George,

OK. We're ready when you are.

Mike:

I greatly appreciate your efforts in looking into this.

Based upon the current pricing structure and our need, I would like to go with Option 1. However, in light of some of the budgetary constraints as well as secondary priority to scan the cards, I would like to wait until March to proceed.

Thank you very much for your understanding!

Responses

George,

The following are some options to reduce the 70F/7LB data capture cost.

1. Current proposal
All encompassing

\$0.27/each

2. Toyota opens mailer and provides info cards in stacked groups

\$0.26/each

3. Toyota opens mailer and sorts info cards into all subset groups

\$0.17/each

Please advise.

Mike

George,

here you go.

Please find price quote as follows:

Pick up From Toyota 20 Bins \$50.00

Sort envelopes from Bin. Slit open and pull out infocards. Sort forms.
Scan Vin numbers and put into proper order.

Provide CD with proper information on it

Price for all of the above is \$269.00 per thousand.

As a fyi previously this was in the mid thirties per thousand.

Hi Mike:

I hope you had a great weekend.

Compliance has a stack of returned mail for 70F/7LB. As part of our GAME

ON initiative, I would like an estimate on the cost for the following:

Pick-up

Opening Envelope

Inputting/Tracking Data

Providing Data Electronically

I think overall you can do it for less expense, but if you can take a look.

Thank you!
