ATTN: VIN COORDINATOR

Dear Sir/Madam,

As per the United States Code of Federal Regulations Volume 49 Part 565.5, Westward Industries Ltd. is submitting the information necessary to decipher the characters in its VIN's.

Westward Industries Ltd. manufactures a three-wheeled motorcycle used for police and meter maid activities. This vehicle is called the GO-4 P35. (Data sheet enclosed).

The GO-4 P35 VIN information is as follows:

1. Characters 1, 2 & 3: 2W9, as assigned by the Motor Vehicle Manufacturer's Association. (Letter enclosed).
2. Character 4: Type of cycle: (M) for motorcycle.
3. Character 5: Type of GO-4: (P) for police.
4. Character 6: Type of engine: (K) for Kia J38R.
5. Characters 7 & 8: Net brake horse power: 64.
6. Character 9: Check digit.
7. Character 10: Vehicle model year: (M) for 1991 (from tables).
8. Character 11: Plant of manufacture: (P) for Portage La Prairie or (C) for Cypress River.
9. Characters 12, 13 & 14: O44, as assigned by the Motor Vehicle Manufacturers Association.

...2

MANUFACTURER OF GO-4 UTILITY VEHICLES

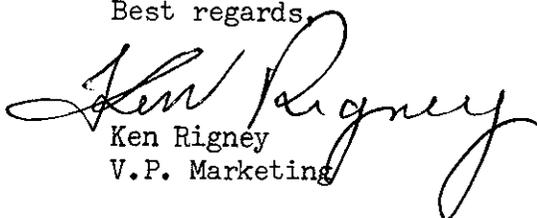

10. Characters 15, 16 & 17: The numbers sequentially assigned by the manufacturer in the production process. (150) first GO-4 produced, (151) second GO-4 produced, etc.

SAMPLE VIN:

2W9MPK643MPO44152

We hope this information is sufficient. Please do not hesitate to contact us at the Marketing and Purchasing office (address above).

Best regards,

Ken Rigney

2.0 Vehicle Description

Wouldn't it be nice if a company actually listened to the needs of the marketplace and built a product using a "wish list" from its potential customers? Now it's available.

The GO-4 P-35 was designed and manufactured using 5 years of careful research and recommendations from 300 cities around the world. The GO-4 is a high technology 3-wheel utility vehicle that is ahead of its time. It maintains only the highest engineering standards while keeping rider safety as its number one priority.

We created a rugged state of the art vehicle that is "user friendly". We use proven automotive components in our product. The GO-4 features a powerful 84 H.P. liquid cooled automotive engine coupled to a three speed automatic transmission. This translates into lower maintenance costs, and reduced operator fatigue because shifting is

no longer required. The bottom line is increased productivity and less down time.

The GO-4 P-35 has a unique door system designed specifically for the police industry. Ticket monitors can mark tires from either side of the vehicle with ease. The large door opening enables the driver to enter and exit the vehicle quickly. The doors can be removed in the summer and are weather tight in the winter. We also positioned the seat and pedals in just the right locations. Whether the operator is 4'6" or 6'6" the seat is fully adjustable to accommodate the smallest to the largest person.

The GO-4 can maneuver in most confined areas. It can turn in a 3 ft. inside turning radius yet never give the operator a feeling of instability. Even at speeds of up to 60 mph the GO-4 rides like a luxury automobile. The GO-4

introduces the proven "motorcycle concept" in its front end. The heavy duty shock absorbers have a full 6" of travel. Other 3-wheeled vehicles use the conventional leading link supported by two springs. The GO-4's suspension quickly responds to rough city streets and allows for unobstructed access to the front brake and tire. The GO-4 is truly designed for serviceability. Daily maintenance checks can be performed by simply sliding out the rear box. Any mechanic that can service an automobile will feel comfortable maintaining the GO-4.

Dollar for dollar you won't find a more safe, reliable and user friendly 3-wheel vehicle on the market. You asked for it and now it's available. Call WESTWARD INDUSTRIES LTD. for more information about the revolutionary GO-4 today.

GO-4

The Ultimate 3-Wheel Utility Vehicle

Features

- 4 cylinder, 64 H.P., overhead cam, liquid cooled fuel injected engine
- 3 speed automatic transmission
- 2 1/2", gauge, patented "tube guard" frame
- Disc brakes on all three wheels
- 13" wheels with superior front and rear suspension
- Excellent visibility from all angles
- Center steering for easy curb access from either side
- Extra wide adjustable operator seat
- Large door openings for unobstructed entry/exit
- Spacious cab with plenty of secure storage space
- Good fuel economy: 38 city
42 highway Imperial

Specifications

GO-4 Model P-35

Type	3-wheel with cab enclosure and cargo box
Engine Type	64 H.P., 4 cycle, 4 cylinder overhead cam, liquid cooled fuel injected engine
Transmission	3 speed automatic
Frame	2 1/2" diameter "tube guard frame"
Front Suspension	Extra heavy duty hydraulic fork assembly with 6" of travel
Brakes (front & rear)	Power disc brakes on all three wheels
Fuel Tank	7 U.S. gallons
Gauges	Speedometer, Fuel, Temperature, Oil Pressure, Ammeter
Lighting	2 headlights with high/low beam, turn signals, brake lights, emergency flasher
Steering	3.6 lock to lock, 14" steering wheel
Seat	High back vinyl seat, adjustable fore and aft
Curb Weight	1420 lbs.
Load Capacity	800 lbs.
Tire Size	155 x 80 x 13" all season tread
Overall Width	48.5"
Overall Length	119.5"
Overall Height w/Cab	68"
Wheel Base	78"
Turning Radius (inside)	36"
Turning Radius (outside)	114"
Cab Type	Maxi cab (cab area behind seat 41" wide x 11" deep)
Cab Entry	68" high x 35" wide
Rear Cargo Box	13.6 cu. ft.
Standard Equipment	Electric gear drive wiper with 14" blade, outside rear view mirrors, rear bumper, horn, floor mat, seat belt, sound deadening package.
Accessories	Liquid core heater/defroster, spare tire and wheel, jack, special color, sun roof, opening rear window, hour meter, RPM indicator, dome light, back up alarm, beacon, emergency light bar, spot light, rear hub caps, rear window defog, sun visor, rear view mirror, lockable security box, other accessories available.

Specifications are subject to change without notice.
These vehicles comply with the U.S. D.O.T. vehicle safety standards applicable to "motorcycles"

Dear Mr. Ken Rigney:

Thank you for your recent letter in which you request that the company you represent be assigned a World Manufacturer Identifier (WMI) code.

In accordance with the requirements of the Canadian and United States Motor Vehicle Safety Standards pertaining to vehicle identification numbers (number 115), your company has been classified as a manufacturer of motorcycles, mopeds, motor bicycles.

Since your company manufactures less than 500 units annually we have assigned the following code (* denotes a manufacturer defined character):

2W9*****044***

Queries as to the content and interpretation of the 17 character vehicle identification number as required by the Transport Canada standard must be directed to:

Mr. Bertrand Boily,
Transport Canada,
Place de Ville, Tower "C",
Ottawa, Ontario.
