Attention VIN Coordinator:

3 pp.

Enclosed is the sample of our VIN for a 12 foot, 2 axle, flatbed trailer with the information necessary to decipher the characters. We were told to send this sample to you to make sure we knew how to figure it out. In the instructions it says we need to wait 60 days before using this coding system, is this correct? Do we just wait to hear from you as to when we start using it? Please let us know if we need to do anything else.

Thank you,

John Jardine
