Attn: VIN Coordinator

Dear Sir:

Mitsubishi Motors Corporation would like to inform NHTSA that since the submission of its 1996 model year VIN system report, there has been a change in the line-up plans.

The Mitsubishi Eclipse and the Eagle Talon two wheel drive models will be produced in a new price class. The "Low" price class will be represented by the numeral "2" in the fifth position of the VIN code of the corresponding vehicles. This designation is consistent with the code system used in all other MMC applications.

Please find attached the corrected VIN code table, and accept our apologies for any trouble this change may cause.
