Attention: VIN Coordinator

Gentlemen:

In compliance with §565.5 49 CFR Ch. V (10-1-87), please note:

My World Manufacturer Identifier (WMI) Code as assigned by SAE is 1E9 with the third, fourth and fifth characters of the Vehicle Indicator Section as 088. In Section Two, the first character will denote the line of the car, in the case of the Evans Series I an S will be used to mean Series. The second character of Section Two will denote the series, for example, A will be used to indicate Series I, B Series II, etc. The third character of Section Two will be 3 denoting the coupe body. The fourth character will denote engine, 1 being used to denote the 350 cubic inch pushrod Corvette engine by General Motors. The fifth character of Section Two will denote the restraint system: N for non-passive, P for passive, A for airbags (driver and passenger airbags will be used on all airbag equipped cars.)

The Gross Vehicle Weight Rating Class is A.

Very truly yours,

John R. Evans

John R. Evans
