Hi Chris,

I spoke with Transport late today and confirmed that the web posting is a generic safety advisory pertaining to winter mats. Some further detail appears in a note I sent to Chris Santucci following my discussion with TC. Should you have any further questions leading up to your meeting tomorrow, please do not hesitate to contact me. I generally arrive into the office around 7AM and can be reached by cell phone also. 416-452-9674.

Regards,

[REDACTED]

Hi Chris,

This link references an advisory issued by TC to inform consumers on the proper installation of winter mats. Apparently, TC receives about 15-20 sudden acceleration complaints a year related to improper installation of winter mats. Note, there is no reference to ES 330.

If you would like to speak with me, please call me on my cell -
