Mr. David Strickland  
Administrator  
National Highway Traffic Safety Administration  
1200 New Jersey Avenue  
Washington, DC 20590

Attention: VIN Coordinator

Subject: Modification of Certain 2010 Model Year E-350 Econoline cutaways, 2012 MY E-350 Econoline cutaways, and 2012 MY F-350 Super Duty chassis cabs.

This is to inform the agency that due to a customer ordering error Ford Motor Company (Ford) has recently modified two 2010 model year E-350 Econoline cutaways and three 2012 model year E-350 Econoline cutaways, revising the GVWR weight class to a level different from that indicated by the character "S" and "D" in the VIN, respectively. Due to a misunderstanding in the ordering process Ford has also modified twenty-one 2012 model year F-350 Super Duty chassis cabs, revising the GVWR weight class to a level different from that indicated by the "8" in position 4 of the VIN.

Ford has revised the GVWR on these vehicles as specified in the attached table. The modifications took place at a final stage manufacturer and were witnessed by Ford representatives. The modifications included changing the front springs (Econoline vehicles only) and replacing the Ford Incomplete Vehicle Certification Label and the Certificate of Origin for a Vehicle with one's containing the revised information. The modifications were necessary because of ordering errors resulting in the vehicles not being suitable for completion in the intended manner without modifications.

If there are any questions regarding this VIN information, please contact me.

Sincerely,

R. A. Nevi  
Assistant Director  
Global Automotive Safety Compliance
