3 pg.

Gentlemen:

Pursuant to regulations, we are submitting the following information with respect to the Vehicle Identification Number to be affixed to trailers manufactured by our company. The number of the first such trailer will be 1A9SS1624KC185001. This number was derived as follows:

1. Positions 1-3 were assigned by SAE and a copy of their letter is attached.
2. Position 4 "S" represents a specialty trailer.
3. Position 5 is again "S", representing our standard series.
4. Positions 6 and 7 are the length of the trailer in feet.
5. Position 8 is the number of axles.
6. Position 9 is the check digit.
7. Position 10 represents the year (1989) of manufacture.
8. Position 11 "C" stands for Rt. 49 South, Cissna Park, Illinois, our only manufacturing plant.
9. Positions 12 through 14 are again assigned to us by SAE.
10. Positions 15 through 17 represent the sequential production number for each year.

I believe these designations have been correctly determined.

We have experienced some confusion over the use of these numbers and we therefore ask that the sixty day prior notice to you be waived. Should there be a problem, you may contact me at (815) 457-2175.

Very truly yours,

Arthur G. Feller
