GM,

Hope you are enjoying your time away.

See attached draft for weekly Jane.

I've already added Saxonberg's update for the week, so Regulatory and EH& S sections have been updated.

I did not include information regarding the meetings with the PD's for FMVSS 110 issue. The reason is that a majority of the discuss was explaining why the PD's can't use the MOP and plus alpha going forward (didn't see that coming, LOL) and rehashing basics. I didn't have much constructive information for a Jane.

Take Care...
