Attention: VIN Coordinator

Reference: FMVSS 115, Federal Register, Thursday, March 22, 1979, Docket
1-22, Notice 8

Gentlemen:

Blue Bird wishes to advise you that the last 6 digits of the Blue Bird VIN which is the production sequence number will be revised. This has been the body sequence number in the past and will now become the Blue Bird chassis sequence number effective July, 1988. The number will change from a number in the 83,000's to a number in the 31,000's. Blue Bird will still be able to access production files in the future as we have done in the past.

We also wish to make the following revisions.

1. First digit - add 2 = Canada

Thank you.

Sincerely,

Thomas D. Turner
