in our range for over thirty years, has now been updated and given a completely new look, with an aerodynamically styled front, which brings it into line with the Eventer, which has proved so popular and the new Badminton, which is already a winner.

The new style front reduces wind resistance and makes towing much easier, thus saving up to 20% on fuel costs. It also gives increased inside length without adding to the weight.

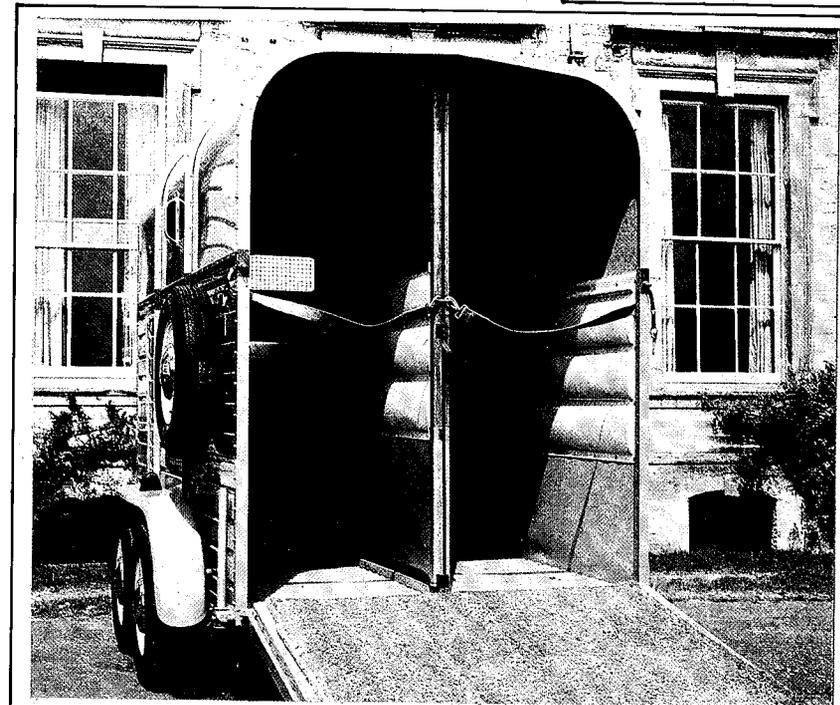

The New Farmers Hunt is the all purpose trailer, well known by the farming community and tailored to their needs. Suitable for carrying two 16.2 hunters at least, in its standard form. It can also be fitted with 7' 6" Headroom.

The new improved Farmers Hunt now offers the very latest in modern design and cost savings, together with its long proven strength, reliability and stability.

50 years of experience have proved that Rice Trailers are easier and smoother to tow - individually tailored suspensions mean less stress for the driver and comfort and confidence for your horses.

The Eventer

The name Rice on your Trailer is in itself a statement of quality. It is recognised throughout the world, wherever equestrians meet, as being the leading brand name, symbolising comfort, and reliability. Indeed, Rice Trailers are top of their class, whichever model you choose.

The RICE EVENTER is the ultimate in lightweight trailers, suprisingly popular everywhere as the ideal transport for the light type of horse. It will accomodate two horses of around 16 hands, with a maximum weight of 16 hundredweight (813 kg).

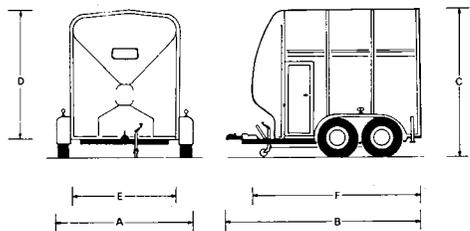

The RICE EVENTER is **aerodynamically styled to reduce wind resistance**. The immediate advantage is that it is a very easy trailer to tow and does not require a high power vehicle. It can result in **fuel savings of over 20%** compared with traditional models of similar weights.

Here is a lightweight trailer with everything to offer: modern design, hand-built construction; exceptional value for money; fuel saving; an easy-riding trailer with the basic structure of a steel chassis and frame; GRP front; single hardwood floor; metal alloy rust proof body panels and aluminium roof; breast bar; partition; breaching straps; ramp mat and ramp lifting aid; interior light and a jockey wheel are all standard features.

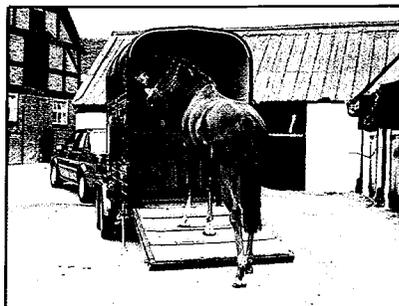

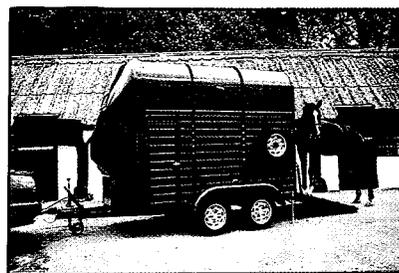

50 Years of experience have proved that Rice Trailers are easier and smoother to tow - individually tailored suspensions mean less stress for the driver and comfort and confidence for your horses.

Featured Items As Standard

- ★ Double Floor
- ★ Ramp Lifter Springs Rear
- ★ Full Length Steel Kicking Strip (Not Plywood)
- ★ Front Window
- ★ Auto Reverse
- ★ Side Ventilators
- ★ Moveable Partition

The Beaufort Treble

Hand Built Ho

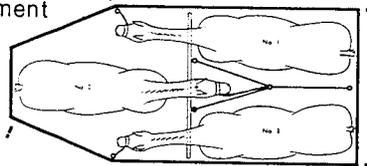

The Beaufort Treble

Hand Built Ho

The name Rice on your trailer is in itself an indication of taste and quality. It is recognised throughout the world, wherever equestrians meet, as being the leading brand name, symbolising comfort, and reliability. Indeed, Rice Trailers are top of their class, whichever model you choose.

The BEAUFORT TREBLE, introduced and patented by Rice some thirty years ago is a trailer with the two and one loading arrangement as illustrated in the sketch. It is the perfect answer for carrying three horses (two at 16 hands and one at 15 hands) in comfort and safety, whilst reducing the overall length to only 13' 8". By closing the front of the partition and repositioning the breast bar, this deluxe horsebox trailer can then be used as a conventional two horse trailer.

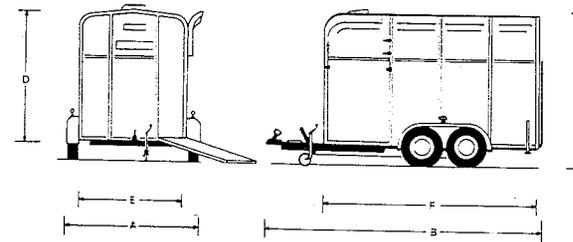

The BEAUFORT TREBLE has been built to the high specifications demanded of all Rice Trailers and its features are similar to those of the Beaufort Double. 50 Years of experience have proved that Rice Trailers are easier and smoother to tow - individually tailored suspensions means less stress for the driver and comfort and confidence for your horses.
