Re : 49 CFR Part 566, Manufacturer Identification

All Names of the Company : Sceadu Design

Owner(s) of the Company : David Mounce

State of Incorporation : NA

Product(s) Manufactured : Sceadu Design builds conversion kits that allow the owners of motorcycles, motor driven cycles, and mopeds to convert their vehicles into three-wheeled vehicles, with two wheels in front. This conversion kit is defined as "Covered Equipment".

Sceadu Design also builds complete motorcycle, motor driven cycle, and moped kits. All complete vehicle kits are powered by electric motors from 01 HP to 15 HP (continuous) or gas engines from 25cc to 400cc.

All complete vehicle kits are delivered as certified kits with all nuts, bolts, and other components required to fully assemble U.S. market motorcycles, motor driven cycles, and mopeds requiring nothing more than simple hand tools.

All complete vehicle kits are limited by software and/or mechanical governors to a maximum speed of no more than 35 MPH, and are designed to be used only on roads with a posted maximum speed limit of 35 MPH or less.

Sceadu Design builds all products using steel tubing, motors, engines, and transmissions purchased from U.S. suppliers. All frames are welded in the U.S. All body panels are made from GRP and are molded in the U.S.

GVWR : The gross vehicle weight ratings (GVWR) of our products range from 150 lb to 600 lb.
