Attention: Nelson Erickson
Routing: #NRM-11

REFERENCE: VIN numbers for Park model travel trailers and fifth wheel recreational vehicles - see our letters dated May 3, 1993, April 12, 1983 and our letter dated June 5, 1991.

Dear Mr. Erickson:

The VIN numbering system used by B & B Homes Corporation dba Teton Homes to identify recreational vehicles manufactured at 3283 North Nine Mile Road, Landmark Industrial Park, Casper, Wyoming, 82604 will be modified as follows:

Digits 1, 2 and 3 as assigned by SAE are 1T9 and remain unchanged.

The 4th digit will be 2 if the unit is a Park model travel trailer or 3 if it is a fifth wheel and remains unchanged.

The 5th digit will be 0 for the Teton Homes line, 1 for the Summit Homes line, 2 for the Grand line, and a 3 for the Prestige line.

The 6th digit will be 0 for all body styles (and only (1) body style will be produced), and remains unchanged.

The 7th digit will indicate the nominal overall length of the unit using the appropriate letters and remains unchanged.

The 8th digit is for the axle configuration and remains unchanged.

The 9th digit is the check digit and remains unchanged. ?

The 10th digit will be for the model year of the product and remains unchanged.

The 11th digit stands for the location of the Teton manufacturing facilities in Casper, Wyoming. Since there is only one such facility, this digit will always be one (1) and this remains unchanged. |

-2-

The 12th, 13th, and 14th digits have been assigned to us by the SAE and are 067 and remains unchanged.

The 15th, 16th, and 17th digits will be our numerical sequential serial numbers and start with 001 for the first unit produced, and simply rolls over to 000 after 999. It will not be affected by the different series with the next sequential number assigned as an order is logged without concern to the series.

If you have any questions, please don't hesitate to contact me.

Sincerely,

Mary Starr
