Washington, D.C. 20590

To Whom it may concern,

Enclosed are photo-copies of the original papers we sent to your organization on August 30, 2005. We have not received any return correspondence which I believe we legally should receive within sixty days. I am requesting confirmation of this material and/or of the original materials sent, since the sixty day mark is quickly approaching.

If you have any questions or need further information, please contact Joe Schaffer at (323) 262-2000 ext. 16.

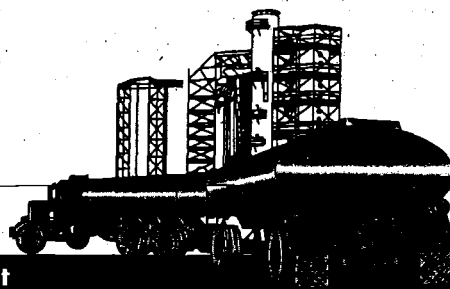

Sincerely,

A handwritten signature in black ink, appearing to read 'R. Joe Schaffer'. The signature is fluid and cursive, with a large, stylized 'S' at the end. It is positioned above the printed name and title of the signatory.

R. Joe Schaffer
Corp. Officer

Information for Section 566

This company was established in 1945, and has been manufacturing truck cargo tanks and full trailer tanks for over sixty years.

We manufacture truck cargo tanks that we mount on incomplete vehicle chassis that are supplied by our customers. The GVWR of the trucks we manufacture (complete) range from 26,000 to 54,000 pounds, depending on the customer's needs and location of operation. Once the vehicle is completed, we certify that it complies with all applicable regulations and statutes. We place a Final Stage Manufacture's sticker in the driver side door frame. Once in place, if the sticker is removed, it is destroyed and not capable of being alter and reattached. The GVWR set by the incomplete vehicle manufacturer is adhered to and never exceeded by our company.

We also manufacture full pull trailers (cargo tanks) and semi trailers (cargo tanks). The lengths of these trailers range from 22 ft to 40 ft with GVWR from 40,000 to 68,000 pounds. we placed a manufacture's placard on each trailer (copy enclosed) which contains the vin number, date of manufacture, tire and rim information, and GVWR information in relation to the number of axles.

We manufacture approximately fifty (50) truck tanks, thirty (30) pull trailers, and six (6) semi trailers a year.

The company is a California Corporation owned by:
Ray Schaffer
Sheldon Schaffer

The individuals who are responsible for certifying the completed vehicles are:
Ray Schaffer
Steve Schaffer
Joe Schaffer
