

GENERAL MOTORS NORTH AMERICA  
Structure & Safety Integration

USG 4126

EXECUTIVE SECRETARIAT July 13, 2009

Mr. Ronald L. Medford  
Acting Deputy Administrator  
National Highway Traffic Safety Administration  
1200 New Jersey Avenue, SE.  
Washington, DC 20590

2009 JUL 14 P 2:25

RECEIVED - NHTSA

Dear Mr. Medford,

In accordance with 49 CFR Part 566 – Manufacturer Identification, we wish to notify you of certain revisions related to the manufacture of motor vehicles by General Motors Corporation. As a result of proceedings related to the recent bankruptcy of General Motors Corporation in the United States, certain assets of General Motors Corporation are acquired by a new corporation in the U.S. known as General Motors Company. The corporate address of this new business is: 300 Renaissance Center, Detroit, Michigan 48265-3000.

General Motors Company will manufacture several types of complete motor vehicles that had formerly been produced by General Motors Corporation including passenger cars, multipurpose passenger vehicles, trucks and buses. Specific information on 2010 model year vehicles, including approximate ranges of gross vehicle weight ratings, was recently supplied in USG 4121 dated May 26, 2009 to Ms. Jennifer N. Dang Chief, New Car Assessment Program in response to an agency request for new model year information.

General Motors Company will also be an incomplete vehicle manufacturer of several types of incomplete vehicles including passenger cars, multipurpose passenger vehicles, and trucks that had formerly been produced by General Motors Corporation.

ES09-004159

With respect to the 2010 motor vehicles to be manufactured as incomplete vehicles, the approximate Gross Vehicle Weight Rating ranges for each type are as follows:

Type of Incomplete Vehicle	For Completion as	GVWR (min)	GVWR (max)
Cadillac DTS incomplete	Passenger Car/Limo(MPV)/ Hearse(Truck)	5340 lbs	8800lbs
Chevrolet/GMC Van or Cutaway	Cargo Van/MPV Van/Bus	6200 lbs	14200 lbs
Chevrolet/GMC Small Truck/ Chassis Cab	Truck	4850 lbs	6100 lbs
Chevrolet/GMC Full Size Truck/ Utility/Chassis Cab	Truck/MPV	6400 lbs	12000lbs

We will continue to keep you informed of further changes as they become known. Please contact Glen Zuchniewicz of this office, Stephen Gehring of our Washington D.C. office or me regarding any questions.

Sincerely,

Brian Latouf,  
Director, Global Vehicle Structure  
and Safety Integration Center
