ATT: VIN Coordinator  
REF: TOMOS Mopeds

From our TOMOS factory we received an amendment on the third page of Standard Tos 0.058. The change is in the VIN number describing the horsepower on the rear wheel of the moped. The change in the number is from 0 to 3, with which producers will be covering a whole range of their existing and future mopeds.

Sincerely,  
*B Beink for S. Razen*

3.2.3 Engine Type  
One digit is used to mark engine type. To single cylinder, two-stroke engine number 1 is applied.

3.2.4 Engine net brake horse power on wheel  
Characters to define engine net brake horse power on wheel are set forth in the following table:

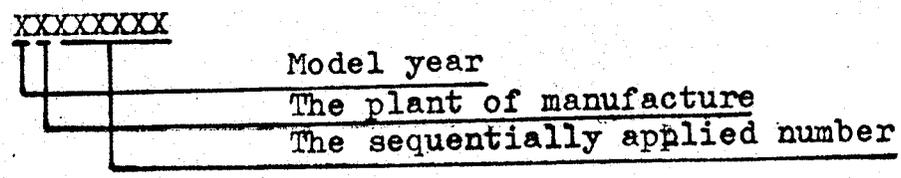

Table 2 - characters for engine net brake horse power on wheel

Character	Engine net horse power
0	less than 1
1	1 - 1,5
2	1,5- 2
3	more than 2

3.3 The third section of VIN for the U.S.A. is a combination of characters (assigned by the manufacturer) to distinguish one motor driven cycle from another which in combination with the second section of VIN ensures that any two motor driven cycles manufactured within a 30-year period shall not bear one and the same marking.

The section consists of eight (8) characters standing for the model year, the plant of manufacture and the number sequentially assigned by the manufacturer.

The characters for the third section of VIN for the U.S.A. are arranged as follows:

3.3.1 Model year  
For the model year the characters of the following table are used:

Table 3 - characters for the model year

Year	Char.	Year	Char.	Year	Char.	Year	Char.
1971	1	1981	B	1991	M	2001	1
1972	2	1982	C	1992	N	2002	2
1973	3	1983	D	1993	P	2003	3
1974	4	1984	E	1994	R	2004	4
1975	5	1985	F	1995	S	2005	5
1976	6	1986	G	1996	T	2006	6
1977	7	1987	H	1997	V	2007	7
1978	8	1988	J	1998	W	2008	8
1979	9	1989	K	1999	X	2009	9
1980	A	1990	L	2000	Y	2010	A
