ORIGINAL 1 p9

Dear Ms. Gardner:

As I advised you on the telephone today, we wish to make an amendment to our Vehicle Identification Number configuration. Section 2, Character 5 should now read as follows:

"4" is used here to identify the Series Wood-Mizer® LT40 Sawmill. Other Series are LT30 which would be identified with the number "3", LT20 which would be identified with the number "2", and **LT40HD (Hydraulic) which would be identified with the number "5."**

The additional text is shown in boldface above. All other sections and characters remain as shown in the original deciphering information sheet.

Sincerely yours,

Lois McKuhen  
Administrative Assistant to  
Jeffrey J. Laskowski  
Executive Vice President
