RE: 49 CFR PART 566 MANUFACTURER IDENTIFICATION

Owner of Company: Eric L Helpenstell

City of Incorporation: Gig Harbor, Washington

Product Manufactured: HCW builds motorcycles using steel and aluminum tubing, engines and transmissions purchased from United States suppliers or manufactured in house. Peripheral components are sourced from United States based suppliers.

Units are manufactured in a complete rideaway form from our plant in Gig Harbor or Port Angeles, Washington, or Winnemucca Nevada. Some units may be broken down to save space and shipped requiring reassembly at the dealership using common shop tools.

GVWR – Our lightest unit built to date weighs in at 445 pounds, our largest weighs in at 1330 pounds.
