Dear Sir or Madam,

This letter is to update our NHTSA vehicle identification sequence identifier for 2010 year model.

As we are identified as a small manufacturer already with the third position designated “9” we understand there is no need to make any changes.

Please see the attached sheet to review our VIN number content layout.

Please inform us if this does not meet any current requirements. Your assistance will be appreciated.

Sincerely,

A handwritten signature in black ink, appearing to read "Terry E. Whitaker".

Terry E. Whitaker
