In reference to our previous letter dated June 16, 1987, below is a correction in VIN codes assigned to first (2) production units. There was a check-digit calculation error in previously assigned VIN numbers for 3298-1 and 3298-2.

VIN should read:

<u>ISC JOB #</u>	<u>VIN</u>
3298-1	1J9-SH242-1-H1056001
3298-2	1J9-SH242-3-H1056002

These are class "H" Hot Stick Trailers manufactured for a utility company.

If there are any questions please call.
