ATTN: VIN Coordinator (REVISED Copy)

RE: 49 CFR Part 566, Manufacturer Identification  
Reference SAE 1 P 9 / 6 8 1

Gentlemen:

We are please to submit a revised copy of our VIN Decoding and MFR Identification.

**Owner(s) of the Company:** John Kiel, Philip Kiel, Conrad Kiel and Roy Edwards

**City of Incorporation:** Photo-Sonics, Inc is incorporated in Burbank, CA, USA

**Product Manufactured:** Photo-Sonics manufactures trailer-mounted optical tracking systems that are used to track and evaluate the performance of weapons and other airborne vehicles. These tracking systems are sold to the U.S. Government and foreign governments and contractors and are used primarily on optical test ranges.

The trailers Photo-Sonics manufacture consist of single and dual axle trailers with options for electrical, air and air/hydraulic brake systems. The large systems incorporate Pintel Hooks; the small trailers are equipped with standard Hitch Balls. All the trailers incorporate weather-proof housings for mounting electronic control and recording instrumentation. The trailers also incorporate precision jacks that raise the optical tracking systems off the ground during operation of the tracking system.

**GVWR:** The gross vehicle weight ratings (GVWR) of our trailers, with the optical pedestals installed, range from 1,000 lb to 15,000 lbs.

If you have any questions, please let us know.

PHOTO-SONICS, INC.
