

# BACK TRACK TRAILERS<sup>TM</sup>

199 EXTRUSION PLACE  
HOT SPRINGS, AR 71901  
PH: (501) 262-5300  
FAX: (501) 262-5053

This letter is in regards to our VIN codes.  
Attached is a breakdown of our coding system.

Example: 5HEAH19147H127816

The first three characters will always be 5HE. This is our world manufacturer identifier that was assigned to our business.

The 4th character is the type of trailer we produce. (A=aluminum)

The 5th character is the body type of the trailer. (H=Hyper lift Bottom)

The 6th and 7th characters are the length in feet. (19=19 feet)

The 8th character is the number of axles on the trailer. (1=1 axle)

The 9th character is the check digit that will be determined by carrying out the mathematical computation when the number is assigned. (6)

The 10th character is the model year of the trailer. (7=2007)

The 11th character is the plant location, which will be H, because we now manufacture all the trailers in Hot Springs.

The 12th through 17th characters are the sequential production numbers designated by our serial number computer program.

The example listed above refers to a 2007 model Hyper lift Bottom trailer that is 19' in length with 1 axle.

If you have any questions to the information provided in this letter please feel free to contact me.

Thank You,

Tamra Bentley  
Back Track Trailers  
Office Manager
