Atten: VIN Coordinator

Attatched is a copy of a letter I sent to you April 4, 1989. The State of Oregon does not in any way enforce the 17 digit numbers & is the reason for our lack of knowledge on this matter. I contacted the techical support division of the DMV in Salem, they advised me that we not change our first two VIN numbers which are already on our first trailers we sold. So the numbers on the trailers now are different from what should of been issued. They are as follows:

| | |
|--------------|-------------------|
| On Trailers: | Should Be: |
| BDOH001 | 1R9BC3222JA144001 |
| BDOH002 | 1R9BC322XJA144002 |

In the future the trailers will have their proper 17 digits on our manufactures label. Thank you for your patience.

Sincerely,

Betsy Harshman

ATTEN: VIN Coordinator

After first speaking to Ken Rutland on March 3, 1989 he informed me to contact the SAE and also to wait for further information from you to set up our VIN numbers. Prior to this, we had no knowledge that there was such a thing as a 17 digit VIN number, California Port of Entry questioned us about this when we tried to permit a load there.

We have all ready issued 4 VIN numbers following the criteria you sent me. They are as follows:

1R9BC3222JA144001

1R9BC322XJA144002

1R9LB2024KA144003

1R9GT2629KA144004

Please contact me if you have any suggestions or questions, this is all new to me and I feel a little overwhelmed with the whole process.

Sincerely,

Betsy Harshman
