RE: Error statement for the DMV with regard to Vehicle Identification Number

Dear Mr. Wolniak,

The Vehicle Identification Number (VIN) assigned to your J/105 Triad Trailer has been discovered to contain an error in calculation, which affects the "Check Digit", or 9th position in the VIN.

The incorrect VIN is the VIN actually supplied to you as: 1T9S352B22N013195
The correct VIN **should** have been: 1T9S352B02N013195

It is our opinion that according to US Code 18 USC 511 we **cannot** change this VIN once issued. However, we are required to issue a correction notice that will be placed in a visible area on the driver's side of the trailer ADJACENT TO (as close as possible) the original certification label. **IMPORTANT: DO NOT REMOVE THE ORIGINAL TAG. DO NOT AFFIX THE CORRECTION NOTICE OVER THE ORIGINAL TAG.**

This information will be submitted to the NHTSA/US DOT VIN error database to be placed in US DOT Docket at Section "B", No. 01-22-N11-E. This database is available for law enforcement and State registration personnel to verify the correct VIN in the event that this error could cause confusion or problems. You should also retain a copy of this letter for your records, and, for your convenience, with your vehicle.

A copy of this letter will be placed in the permanent record file of this unit at Triad Trailers LLC and a copy forwarded:

National Highway Transportation Safety Administration
VIN Coordinator
400 Seventh Street SW, NSA-32
Washington, DC 20590
Telephone: 202-366-6018

Triad Trailers LLC is authorizing Kevin Battcock to act as an agent for affixing the correction notice to the unit.

We apologize for any inconvenience this may have caused. If you have any questions concerning this document, please contact Michael Orro, President, at 919.782.6007.

Sincerely,

Michael Orro
