49 CFR PART 556, MANUFACTURER IDENTIFICATION

Owner's of Company Scott Colosimo, Jarrod Streng and Curtis Ray

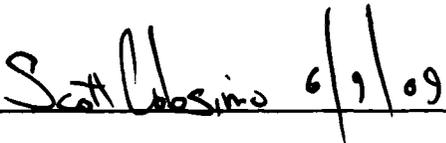

City of Incorporation Cleveland, Ohio USA

Product's Manufactured Cleveland CycleWerks builds motorcycles and scooters using parts and materials purchased from US, and a group of worldwide suppliers. We manufacture our frames in-house using steel that is bent and welded. Our tanks and fenders are made in-house and purchased from suppliers producing parts to our specification. All motors are purchased through appropriate engine suppliers and meet our specification. All motorcycles for sale in respected countries meet all required EPA, DOT, NHTSA, EEC (requirements met or exceeded in all counties motorcycles are sold in). All plastics are manufactured by suppliers in the US and worldwide (at this time we do not own a plastics factory). Aluminum pieces are produces in the US, and worldwide by approved suppliers. Several different metal foundry producers produce aluminum castings in the US and worldwide.

Some vehicles are delivered as certified kits with all nuts, bolts and other components required to fully assembled U.S. market motorcycles. Assembly will require hand tools.

GVWR The gross vehicle weight ratings (GVWR) of our products range from 200 lb to 1000 lb
