Attention: VIN Coordinator

RE: 49 CFR Part 566, Manufacturer Identification (Intermediate Stage Certification)

All Names of the Company: ZeroTruck Corp.

Owner(s) of the Company: various shareholders

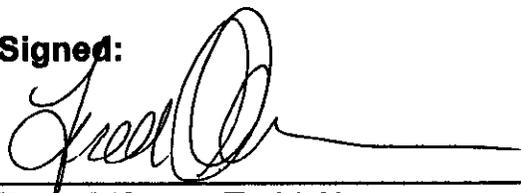

State of Incorporation: California, USA

Product Manufactured: ZeroTruck Corp. integrates electric drive systems to existing medium duty trucks. Specifically, we remove the gasoline or diesel engine, fuel tanks, exhaust, etc. and replace it with semi-custom components, which allow the truck to drive with electric power only. We do not modify the VIN. The truck then goes to the body up-fitter where the vehicle body is installed, weighed, label placed on the truck and then delivered to the truck dealer for sale to the customer.

We are requesting certification as an intermediate stage manufacturer.

GVWR: The gross vehicle weight ratings (GVWR) of our products range from 12,000 lb. to 19,500 lbs.
