Attn: VIN Coordinator

Dear Sir:

We have been provided by the Society of Automotive Engineers information regarding the assignment of a World Manufacturer Identifier Code for each of a series of Vacuum Assist Weight Drop (VAWD) trailers that we will be manufacturing. On the basis of our projected production of these vehicles for the remainder of 1984, we would like to submit the first four VIN's as follows:

- A) 1E9 (assigned by SAE) V (VAWD type vehicle) A (first series) 07 (7 feet long) 1 (one axle) 5 (check code) E (1984) D (plant location, Delta) 052 (assigned by SAE) 001 (sequence number).
- B) 1E9VA0717ED052002
- C) 1E9VA0719ED052003
- D) 1E9 (assigned by SAE) V (VAWD type vehicle) B (second series) 07 (7 feet long) 1 (one axle) 4 (check code) E (1984) D (plant location, Delta) 052 (assigned) 004 (sequence number).

If there is any further information you need for clarification, please don't hesitate to contact me.

Sincerely,

Sally R. Swain
