RE: 17 Digit VIN Coding

The following is the coding on our vehicle identification number:  
First section, position 1 through 3 will be 1S9. The second section, position four will be type of trailer (F for flatbed, G for pup, P for pole, V for van, U for utility and R for refuse); position 5 will be series (S for standard and P for special); position 6 and 7 will be the overall length in feet; position 8 will be the number of axles. The third section, position 9 will be the check digit. The fourth section, position 10 will be the model year; position 11 will indicate the plant where the trailer is manufactured (S for Sioux Falls, W for Watertown and R for Rapid City); position 12, 13, and 14 will be 317; position 15, 16, and 17 will be the sequence number.

If you have any further questions, please call me at our Sioux Falls office.

Sincerely,

Liz Navratil  
Secretary/Treasurer
