Give me a revised 566 submission that says you assemble, certified motorcycles for the U.S. market. Otherwise, when we sweep the system looking for mis-users of VINs (those that put VINs of frame onlys) we won't delete your entries as a misuser.

We manufacture our own frames, tanks and fenders. We do not manufacture our own motors, we purchase them from a vendor, we sell complete bikes - does this make sense?

Your "566" submission says that Big Bear makes "frames, fenders and tanks."  
If you do not make complete, certified motorcycles, NHTSA will have to rescind the WMI number assigned to you by the SAE.
