Attention: VIN Coordinator

Dear VIN Coordinator,

We at L & S Line Mfg. Co., Inc. are in the process of manufacturing Car Haulers, Flat Bed and Gooseneck Trailers. The Flat Bed and Gooseneck Trailers will be some time off. As of right now, we are manufacturing Car Haulers.

Here is a sample of our VIN that we wish to use for our Car Haulers.

1L9CH0312J1097001

For Flat Bed Trailers and Gooseneck Trailers, we will only be changing positions, 4,5,6,7, and 8, to correspond with the trailer type, length, and axles. Positions 15, 16, and 17 will change with every trailer.

If this is not satisfactory, please let us know.

Sincerely,

Karen Griffin
