RE: V.I.N. 4JSBU1626RBT13825

Dear Debbie,

Per our telephone conversation this date, I am enclosing a new "silver sticker" for this person's trailer. The NEW V. I. N. is **4JSBU1628RBTS3825** for this unit changing the "TI" # to TT which automatically changed the 9th number also. Let's hope that this will be successful to get him licensed. The original buyer of the trailer should have had to license it within the given time after purchasing it from you and not just signing it over to this "Adrian" person. There would have been no problem if this had happened and you be sure to tell him this...also tell him that he will be getting a bill from you and me for all he has put us through!!! This is wierd...to be in business for over 6 years and not have a problem like this until after we have been out of business with Tana for almost a year.....life goes on!!!

Hope this helps and if there is anything else I am able to do to help you, please let me know. Take it easy and tell Steve hi from us here.

Sincerely,
CIRCLE A PREFAB, INC.

Shirley De Buse
