ORIGINAL P9

To Whom It May Concern:

This company, a California Corporation located at the above address, will produce utility, luggage and camping trailers with the following VIN coding:

The first section contains the assigned identifier 465.

The second section is as follows:

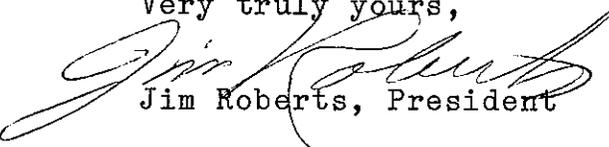

1. The 4th character is the type of trailer. "T" means models with tailgates; "A" is for models without tailgates.
2. The 5th character is the series/body type. "S" means standard with nosecone, "H" means heavy duty, "W" means a wide model, "C" is for a camping model, and "D" means standard without a nosecone.
3. The 6th and 7th characters are the length in feet.
4. The 8th character designates the number of axles.

The third section contains the 9th character which is the check digit.

The fourth section is as follows:

1. The 10th character is the model year.
2. The 11th character is the plant location. This will be "H" for Huntington Park, which will be the only plant at present.
3. The 12th through the 17th characters will be the sequential production number.

Very truly yours,

Jim Roberts, President
