RE: Company information

Owners are John J. Giljam and Julie Giljam

Our product is an amphibious craft for search and rescue as well as touring and motor home use. We take complete cab and chassis units and assemble them into a boat hull to make them amphibious. We retain all of the stock safety systems in their entirety. This includes the Anti-Lock brakes, airbags, Windshields, windows, defogger, heaters, etc.

The GVWR ratings of our product are from 17,500-26,000 lbs some are 4 wheel drive while most are 2 wheel drive.
